Choppy Market Begins New Year 2001 Starts With FUN

The numismatic new year has begun with a bang! The Florida United Numismatists Show and Convention is underway in Orlando. The January 3-7 bellwether show is among the nation's largest rare coin shows. Each year, the FUN Show allows dealers to come together from around the country to buy, sell and trade rare coins and other collectible items. The activity monitored at the FUN Show will have far reaching implications for the market as we enter a new year. These are times of uncertainty as the economy is less robust than we have seen during the last few years. As the economy contracts, so does the collectors disposable and discretionary income. We know that some of these funds have entered the rare coin market. Big ticket items have been the beneficiary of a portion of this money. The wealth that has been attained in the financial markets has trickled down the numismatic road. Will this downturn affect the buying habits of these investors or will the decline in the stock market be a temporary bump in the road of a long term bull market? The answers are not readily available but as the new year unfolds, the direction and outlook will become more clear.

The sight-unseen rare coin market is surely affected by these events and other factors as well. Currently, the sight-unseen market can best be described as choppy. Increases and decreases are taking place in just about all of the sectors that we cover. Funds are not as prevalent as we have seen earlier in the year. However, dealers are still stepping out to Bid for the coins that they need. Even in these uncertain times they are not afraid of increasing their Bids for material they need.

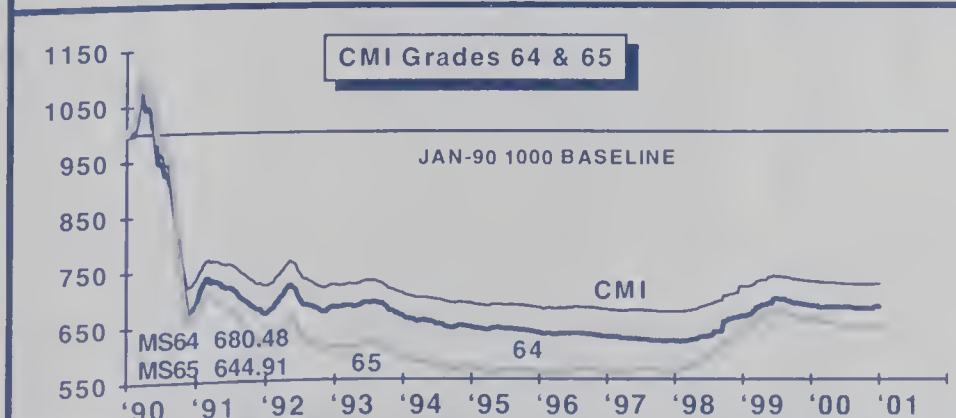

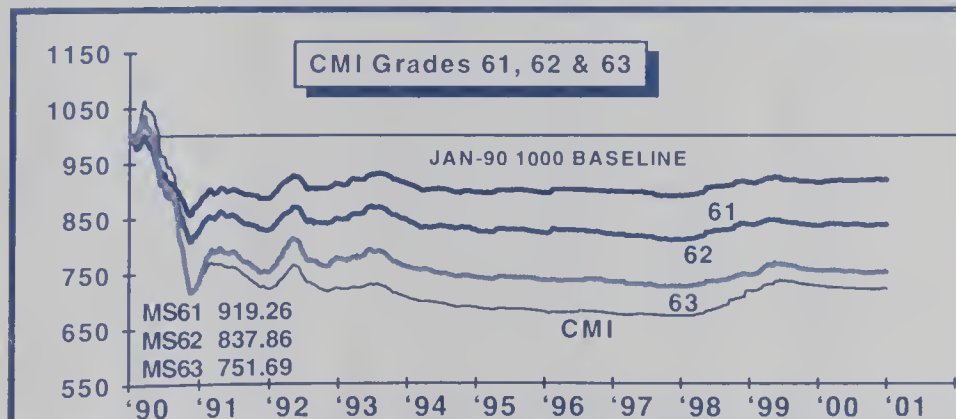

Type is indicative of this market. Mint State Type is displaying some signs of support coupled with a few minus signs. Increases are tougher to locate and when they do appear, they are slight. The weaknesses taking place from year end discounting as slowed. Still, the coins that are needed to complete a transaction continue to receive strong, well-thought Bids. Dealers always look to

buy Uncirculated Type because these coins receive wide-spread collector appeal. Most of the Uncirculated Type coins continue to realize solid, supporting Bids at current levels. However, the number of Bidders that are supplying this support is not as numerous as we have seen during the early part of last year. Gold Type is also facing some problems. Weak spot bullion prices continue to drag this market down. Although we have seen more interest at current levels there is still a lot of negative sentiment among this sector. Consequently, prices are mixed with declines and increases. Some dealers are viewing these levels as an excellent entry point for new or established collector/investors.

Proof Type is displaying a greater number of plus signs than minus signs. Interest is targeting the Nickels. We see that 3-Cent Copper Nickels, Shield Nickels, and Liberty Nickels are in demand. Dealers are looking for examples grading Proof 65 or better. Proof Type coins are currently trading at levels that dealers believe to be affordable for collector/investors. However, even in Proof Type some discounting is occurring.

Morgan Dollars are mixed. Bids are increasing for select early issues in grades from MS61 thru MS64. However, discounting and weakness is taking place for some common issues grading MS64 and better. Peace Dollars are also soft this week. Declines are evident with buyers remaining on the sidelines.

Silver Commemoratives are another area where choppy waters exist. Select issues are still needed with dealers increasing their Bids. Yet, discounting is evident as some minus signs are seen on our charts. Gold Commemoratives continue to maintain its strong position with buyers in wait at current levels. Buffalo Nickels are generating more minus signs than plus signs. The same scenario is true for Walking Liberty Half Dollars. The market is mixed and it appears to be waiting for a catalyst. Maybe that direction will become more clear after the results of the FUN Show are history.

The PCI Capsule...

- ☑ \$8⁰⁰ PER COIN
- ☑ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at **PCI** have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XVI No. 2

January 12, 2001

Single copy price \$4.00

A FUNtastic Beginning To 2001 Pockets Of Strength In Sight-Unseen Market

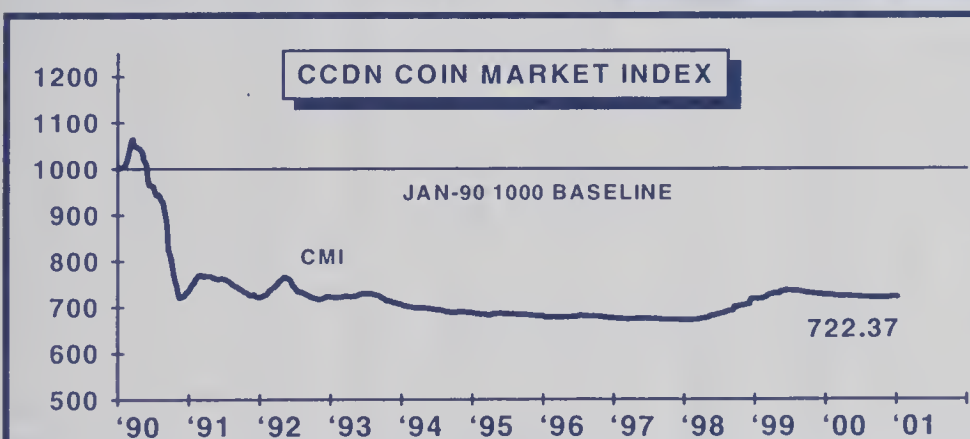

The bourse floor and auction block at the FUN Show in Orlando offered several surprises with many rare and high quality examples changing hands. An impressive price of \$109,250 was paid for an 1897-O Morgan Dollar in Mint State 67 condition. The record price of \$69,000 that was paid for a 1953-S Franklin Half Dollar graded MS66 with Full Bell Lines was also impressive. For these high grade gems and other premium quality for the grade rare coins, prices that were paid on the bourse floor and at public auction were quite healthy. Unfortunately for dealers trading on the bourse at FUN, it became apparent that these very in demand rarities were the coins that were fully priced by exceptionally knowledgeable dealers. These were also the coins that exploded in price when they hit the auction block. We see runaway prices occurring for quality coins time after time.

The FUN show had more than its share of action in high quality certified rare coins. Slabs were readily trading between dealers as well as some high powered collector/investors that were in attendance during the show. Morgan Dollars were in ample supply on the floor and on the auction block. The Bowers and Merena Rarities Sale along with the Heritage Signature Sale provided a very nice supply of quality and rare date Morgan Dollars. The Bowers and Merena auction allowed everyone the opportunity to Bid on the key date 1889-CC in an outstanding Mint State 68 condition. This PCGS certified Dollar traces its pedigree back to the Louis E. Eliasberg, Sr., Collection before residing in the famous Jack Lee Collection. The present consignor must have been pleased because the coin set a record with a winning Bid of \$529,000. The happy owner of this coin is none other than Jack Lee who regained ownership of this amazing rarity. The January 3 Bowers and Merena Rarities Sale realized over \$2.4 million.

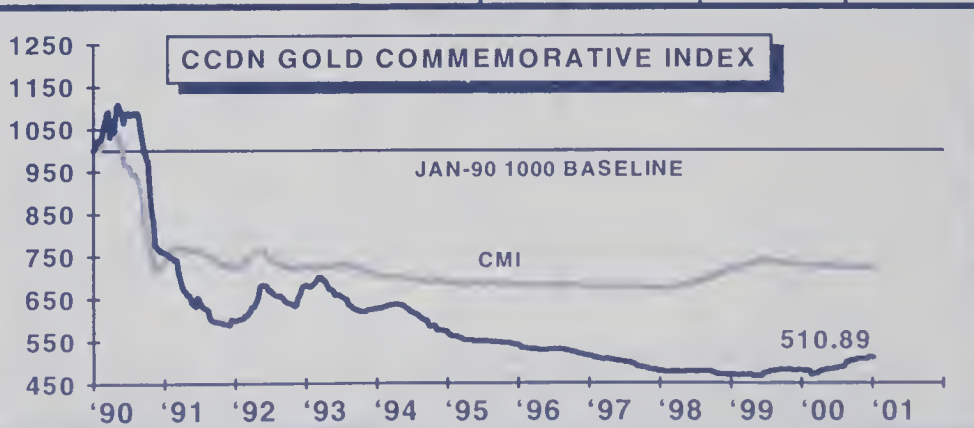

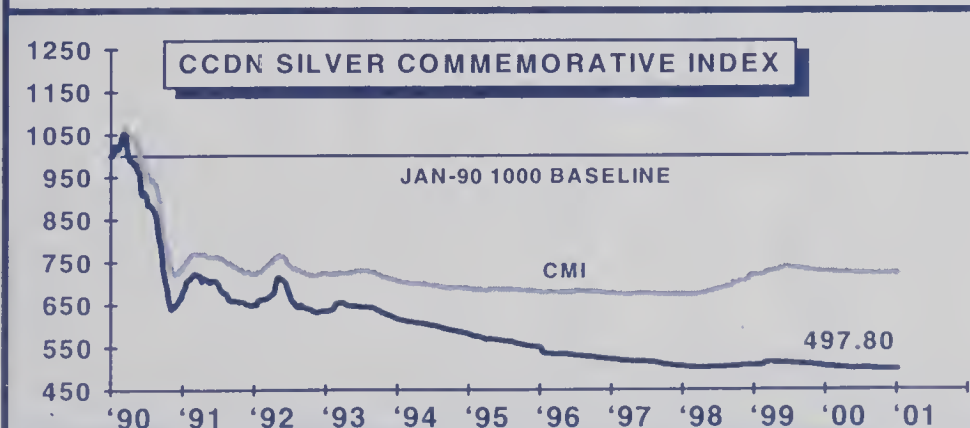

Heritage had their turn by offering the outstanding collection of Morgan Dollars assembled by Gregg Bingham, former star linebacker with the Houston Oilers football team. Many examples brought prices in excess of their catalogers estimates. In all, the January 4-6 Heritage FUN Signature auction realized more than \$6.5 million.

The sight-unseen market is suffering in some select areas from average coins being discounted. Dealers trying to increase their cash flow are willing to blow out coins that are not moving. Generic and lackluster looking coins are quick targets of these blow outs. This activity was monitored during the January 3-7 Florida United Numismatists Convention and Show in Orlando. For many dealers, generic coins were the usual target of this activity. Unfortunately, some had to settle for less than they thought they could reasonably receive for their coins. There are different avenues for a dealer to explore to receive a higher payoff if one takes the time and effort. The key is one's time frame. When money is needed immediately, there is little surprise by the number of low offers for some rare coins. As we said, common date coins of many denominations and grades were weak sellers in Orlando. A similar scenario can be painted for those coins that may be better dates but were rather lackluster in appearance. Consequently minus signs are appearing in a few areas of the Bluesheet this week. However there are other select areas of the sight-unseen market that remain strong. Silver and Gold Commemoratives; Proof Type Nickels; later date Walking Liberty Half Dollars; and Washington Quarters. Weakness is evident among early date Gold Type; select Prooflike Morgan Dollars; and, generic coins of most denominations.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

RARE GOLD

If you are a marketer of rare United States Gold coins and you do not receive my wholesale price list, you may be costing yourself money.

I'm one of the largest wholesalers of rare United States Gold coins in the world. I have over twenty years experience in wholesale gold coin sales.

Each week, I put out a "user-friendly" inventory list which contains over \$1 million of choice, fairly priced rare U.S. Gold coins.

I specialize in PCGS and NGC graded U.S. Gold coins struck from 1795 to 1900 in Very Fine to Mint State grades.

Comprehensive support material is available. I can increase your sales and make it easier for you to sell rare U.S. Gold coins.

Sight-Unseen Market Moves Higher Strong Bids Target NGC Proof Gold Type

A strong sight-unseen rare coin market is unfolding this week. Evidence of this statement is seen by the plus/minus count in the chart below. We see sight-unseen Bids increasing in several sectors of the market with some Bids jumping to significantly higher levels. However, it is important to make the distinction that the lower Mint State grade categories are receiving a greater number of increased Bids than the upper grade range for most series. Dealers are obviously in need of specific rare coins and they are willing to do what ever it takes to be successful in their efforts. Still, they are doing so in a direct and cautious mode. They feel a greater degree of confidence when Bidding for coins that are in the **lower** range of the Mint State category. This decision is tied to the economic factor. They know that if they buy a coin sight-unseen and it turns out to be one point lower than the assigned grade, the risk is generally not as great for those coins grading MS61 thru MS63. However if they buy a coin grading MS64 or better, and they believe that it to be one point off, then the loss can be substantial. This kind of financial burden is too great to bear for many dealers working with a narrow profit margin.

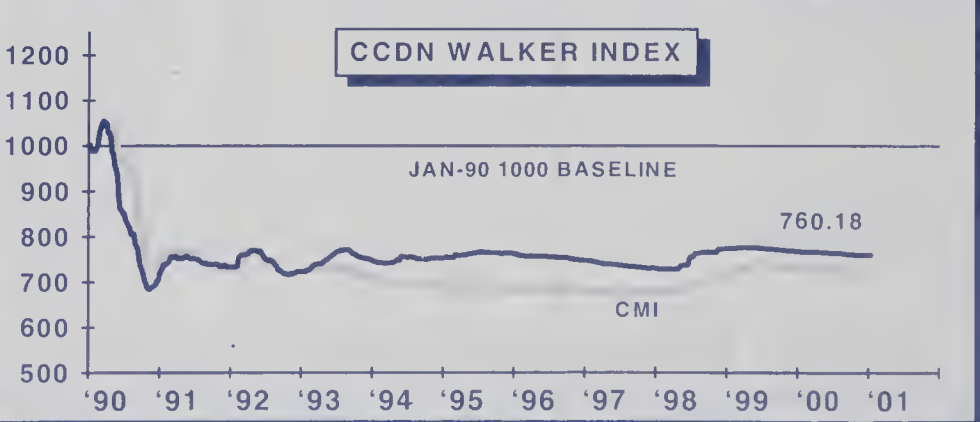

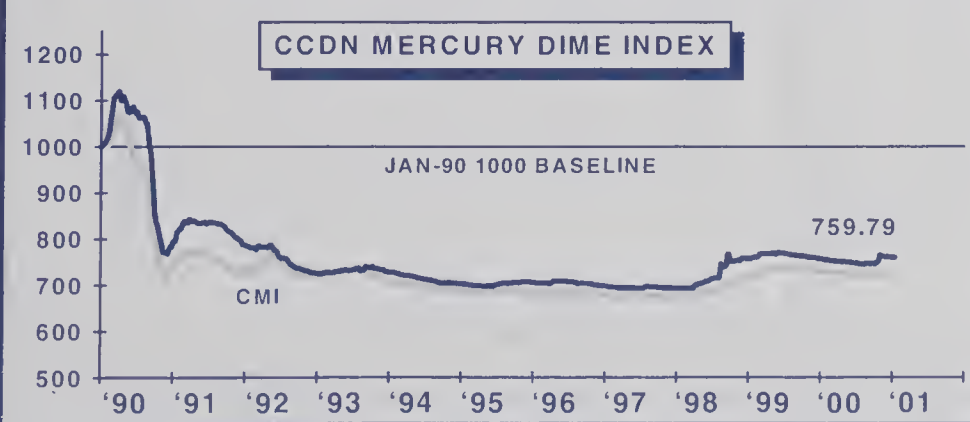

Another observation has to do with the target of this week's demand. There are noticeable increases in the number of Bids chasing NGC professionally graded and slabbed rare coins. These Bids are not only numerous, but in some cases they represent strong increases over previous *Bluesheet* NGC Bids. What area is realizing the strongest Bids? Proof Gold Type seems to jump off the page at this question. Increases are taking place in nearly all denominations of Proof Gold Type. Again, the Bidding is confined to the lower Proof Gold grades. Still, the size of the increase is what makes this demand compelling. We know that Proof Gold has sustained a great deal of pressure from

the huge supplies thrust on the market from the liquidation of collections via fixed price lists and thru recent auctions. As these coins begin to be absorbed by the market, supplies should decrease.

Proof Gold is not the only area receiving increased Bidder attention. Mint State Type is showing similar increases for Flowing Hair and Draped Bust Half Dimes. The demand is once again targeting the MS61 thru MS63 grades. Early Dimes are also realizing interest in these grades. This time, Draped Bust Small Eagle and Heraldic Eagle are both advancing. We also see increases in the Large and Small Size Capped Bust Dimes for these three Mint State Grades. Plus signs can also be found for Draped Bust Half Cents in MS61 and MS62 **Red**. Again, the small difference in price for these two Half Cent grading categories allows dealers to feel comfortable with their Bids. Remember, this type of low-risk strategy for buying coins sight-unseen must be examined on a coin by coin level. Buffalo Nickels are also sporting a solid number of higher Bids. Here, interest is widespread throughout the series with most plus signs representing only slight increases. Buyers in this series are presently looking for those issues grading MS64 and MS65. Demand is also apparent for Walking Liberty Half Dollars. Buyers are increasing their Bids for late dates grading MS65 and MS66. Silver Commemoratives are leading the market with the most increases of any series. Just about every Type of Silver Commem grading NGC MS61 thru MS62 has a buyer paying Bid or more. Mint State Gold Type has **failed** to participate in this demand party. Unfortunately Gold spot continues to be flat, trading at stagnate levels. This puts a damper on all the common date Gold pieces. Consequently, a number of collector/investors of generic Gold coins are remaining on the sidelines waiting for the signal to re-enter this field.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

You have to have this hot list of 44 coins destined for gains! And you need to know the 44 secret losers that could send you to the poorhouse!

Two winners on the cover: An 1804 Draped Bust silver dollar (left) which sold at public auction for \$1,815,000 and a 1913 Liberty Head nickel which sold at public auction for \$1,485,000

Scott Travers' Top 88 Coins Over \$100 44-COIN HOT LIST ♦ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"Scott Travers' Top 88 Coins Over \$100 is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. Top 88 is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

♦ R.W. Julian, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

♦ from the introduction by Ed Reiter, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In The Top 88, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

You'll learn about:

- The elements of value
- Independent third-party grading
- The age of type coins
- Opinions relating to what coins are "losers"
- A list of coins that are "winners"
- Why every coin listed has something to like and something to dislike
- One-year type coins
- Generic Morgan dollars
- Commemorative coins
- Mint-error coins
- Uncirculated late-date coins
- Late-date proof sets from 1968 to date
- Marketplace data and expert opinions on every listed coin
- Meticulously researched historical information

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of five award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. His widely distributed Random House price guide, *The Insider's Guide to U.S. Coin Values*, is updated annually. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

January Sight-Unseen Market Doing Fine Active Bidding Seen In Many Sectors

The first month of 2001 is nearly in the books with the sight-unseen rare coin market doing well. Active Bids placed by market players are chasing a cross-section of the numismatic marketplace. A number of dealers continue to steadily push up Bid ever so slightly on the material they market. Other dealers are jumping Bid considerably for coins they believe to be undervalued. We saw an example of this kind of Bidding take place on our Mint State Type chart. First with last weeks issue we saw Bust Half Dimes and Dimes jump in lower Mint State grades. This week, we see at least one dealer looking for Liberty Seated Half Dimes with No Drapery in high grade. This East Coast dealer is offering to pay \$1,800 for MS65; \$2,850 for MS66; and, \$5,800 for MS67 examples. These are **sight-unseen** Bids for coins encapsulated by either NGC or PCGS.

PCGS has graded less than 100 examples in MS65 or better condition as of January 1, 2001. Of these 99 pieces slabbed by this service, 63 grade MS65; 26 are at the MS66 level; 9 received the MS67 grade; and, one example carries the MS68 grade. The NGC Census Report offers a similar breakdown with twice the number that PCGS has slabbed at 200. Through 9/30/00, NGC has graded and encapsulated 111 MS65 Liberty Seated Half Dimes with No Drapery. They have also graded 58 in MS66 and 31 in MS67 with none higher.

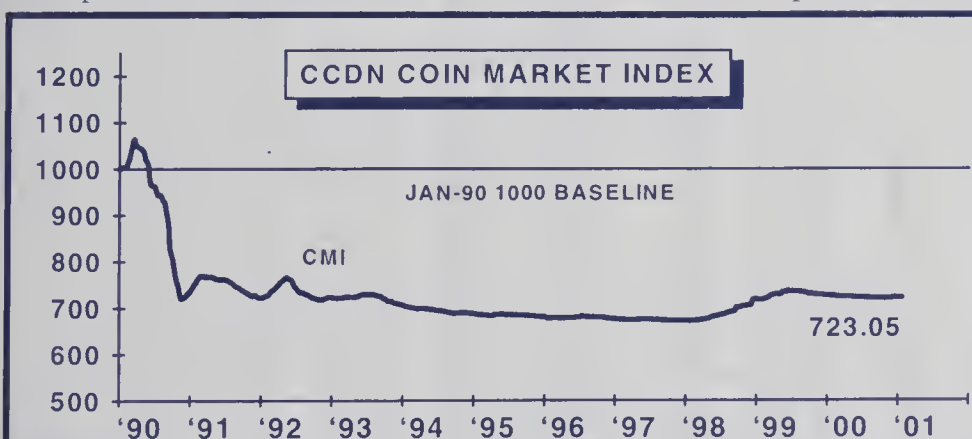

The No Drapery variety is heavily sought-after by collectors. It is an important part of anyone's Mint State Type collection. The No Drapery Half Dimes were struck from 1838 through 1840. Consequently, there are only three years to choose from to complete this segment of your Type collection. Of the three dates, the first year, 1838 is the most available for collectors. Combined, NGC and PCGS have slabbed 100 examples of this common date in MS65. This number represents more

than half the entire population of all slabbed examples in this grade by these two services. We know that the Mint State Type area remains as one of the most popular areas to collect. Therefore, with the most common date of this Type having a population of only 100, it is easy to see why dealers need these coins and are willing to jump the Bid in order to successfully acquire them.

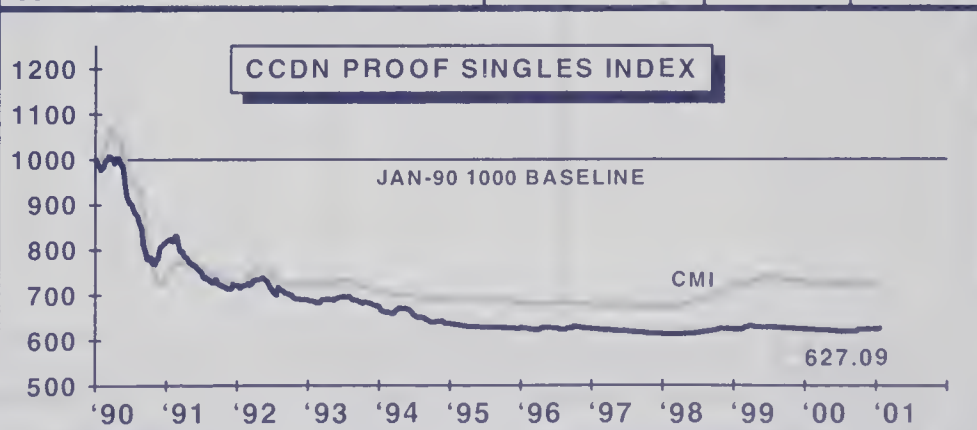

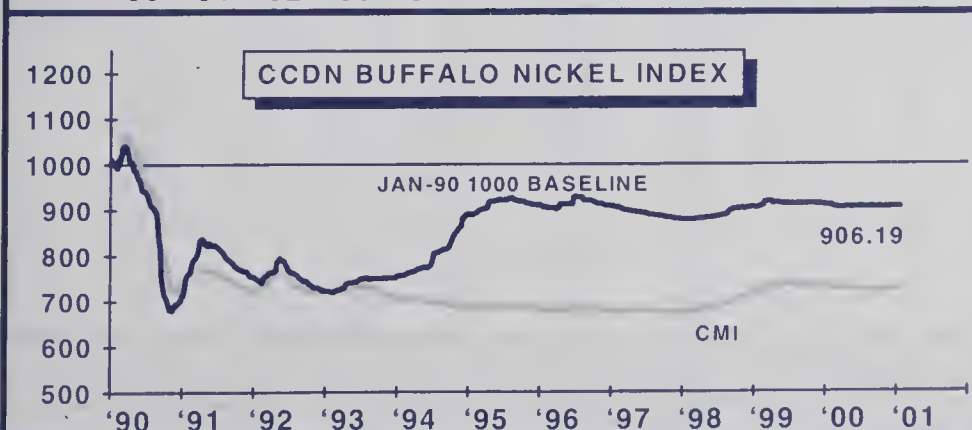

Proof Gold Type is continuing to realize strong increased Bids with many plus signs. Again, like last week, dealers are targeting NGC Gold in lower Proof grades. They believe that this area of the sight-unseen market is undervalued. So, another round of corrective Bids have occurred.

Other areas of the market continue to realize strong supporting Bids from dealers. The Silver and Gold Commemorative markets are a perfect example of this activity. We know that dealers are still willing to pay strong money for Gold Commemoratives. These coins have been in short supply for some time now and we continue to monitor healthy Bids for these coins in the Mint State grading category. Although not quite as strong as the Gold Commems, the Silver Commems are receiving a considerable amount of interest from dealers. We see a scattering of plus signs this week across this long series. Collector demand continues to drive this market higher.

Like the Commems, Morgan Dollars are very popular with collectors. Dealers continue to post increased Bids for select coins in this series. It is well known that there are a lot of collectors working on complete sets in various Mint State grades. Consequently it is easy to see why dealers continue to push Bids slightly higher trying to accommodate their customer's want lists for Dollars. Besides Dollars, plus signs can be found among Buffalo Nickels, Walking Liberty Half Dollars and Proof Half Dollars.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

PEACE DOLLARS

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

NOW THE CHOICE FOR ERROR COIN GRADING IS AS EASY AS NGC

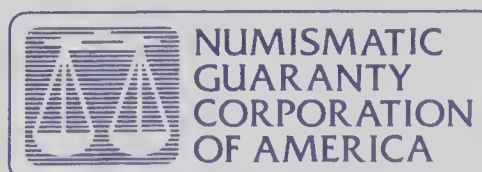

NGC IS PROUD TO INTRODUCE ITS LATEST GRADING SERVICE... MINT ERROR COINS.

- 1** There is no extra charge for NGC Error coin attribution... **YOU PAY ONLY THE COST OF THE NGC GRADING TIER YOU CHOOSE.** And, NGC certifies virtually all non-proof U.S. and World Errors.
- 2** **YOU CAN SUBMIT ERROR COINS UNDER ALL NGC TIERS**, including our \$15 21-day economy service (*Compare that to \$30/30-days elsewhere!*).
- 3** Top error expert Dave Camire is now on-staff with NGC to attribute your error coins **INSIDE NGC'S HIGH-SECURITY FACILITY.** (*Compare to others that ship your coins out to consultants*)

In addition to our error attribution specialist Dave Camire, your error coins are graded by NGC's top team of grading experts and placed in our secure high-quality holder. We also offer an affordable PreScreen service for your bulk submissions of mint errors.

Error coin certification from NGC. As you'd expect, we do it right.

Is The Economic Climate For Coins Changing? Proof Gold Goes Against The Grain

February begins with the sight-unseen rare coin market enjoying several areas of prosperity, even though some segments are showing continuing signs of weakening. However, it is the supporting Bids coupled with several increasing sight-unseen Bids that are a bit surprising. Dealers often like to Bid sight-unseen to acquire rare coins to meet their immediate needs. Some coins are also purchased for inventory but the bulk seems to be targeted for quick resale to their customers. Still, it takes confidence in the third party professional grading services and their encapsulated coins as well as believing that customers are willing to buy them before most dealers will increase Bid. Why are these increasing Bids suddenly so surprising? It is surprising only because it comes at a time when the country is facing an economic slowdown. Economists are pointing to corporate layoffs and reduced future earnings' expectations as ominous signs. As more and more companies report that their quarterly earnings are missing the mark on expectations, the overall economic sentiment continues to drop, now to its lowest level in quite some time. Still, the Federal Reserve Open Market Committee has, for the second time in a month, stepped to the rescue by lowering interest rates one half of one percent. This action, coupled with a proposed income tax cut by the new administration may lift the prospects for the balance of 2001 and beyond. Dealers are aware that a strong, sound economy is an important ingredient for the wide-spread collector/investor purchasing of rare coins. We know that many buy rare coins with discretionary income that is more abundant when times are good. Consequently, turbulent and uncertain times can wipe away some of those funds that would have been earmarked for rare coins.

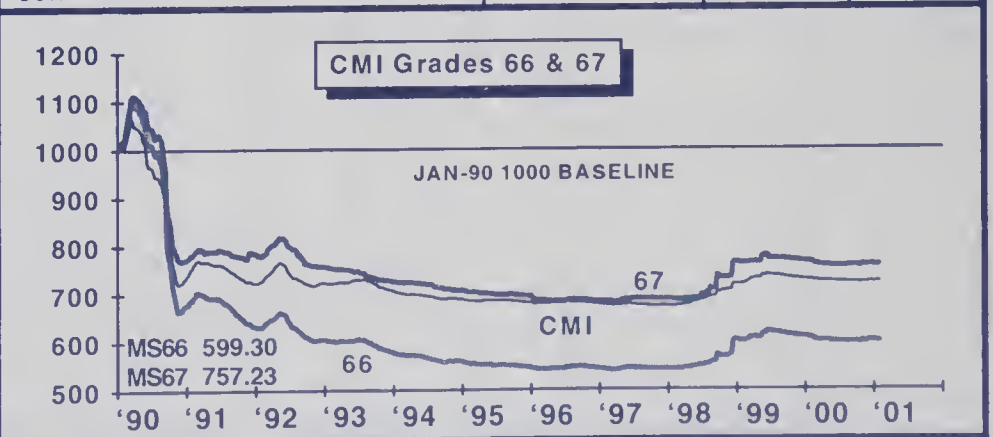

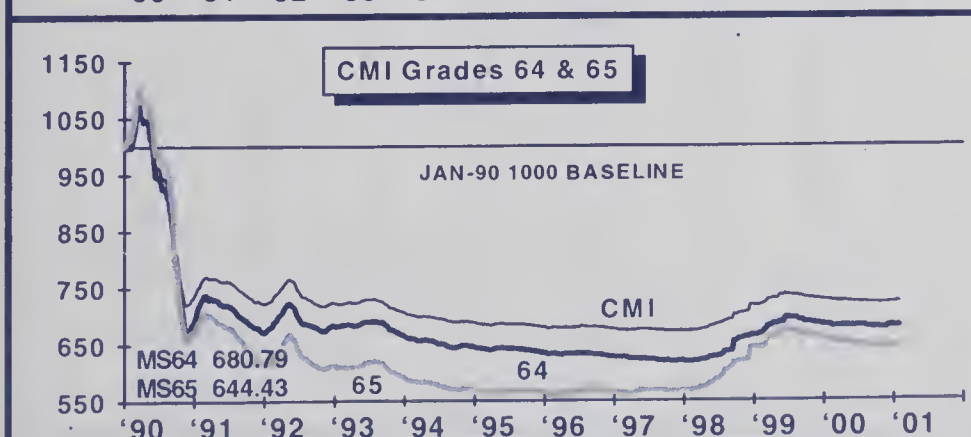

So where is the demand for rare coins occurring today? Has this slowdown already taken its toll on the rare coin market? Look at rare and expensive Proof Gold segment. As we have seen over the past several weeks, dealers have been

pushing up the Bid for sight-unseen NGC Proof Gold Type. This week is a continuation of that trend with dozens of plus signs appearing for Proof Gold denominations from \$1 thru \$20. Yet, the amounts that dealers are willing to commit for these coins are under \$14,000, with the majority of issues being under \$7,500. This is a rather conservative amount when you consider that we are talking about Proof Gold. The lone exception is the demand that is seen for 1879 Flowing Hair Stellas. Here, we see dealers willing to pay from \$44,800 to \$55,000 *sight-unseen* for PR61 thru PR63 NGC examples. \$4 Gold Stellas fall in their own category, similar to High Reliefs and \$50 Panama-Pacific Exposition Commems. This elite group of coins attracts demand no matter what is happening in the general economy.

Signs that the market is in a quandary are also present. Some series are sporting plus *and* minus signs such as Morgan Dollars and Silver Commemoratives. Other series are only displaying minus signs such as Mercury Dimes and Peace Dollars. Apparently there is some degree of nervousness out there that may be causing some anxiety. We know that the generic portions of certain series such as Peace and Morgan Dollars are weak. Yet, we see that common date Peace Dollars are only declining slightly this week while common date MS64 Morgan Dollars are increasing. Further complicating the issue finds common date MS65 Morgan Dollars declining. These are definite signs of a mixed and nervous market. Support may be forthcoming from the precious metal arena if Silver spot continues to strengthen. For dealers, they are looking forward to their customer want lists and the challenges they face in trying to fill those demands. Hopefully, they will be successful in meeting some of their needs at the next major coin show and the surrounding public auctions. Until then, dealer networking provides an outlet to fill some of their demands or to sell some of their stale material.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

A Flight To Value Pre-Long Beach Auction Offers Rarities

Dealers feel compelled to increase their Bids when the spread between PCGS and NGC coins becomes too wide. This is the opinion of several dealers who have recently been increasing their sight-unseen and sight-seen Bids for NGC professionally graded and certified rare coins. They are looking to take advantage of an attractive situation with little to no risk assumed. They believe that there is excellent value in buying the NGC coins that they feel are truly underpriced. Consequently, we have seen increased Bids for select issues throughout the *Bluesheet*. This activity has certainly provided a boost for several issues in the sight-unseen market. We have seen some areas of the market become an instant beneficiary of these increases.

Silver Commemoratives has received the greatest number of increases and attention by dealers. Again, the majority of the activity is taking place on the NGC columns. A wide range of Commemoratives are enjoying increased Bids. First the lower Uncirculated grades jumped, now the bulk of the demand has shifted to MS64 thru MS66 graded Commems. Dealers know that Commemoratives were saved by collectors and it is not unusual or difficult to find high grade, attractive examples.

Besides Commems, Mint State Type is another area that has been targeted by dealers. Again, the difference in price between the PCGS and NGC Bid has been the stimulus for dealers. Increases are seen for Copper coins including Half Cents, Flying Eagle and Indian Cents, and, 2-Cent Pieces. Additionally, 20-Cent Pieces, Draped Bust and Trade Dollars are strong.

At a time when the economic condition in this country is weakening, it may seem a bit unusual for dealers to be offering to pay higher amounts to buy rare coins. These higher Bids also come at a time when consumer confidence is low and corporations are being forced to reduce their labor force. According to one East Coast dealer, collector demand is not only strong, but it seems to be

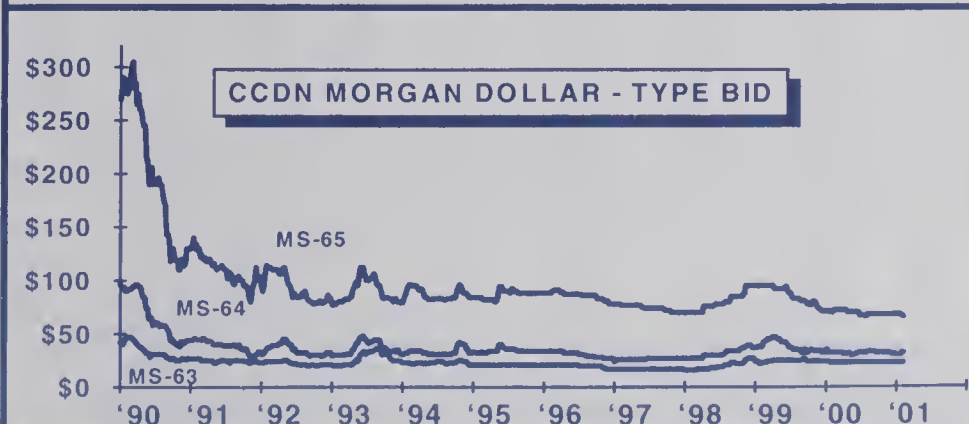

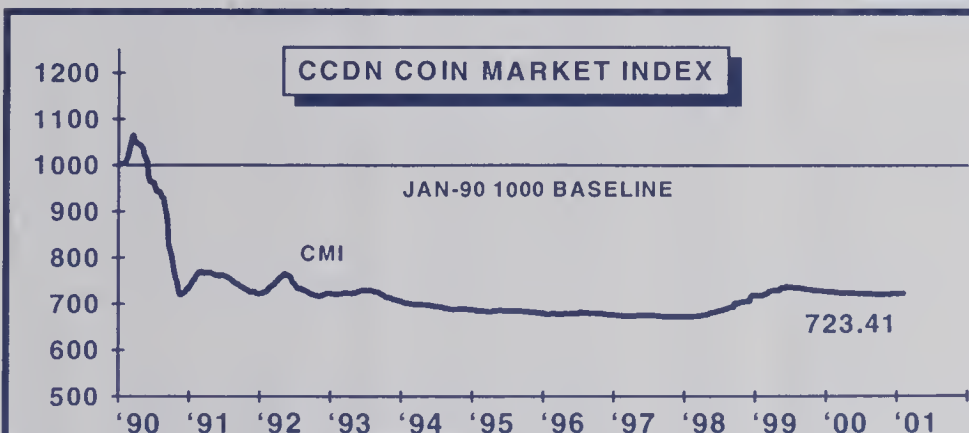

getting stronger. He believes that the sharp declines taking place on Wall Street has forced some investors to find other areas to keep some of their money. This diversification may be responsible for the additional interest in rare coins. For some, buying rare coins is totally new. These people have become familiar with coins through the U.S. Mint's Quarter program and other modern coin sets. Consequently, they are willing to take the next step for coins that circulated years ago. At the same time, dealers suggest that past collectors believe this to be a good opportunity to reenter the rare coin market. They have some knowledge about rare coins and wish to put up some funds. Both groups feel comfortable spending from \$200 to \$5,000 for rare coins. Thirdly, there are the die hard collectors that never left the market and keep trudging along buying a coin here and there. Therefore, this combination of demand has made for an interesting market.

The busy February season begins at public auction. Superior Galleries of Beverly Hills will conduct their Pre-Long Beach Sale. It will be held on February 17-20 and feature the J.R. Frankenfield collection of Half Cents and

Large Cents; the Chicago Proof Type collection Part II; the Hudson River Valley collection Part IV; the Hawaii collection; and, the Tennessee collection as well as other consignments. This huge sale will take two catalogs and seven sessions to complete. We listed a few of the certified highlights.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, one of the largest transactions in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Sight-Unseen Bids Strengthen

NGC Sleepers Awaken

The coin market is seeing an acceleration in the number of higher sight-unseen Bids being placed for several series. Walking Liberty Half Dollars, Type Gold, Morgan Dollars and Peace Dollars are just a few areas receiving an increase in demand. Walkers are generally quiet while the Dollar market is usually active, but this week, both are extremely active. Often, the majority of activity is seen from dealers posting supporting Bids for many of the dates and grades in these popular series. However, this week, a larger than normal number of plus signs is evident in several areas for both PCGS and NGC professionally graded and slabbed coins.

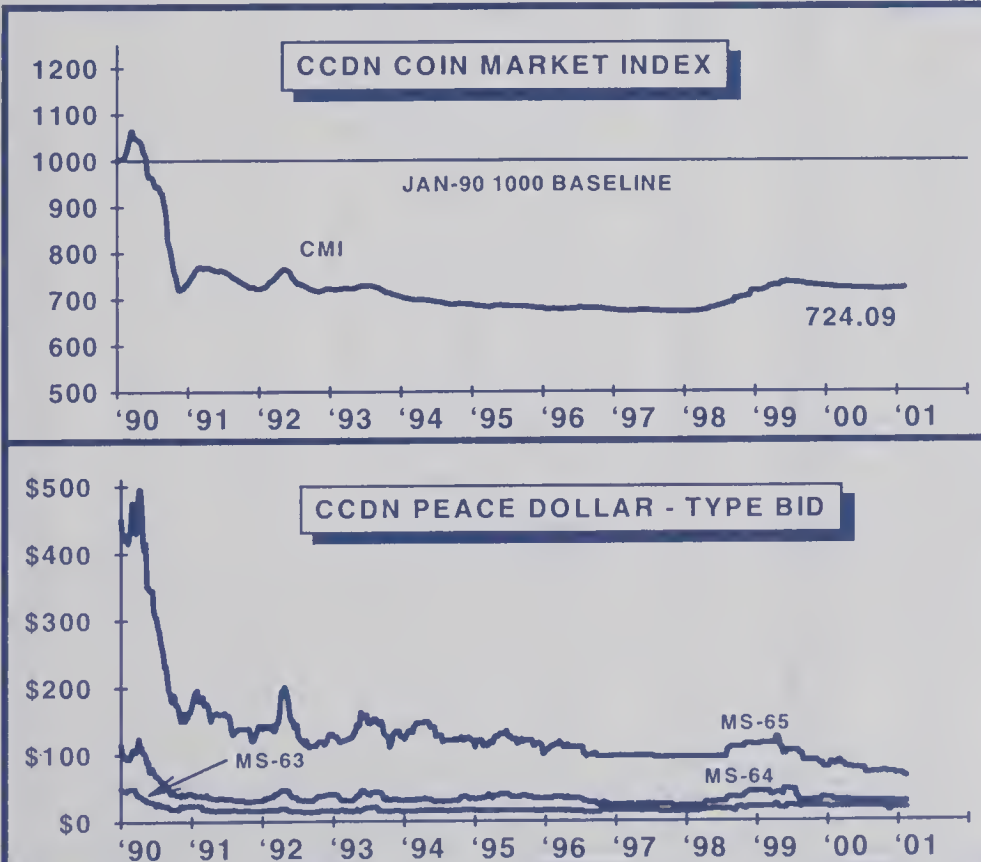

Looking at the Morgan Dollar series, the demand seems to be clamoring for coins grading from MS61 thru MS65. The heaviest Bidding is seen at the MS61 thru MS63 grades. Most of the increased Bids represent small dollar advances, but there is an occasional jump seen. For example, a PCGS MS65 1881-CC jumped slightly more than 17% to \$445 Bid. Also, an NGC MS65 1878 8 Tail Feathers variety increased 20% from \$775 to the new current sight-unseen Bid of \$930. Although most gains are less than spectacular, it does point to direction and the possibility of future increases. We know that collector demand has been strong for the Morgan series. Specialists have told us on more than one occasion about the expanding collector base taking place in Dollars. These collectors have been actively adding to their sets for years. This base has provided the support for this series that is so important to future price expansion. However, dealers are quick to point out that many buyers are targeting the semi-key and key dates the most. That is one of the reasons why the generic dates continue to be soft. Still, you can see that our Morgan chart has plus signs adorning many of these better dates in the lower and middle Mint State grades.

The real surprise is the sharp increase in interest taking place in the usually quiet Peace Dollar series. Here again, plus signs are seen throughout both sides of our chart. This portion of the Dollar market

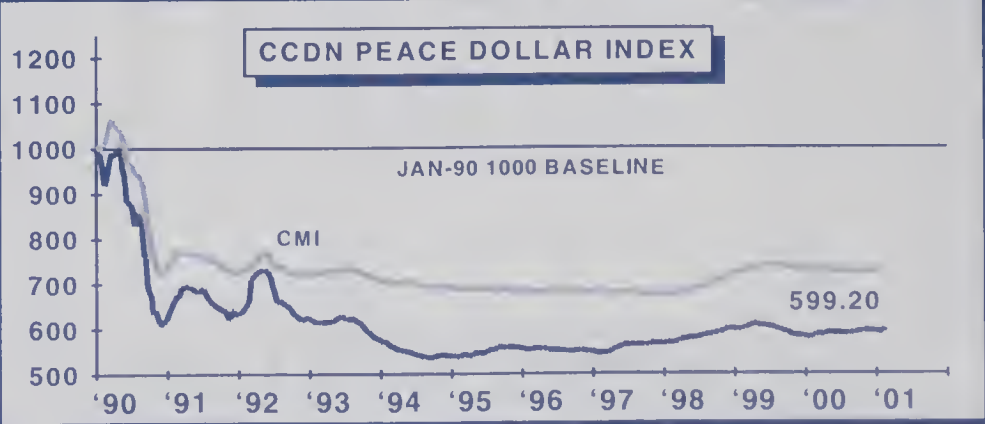

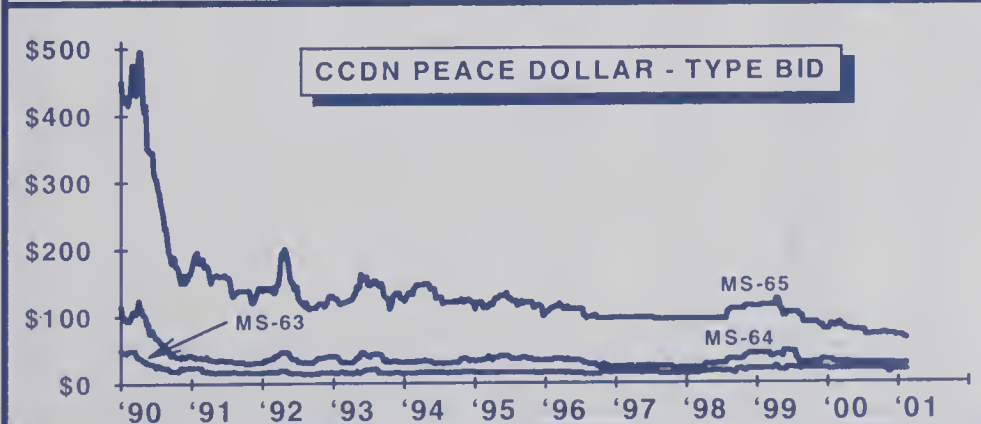

has taken a back seat to Morgans for many years. Not any more, this week several Bids have been increased, with the bulk of the Bidding chasing NGC graded Peace Dollars. Again, like last week, dealers believe that many of these prices are undervalued compared to their PCGS counterpart. Also, late date Walkers received increased Bids for select dates that comprise the short set. Once again, Bids for Halves are just as aggressive on the NGC chart as they are on the PCGS side.

Numismatic Gold continues to try to climb out of its trench. It is doing a far better job than bullion, which has sunk near the \$355 per ounce level. Dealers are not only increasing their sight-unseen Bids on select Mint State Gold Type, but they are doing so with a vengeance for several issues grading MS63 and MS64. Most of the action seemed to intensify this week. The numbers depict how strong the current demand for select issues is, regardless of grading service. All this activity is even more impressive when you remember that these are sight-unseen Bids. We have noticed and written about the escalation in Bidding and prices for NGC rare coins in recent weeks. Obviously from our chart showing a few comparisons, this trend is continuing to take hold. It is likely that buyers are looking to benefit from the price discrepancy between PCGS and NGC slabbed coins. In any event, buyers are looking for good value and a nice return on their investment. The NGC MS63 \$2.50 Indian Gold has turned in the strongest weekly increase at 23.29 percent.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

The Coin Collector's Survival Manual – Fourth Edition
by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$18.95.

"This is the book about the coin business you can't afford to be without." - **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the fourth edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer

- **How not to get ripped off if you buy coins through the mail or over the Internet**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and safe—as well as the right storage method
- A review of some Internet web sites, with a legal analysis
- Requirements of the FTC telemarketing act
- The real facts behind the toning corrosion controversy

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

NEW information in the fourth edition:

- **Courageous information about on-line auctions—no other numismatic author has ever been as bold in exposing Internet scams!**
- A comparison of PCGS versus NGC—which service does the market really favor?
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins and much, much more!**

THE CHOICE FOR ERROR COIN GRADING IS AS EASY AS "N-G-C"

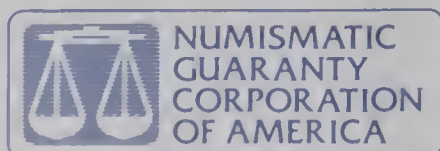

For the three recent Sacagawea mules, NGC was the first choice for grading and certification.

NGC now grades more mint error coins, and more of the world's MOST RENOWNED error coins than any other service. Why?

- #1** There is **NO EXTRA CHARGE** for NGC error coin attribution. You pay only the cost of the NGC grading tier you choose, plus shipping and insurance.
- #2** NGC certifies almost **ALL non-proof U.S. & World error coins**, and we do it under **ALL NGC tiers** from \$7 bulk to same-day **WalkThrough!** (Compare to \$30/30-days elsewhere!).
- #3** Your coins are attributed by NGC mint error specialist **Dave Camire** as well as NGC's expert grading team **INSIDE NGC'S HIGH-SECURITY FACILITY**.

The next time you need error coins certified choose NGC, the Official Grading Service of the ANA, and the service that more and more error collectors and dealers turn to every day. Call Dave Camire or NGC Customer Service at **1-800-NGC-COIN** for details, or email dcamire@NGCcoin.com.

Dedicated. Responsive. Proven.

“Small Gold” Hot At Long Beach Expo

Two California Auctions Total \$10 Million

The Long Beach Coin and Collectibles Expo is the Times Square for coin collectors this week. Many dealers and advanced collectors are presently in California at the convention center hoping to find that special coin or coins. Early reports from dealers are upbeat although there are concerns about the economy. Dealers that we spoke to say the demand is very strong for \$2.50 and \$5 denomination Gold. Buyers are after Liberty and Indian designs buying almost anything in sight. The \$2.50 Indian series is especially strong in early trading on the Long Beach bourse floor. However, there are other transactions taking place. We observed the sale of a Very Fine, lightly cleaned 1916 Standing Liberty Quarter trade dealer-to-dealer for \$2,500. This key date is in strong demand in all the Circulated grades. Key dates of all series are highly sought-after by dealers.

Last weeks Bidding explosion in the sight-unseen market has paused as if we are experiencing the calm after the storm. Calm in the sense that we do not see the strong increases or the large number of plus signs. However dealers are still placing strong supporting Bids and continue to pay the increased Bid levels that appeared on last week's *Bluesheet*. Evidence of this demand is quickly seen when we look at the Mint State Type Gold segment of the rare coin market. Dealers extended their strong sight-unseen Bids for NGC and PCGS \$2.50 Liberty, \$5 Liberty with Motto, \$10 Liberty with Motto, and, \$2.50 Indian Gold in MS63 and MS64 condition. This demonstrates the strong desire to buy these Gold pieces at a time when Gold spot remains stagnant and quite near a flat line condition.

The Morgan and Peace Dollar series is another popular and vibrant area of the sight-unseen market that is entertaining solid supporting Bids. Last week, we pointed out some double digit percent increases in the Morgan series. We still see that these Bidders are out there trying to buy one or more of these coins at these strong levels. There are many other dealers who continue to increase their Bids in small amounts time after time. Even though the increases are small the sight of plus signs often creates market activity. The need for coins is especially evident when you remember that the increased Bidding is taking place in the sight-unseen market.

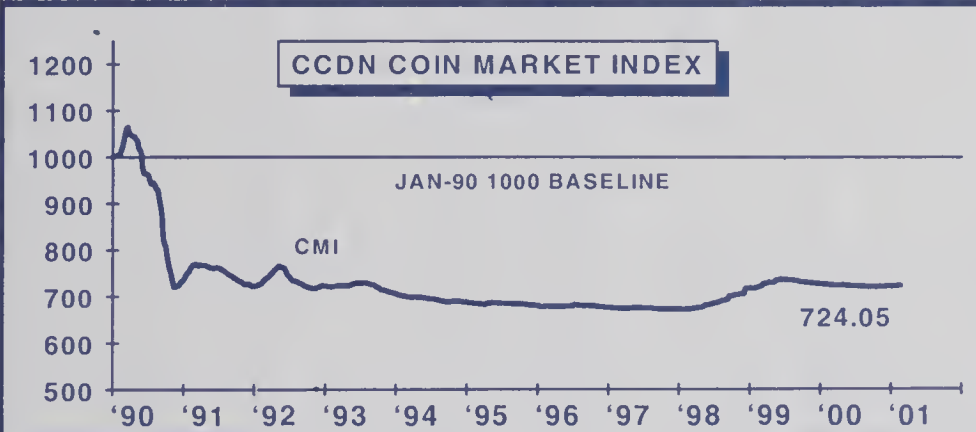

The Pre-Long Beach Coin Sale conducted by Superior Galleries realized more than \$5.79 million. The auction featured the Chicago Proof Type, the Hudson River

Valley, the Hawaii and Tennessee collections. This total also included the amount realized for the J.R. Frankenfield collection. The sales were held February 17-20 in Beverly Hills, California. We have listed a few of the certified highlights.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

\$2½ & \$5 Indian Gold Lead Market

Superior Offers Finest Known 1913 Liberty Head Nickel

Most dealers will have only a short period of rest and time to digest their Long Beach and auction acquisitions as they will be headed for Salt Lake City. The Long Beach Heritage Signature Sale held February 22-24 realized more than \$4 million. Now dealers look ahead. The American Numismatic Association will host their National Money Show March 8-10. The ANA 2001 National Money Show Auction by Superior Galleries will be held March 8-9. We have listed a

few of the certified auction highlights.

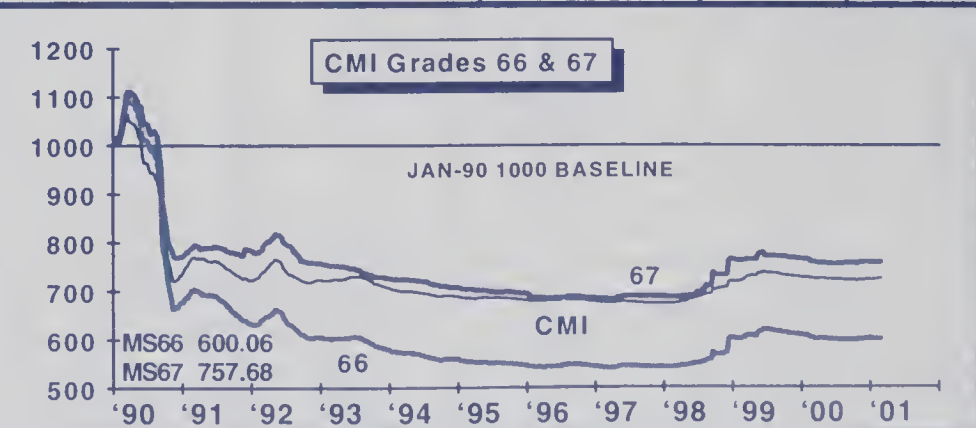

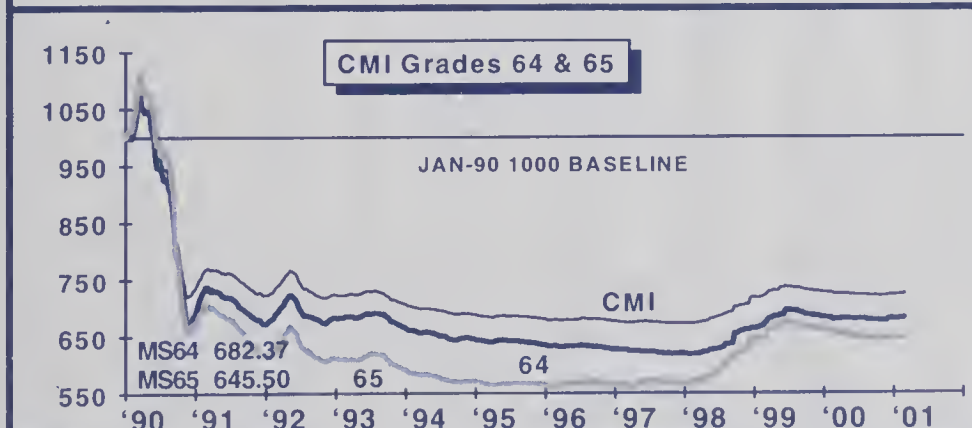

Today, demand continues to fuel the strong prices being offered for \$2½ and \$5 Indian Gold. The same scenario is taking place with the Gold Commemoratives with plus signs dominating our NGC and PCGS charts in MS63 and better condition. Dealers are aware that promoters are trying to buy these coins for clients who are assembling sets. And when you think about it, there seems to be a lot of merit targeting these attractive de-

nominations. When it comes to putting together Gold sets, there are very few collector/investors that can afford to undertake this challenge. The days of obtaining major rarities and cheap Gold coins are gone. Certainly it is easy to see that most Gold series are quite long and contain a large number of rare and expensive stoppers. This is even true if you only look to obtain a complete date set without an example from every Mint. However, the \$2½ and \$5 Indian series along with the Gold Commems seem to allow collector/investors the opportunity to complete an attractive and special Gold set in a reasonable amount of time and money. It is a natural choice because the Indian series contain coins that are relatively easily obtainable. Still, even these small denomination Gold sets have their limitations. If you try to complete a set in MS65 or better condition, the going can get extremely difficult and unmanageable. Currently the strongest demand is for coins that grade MS62 thru MS64 for both these Indian denominations. At these middle grade levels, an attractive set can be completed in a relatively short period of numismatic time. More importantly, it can be financially feasible for many of today's cost conscious collector/investors. For dealers, buying Gold coins sight-unseen does have its risks. For the most part, the big concern is the degree of spotting that usually occurs on Gold coins. This is usually the primary reason that separates sight-seen quality coins from those that trade sight-unseen. Interestingly, the current demand is so great that dealers have closed the gap considerably between what they are willing to pay sight-seen versus sight-unseen.

Similar demand has been, and continues to take place in the relatively short Gold Commemorative series. We know that only a few examples are available at current levels. Dealers are quick to buy them when the opportunity affords itself. Meanwhile, sight-unseen Bids remain strong for this attractive Gold series.

IN GOD WE
TRUST

**FAITH ALONE
WON'T PROTECT
YOUR COINS.**

Threats to your valued coin collection are all around you, invading the very air you breathe. While there's no escaping the corrosive gases in the atmosphere, now there's a way to combat those all-pervasive enemies—including two of the most common and potent gases, sulfur and chlorine. Corrosion Intercept* technology provides state-of-the-art protection unlike anything ever offered before. That's not just a promise, it's a fact—proven in comparison tests.** Available only from Intercept Shield, this revolutionary technology is a solid state material that contains active additives—which instantly neutralize corrosive agents and cleans the environment. A permanent and irreversible chemical

reaction renders the gases harmless as they attempt to migrate through the material. Intercept Shield coin albums, coin holders and protective boxes are available at your local retailer.

Now you can find new faith in the ultimate protection money can buy.

Salt Lake City Hosts ANA's Money Show Proof Gold Gains Ground

The early Spring ANA National Money Show is taking place right now in Salt Lake City, Utah. This major show and public auction should give us further evidence about the rare coin market's direction. Dealers are anticipating a good show. A few believe the market is very healthy and poised to expand further.

Early March finds the sight-unseen rare coin market doing fairly well. Dealers are using this medium to buy rare coins quickly and fill some of their needs. This is especially beneficial to dealers unable to attend distant shows. Interest appears to be increasing as dealers readily increase their Bids for select items. The current demand is widening as dealers try to capitalize on areas that they believe to be undervalued. That is what happened to the Gold Commemorative market over the last year and that is what is currently happening to the Indian Gold market. Like the Gold Commems, Indian Head Gold is a relatively short series that allows one the realistic possibility of completing a set. This same challenge for the long running Liberty Gold denominations is too forbidding for even the most well heeled collector/investors. Yet, it is more than just the length of the series. The Early Bust Gold denominations have rather short series lengths, but the price is certainly financially bothersome. Indications of this phenomenon are seen at public auction where many of these high-priced, early rarities are left unsold. Many of the aggressive, big players have seen portions of their wealth evaporate on Wall Street's stock exchanges. Consequently, a decreased willingness to spend the "big bucks" as frequently as it was when the market was making new highs are apparent. However, aggressive buyers are increasing sight-unseen Bids for Indian Gold almost on a daily basis. This week, increases are continuing for \$2.50 and \$5 Indians.

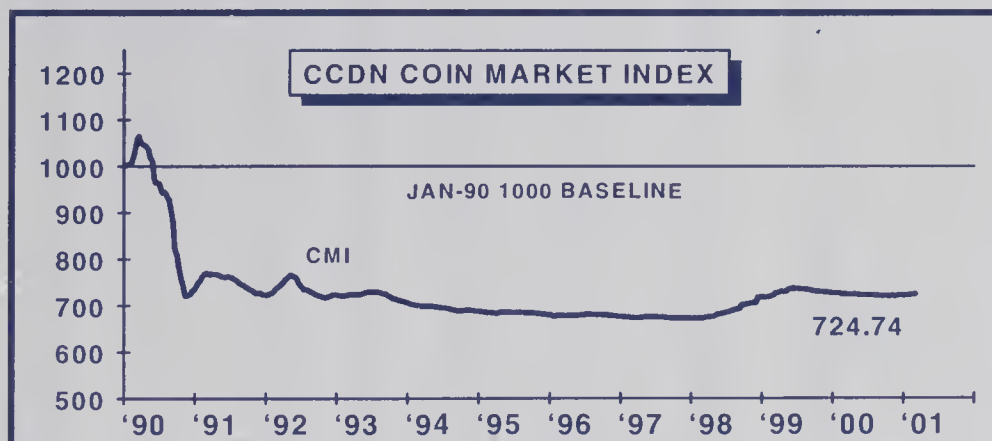

There is also a lot of activity among NGC Proof Gold Type. Dealers are strongly Bidding for PR61 thru PR63 Type Gold. We now see that sight-unseen Bids for select NGC Proof Gold have surpassed those for PCGS.

Demand for low grade Proof Gold may be attractive due to the price versus population ratio compared to the higher grade levels.

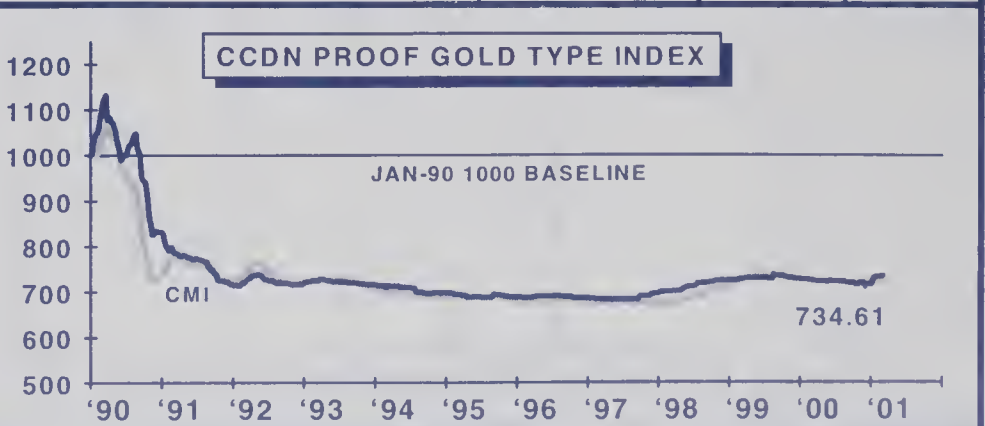

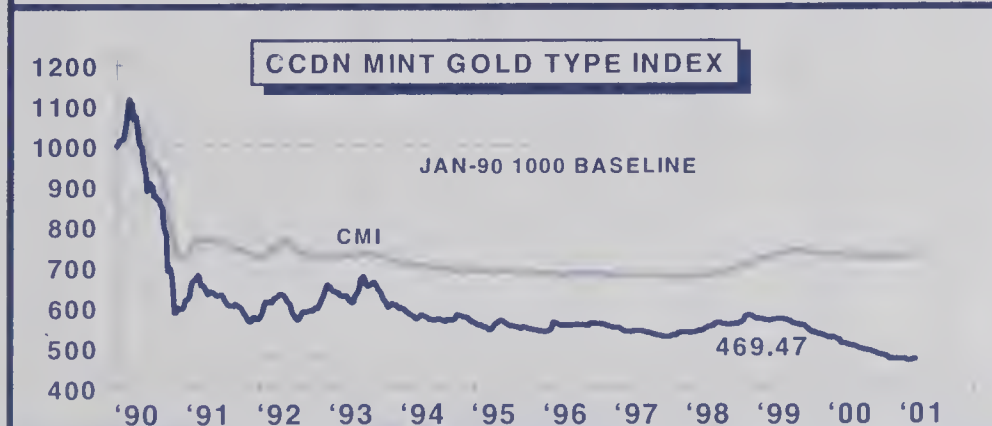

Many minute increases are evident in the Buffalo Nickel series this week. Bids are slightly higher for MS64 thru MS66 examples throughout the series. The strongest demand appears to be targeting the tough key and semi-key Denver and San Francisco Mint dates. However, there are some increases seen for a couple of the more common date Philadelphia Mint issues. Demand for select Matte Proof Buffalo Nickels is evident again this month. Dealers are looking to buy Proof 64 thru Proof 67 Matte Proof Buffalo Nickels. All the dates of this short group of Proof Buffaloes are needed including both varieties of the initial year 1913. The increases are still rather slight but it does indicate interest for these popular Proof Nickels.

Prooflike Morgan Dollars are holding up rather well against a backdrop that sees generic Dollars down and out. We even see some plus signs occurring on some of the common date MS65PL Morgans. The MS64PL Dollars are also holding their ground with strong supporting Bids seen all over the place. The common date MS63PL Morgans, while not showing any minus signs are the weakest portion of the generic PL Dollars. Carson City Prooflike Dollars are where the real action is taking place. Dealers are buying "CC" Dollars any way they can get them.

Washington Quarters have been a stellar performer throughout the latter part of last year and early this year. Again, we see many plus signs breaking out in our Washington Quarter chart. Dealers are obviously targeting the better, early dates. The demand is increasing for the keys and dealers want to be sure that they have an amply supply of the tougher dates on hand to satisfy their customers needs. The strongest demand is chasing the 1932-D and S; 1934-D; 1935-D and S; 1936-D; and, 1937-D and S. These dates, along with a few others are the more difficult to locate in high-grade.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

THE CHOICE FOR ERROR COIN GRADING IS AS EASY AS "N-G-C"

For the three recent Sacagawea mules, NGC was the first choice for grading and certification.

NGC now grades more mint error coins, and more of the world's MOST RENOWNED error coins than any other service. Why?

- #1** There is **NO EXTRA CHARGE** for NGC error coin attribution. You pay only the cost of the NGC grading tier you choose, plus shipping and insurance.
- #2** NGC certifies almost **ALL non-proof U.S. & World error coins**, and we do it under **ALL NGC tiers** from \$7 bulk to **same-day WalkThrough!** (Compare to \$30/30-days elsewhere!).
- #3** Your coins are attributed by NGC mint error specialist **Dave Camire** as well as NGC's expert grading team **INSIDE NGC'S HIGH-SECURITY FACILITY**.

The next time you need error coins certified choose NGC, the Official Grading Service of the ANA, and the service that more and more error collectors and dealers turn to every day. Call Dave Camire or NGC Customer Service at **1-800-NGC-COIN** for details, or email dcamire@NGCcoin.com.

Dedicated. Responsive. Proven.

The PCI Capsule...

✓ **\$8⁰⁰ PER COIN**

✓ **6-DAY SERVICE**

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Suburban Washington/Baltimore Show Provides Opportunity

Areas of the sight-unseen rare coin market are enjoying strong demand in mid-March. Dealers are confidently increasing their Bids for select coins in hopes of meeting this demand. The need for rare coins follows a somewhat sluggish American Numismatic Association's National Money Show in Salt Lake City. The March 7-10 show did not satisfy the dealer's need for fresh material. Now, many dealers are already in Maryland hoping that the Suburban Washington/Baltimore Annual Spring Coin & Currency Convention will fulfill more of their immediate needs. This March 16-18 show usually has a strong following with many serious collectors and dealers attending due to the proximity of the show. This central East Coast location is within a day's drive for many collectors.

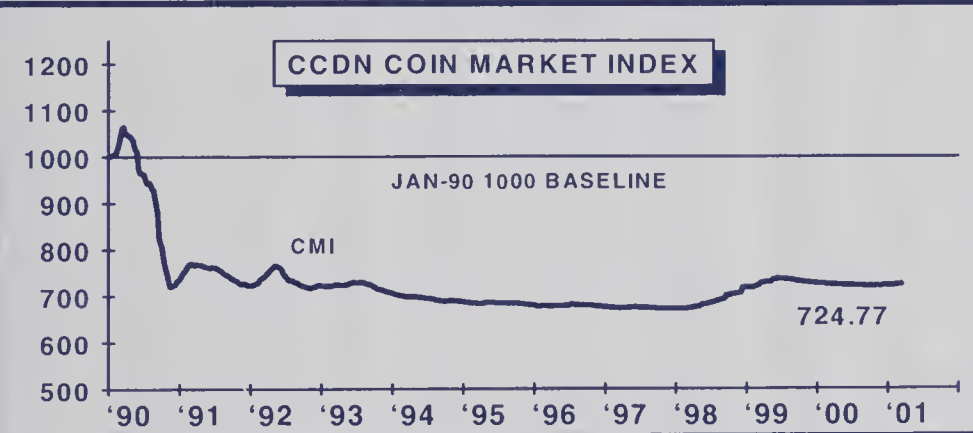

Small Gold Type remains **red hot** despite the selling that is taking place in the Gold bullion market. Bids continue to climb as dealers desperately try to secure a quantity of these issues for resale. In past weeks, the \$2.50 Indian series got the ball rolling with strong interest translating into many plus signs throughout the short series. Today, that demand has yet to be satisfied and dealers continue to post strong sight-unseen Bids for MS63 thru MS65 common dates. As supplies dried up, dealers tried to satisfy demand via other series. The \$5 Indian Gold was quickly targeted. Increases have been observed in this series, especially for MS63 and MS64 examples. As demand continued to spread, the \$3 Indian series was quickly targeted. Common date \$10 Indians are also being snapped up at the present time. Now, we see that the Liberty design is gaining the favor of dealers. Increases are occurring in the \$2.50, \$5 and \$10 denominations. Keep-in-mind, all this activity is taking place during a period where Gold bullion spot continues to hover around \$265 an ounce. Some believe that scared Wall Street money may be looking for a safe harbor in the rare coin market. Gold and Gold coins historically have been purchased for protection and insurance against financial weakness. Could today's nervous feelings about the state of the economy drive scared investors to numismatic Gold? We know that dealers are telling us that buyers are readily willing to spend up to five figures for single issues. We see that above that level demand falls off sharply. Sure, there are individual collectors that still pay for select dates in and above five figures, but

the majority of the buyers feel much more comfortable below that level. And today, people are clamoring to feel more comfortable.

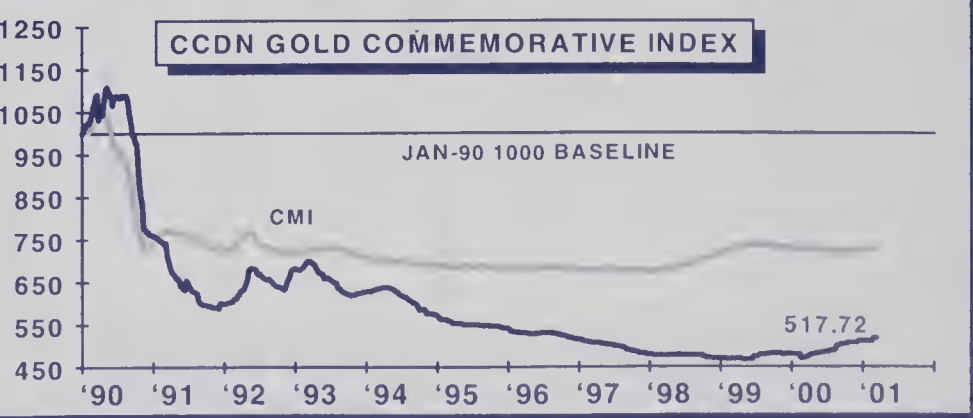

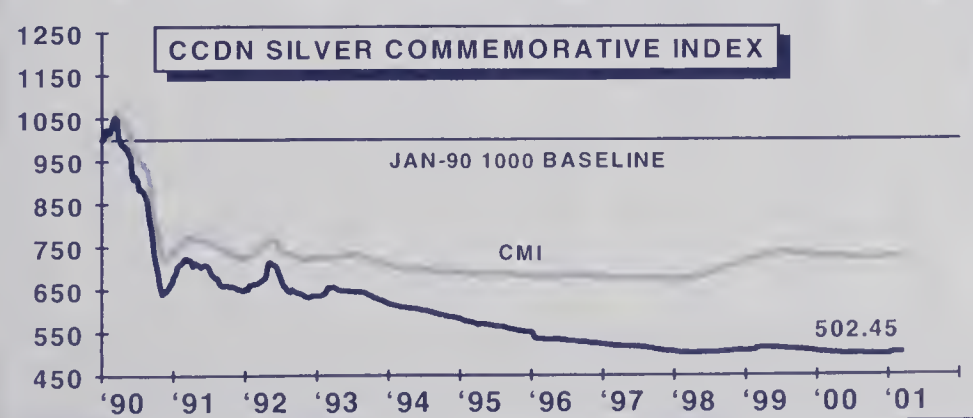

Indian Head Cents and Lincoln Cents are facing very strong demand in mid-March. Plus signs are seen in this week's Type section and several Small Cents observed at the public auction in Salt Lake City were hammered for higher levels. Buyers are looking for pleasing Indian Head Cent Red and Brown examples as well as blazing full Red gems. Among Lincoln Cents, full Red examples are realizing exceptionally strong demand. Overall demand for rare coins today is highly selective, but what is in favor is receiving exceptionally strong support.

The ANA 2001 National Money Show Auction conducted by Superior Galleries reeled in more than \$4.24 million in Salt Lake City March 8-9. The single largest contributor to this total was the sale of the NGC PR66 1913 Liberty Head Nickel. The former Eliasberg Sr., specimen sold for \$1.84 million. We have listed a few more of this sale's certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive *immediate* payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, one of the largest transactions in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

PRESERVE THE VALUE OF YOUR COINS.

Threats to your valued coin collection are all around you, invading the very air you breathe. Now there's a way to combat those all-pervasive enemies—including two of the most common and potent gases, sulfur and chlorine. Corrosion Intercept* technology provides state-of-the-art protection unlike anything ever offered before. That's not just a promise,

it's a fact—proven in comparison tests.** Available only from

Intercept Shield, this revolutionary technology instantly
neutralizes corrosive agents and cleans the environment.

A permanent and irreversible chemical reaction
renders the gases harmless.

Sight-Unseen Market Cooling Off Medals Highlight \$3.4 Million Lariviere Auction

The noticeable slowdown that is evident in the sight-seen market is also being observed in the sight-unseen market. Dealers believe that the market has been deluged this year with rare coin shows and auctions at a pace that makes it difficult to digest. Dealers need time to take care of business from their shops as well as to recover from a rigid road schedule. Sometimes, weary dealers need to remain on the road instead of flying home to their families because it is economically prudent. However, as auction and travel bills come due dealers may find it necessary to curtail their Bids for a while. Demand being satisfied from the higher price levels may also enter into this picture. We know that increasing Bids have a way of pushing more supply on the market. We have seen areas of the market that have been hot in recent weeks such as Mint State Type Gold beginning to cool. This week the strong, sight-unseen Bidding for Gold Type has diminished. Some of the strongest Bidders may have bought the supply that they needed. Some dealers say that supplies have dried up with Bids remaining unfulfilled. Regardless, a contributing factor may be the liquidity crunch that is currently facing some dealers. Also, the weakening economic climate in this country and around the World may be directly and/or indirectly responsible for pulling the plug, at least temporarily, on the big ticket items. We know that high-priced rarities and high-priced quality coins have been under pressure as of late. Consequently, the rare coin market may be entering a transition state of consolidation and pull backs. If demand begins to decline even more, it is likely that prices will probably follow suit. Of course, back orders from dealer's customer want lists continue to buoy an otherwise weakening market. Coin market demand may also get an additional boost from the general collector base. These buyers seem to provide steady interest and buying habits no matter what is happening in the overall economy. Finally, there is always the new people entering the

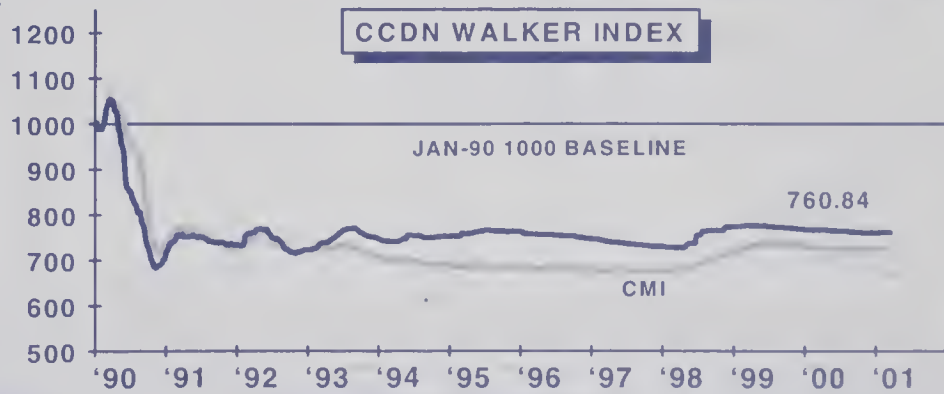

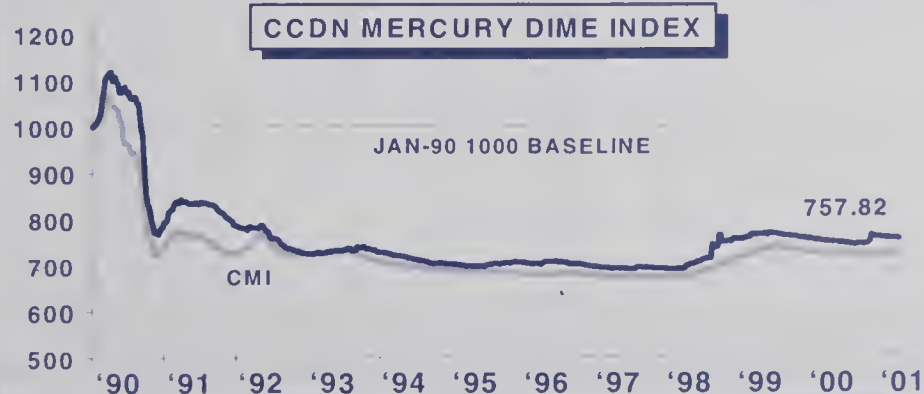

market via the modern Mint products programs. The offerings and publicity surrounding these items should help immeasurably. Still, the uncertainty about employment, interest rates and the future of their stock market holding, known as the wealth effect, will continue to play an important role in the outlook for sales of rare coins. Dealers know that, for the most part, rare coins are a luxury item that are usually bought with disposable, discretionary income. So it is imperative that dealers keep the interest and excitement level high for collectors and those new to the hobby.

Bowers and Merena Galleries conducted an auction featuring the Cabinet of Lucien M. Lariviere, Part II. The sale was held March 15-17 in Baltimore in conjunction with the Suburban Washington/Baltimore show. The auction realized more than \$3.44 million and we have listed a few of the certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder.
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The **PCI** Capsule...

☒ **\$8⁰⁰ PER COIN**
☒ **6-DAY SERVICE**
Tells why more people
are turning to **PCI**

- ☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at **PCI** have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Does Your Grading Service Have “The Right Stuff”?

Beneath the claims and the special offers, a grading service has to perform day in and day out with a level of expertise that few possess, in order to truly deserve your business.

Expertise is essential.

A grade you can trust comes from years of proven accuracy and consistency. This is achieved only by employing the right people. We believe that the finest graders in the coin industry are presently working for NGC.

Expertise establishes trust.

Another trait of a top grading service is the expertise to recognize and reject “No Grade” coins. Our diligence in this area is unsurpassed, thanks to the millions of coins we’ve seen over the years.

Expertise is proven through CrossOvers.

With the exception of one service (with whom we share a roughly equivalent CrossOver rate), other services fall short of the NGC standard 90% of the time.

Trust in the Official Grading Service of the ANA.

Only one grading company is the Official Grading Service of the American Numismatic Association, and that’s NGC. Look at NGC’s long association with the ANA and you’ll see a track record of successful cooperation to build the strength of the hobby.

Expertise is proven in Error coins and Varieties.

Coins sent to NGC for error and variety attribution are attributed, graded, encapsulated and quality control checked quickly and expertly all within our high-security facility. It’s why we grade more errors and varieties than anyone else.

Expertise is proven in results.

NGC is proud of its quarterly U.S. and twice-yearly World Census Report. They’re not only a valuable reference for the coin hobby, but serve as a record of our achievement in grading over 5 million coins.

Trust in a proven guarantee of grade.

At NGC, our guarantee is real. And, it’s used. Now while you may be surprised to hear us say so, we’re proud to acknowledge that grading is an art, not a science. Ask around to see if other services honor and abide by their published guarantees, or for that matter, if they even have one.

Careful screening of member dealers is important.

We insist our member dealers be known for integrity, years of experience, sound business practices, and have reliable references. Unfortunately, padding these numbers has become fashionable. But member dealers admitted with no standards are about as good as no member dealers at all.

Expertise & consistency drive numbers.

At NGC, when we say that we graded 45,000 coins in a month, that includes only those coins that were actually encapsulated. We do not “pad” our numbers by including the 20,000+ pre-screened coins we reviewed that were never actually holdered.

Even if you only get coins certified occasionally, it is imperative you can trust the service doing the grading. The grade on the holder does not stand alone. It must match the grade of the coin in the holder.

Your expectations should be high. At NGC we welcome you to take a close look at the commitment we have to serving the hobby, and you, as a top grading service.

Sight-Unseen Market Divided Dealers Ready For The Central States Show

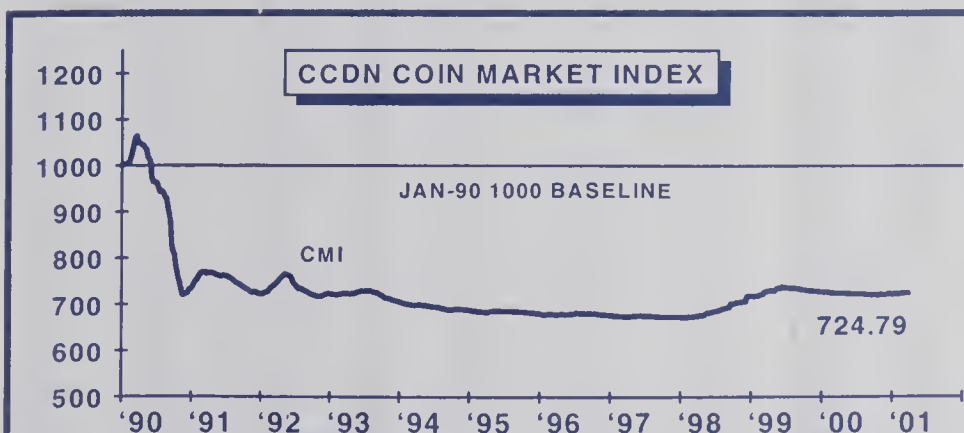

Following last week's report of a softening market, we continue to see some discounting taking place in the sight-unseen market for select issues. We are beginning to see a number of minus signs appearing in several areas of the market. Dealers are attempting to raise cash to cover recent auction debts and other traveling expenses, but they also need ready funds to buy coins as they become available. Consequently, coins that have remained in their inventory for too long a time period become ripe for a quick sale. Dealers often offer these items at reduced amounts on the electronic dealer networks or let them go reserve free at auction. Dealers that need the cash immediately usually offer items **sight-unseen** to expedite transactions and funds heading their way. We have seen several Mint State and Proof Type issues being discounted this week in addition to some other areas. This does not mean that the majority of dealers are not looking for these coins, because select demand remains evident. Rather, they are just looking to gain some liquidity before the next round of auctions and shows return. Next on the numismatic agenda is the Central States Numismatic Society convention that will be held in Indianapolis April 5-8. Dealers will be trying to satisfy some of their immediate needs at this major Midwest show and the Heritage Central States Signature Sale April 5-6. A collection of high quality Mercury Dimes will cross the auction block along with a number of other important rarities that will surely attract eager Bidders.

It is important to keep in mind that the immediate discounting that is occurring does not necessarily mean that demand is absent from the sight-unseen market. There are areas of this market that continue to attract strong Bidders at current levels and even some Bidders willing to increase Bid substantially to buy the coins they need. Demand for select coins is very strong. Just look at the latest Bidding activity occurring sight-unseen for the Draped Bust Dollars. Demand is very strong for both the Small

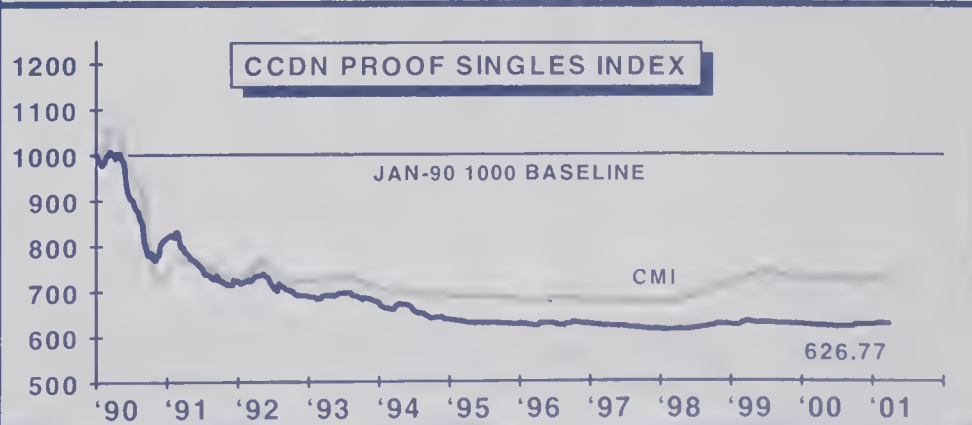

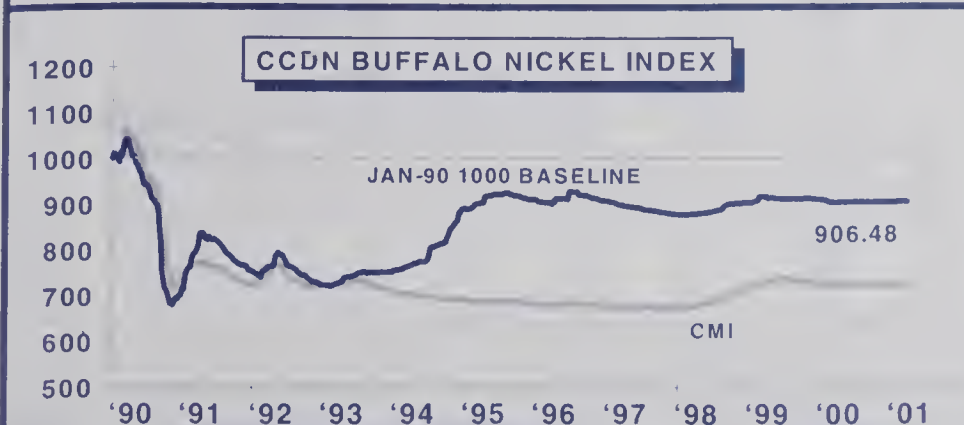

Eagle and the Heraldic Eagle varieties. According to one East-Coast dealer, "these are the hottest coins on the planet." Knowledgeable collectors are actively pursuing these Draped Bust Dollars while facing an extremely thin supply. Some are interested in adding these high-quality coins to their Type collections while others are more interested in completing a date run of these late 18th century and early 19th century Dollars. Amazingly, several **sight-unseen** Bids are chasing these Dollars in the six-figure price range with a strong \$350,000 Bid for any PCGS MS67 Draped Bust Small Eagle.

Meanwhile, Gold Commemoratives continue to make noise. We see another round of increased dealer Bids chasing these elusive Gold beauties. Plus signs are seen in most Mint State grades from MS63 thru MS67. Dealers have ready buyers for these coins but continue to have a difficult time being able to buy the quantity that they need to fill that demand. The goal is that higher Bids will force more supply on the market. Dealers remain hopeful that these higher prices will result in transactions occurring more quickly and frequently. All issues are participating except for the Panama-Pacific Exposition \$50 Octagonal and Round issues. The reason for this is obvious, the price. These coins begin at over \$20,000 each, and that will only buy examples grading up to MS61. Still, it is well known that \$50 Pan-Pacs are popular with serious collectors and are needed to complete a set of classic Gold Commems.

Plus signs are also found in our chart of Silver Commemoratives. Demand remains solid for select issues grading MS64 and better. Also, coins that exhibit nice, attractive and original color are receiving exceptional demand. However, even in the Silver Commem chart we see some discounting taking place. Buffalo Nickels are another popular area where Bids are strong coupled with some evidence of discounting. Overall, demand for coins in the sight-unseen market remains mixed, with both weak and strong areas.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you. Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

The more you value your collection, the more you need Intercept Shield to protect your investment.

Indian & Commem Gold Skyrocket In First Quarter Central States Should Help Satisfy Some Demand

Dealers who are currently attending the Central States Numismatic Society convention in Indianapolis are probably, at this very moment trying to complete transactions that will lead to sales to their customers. These transactions may occur through wholesale and retail acquisition. Dealers will also look to Bid in the Central States Signature Sale by Heritage. Auctions are the place that dealers go to find that tough, rare date and grade example that their good customer has been waiting to own. Dealers will also be chasing today's popular items during the show and auction.

Gold Commemoratives are receiving the headlines again this week. The demand is so strong that the current supplies are just too insufficient to keep pace. Consequently, dealers are left with little choice but to increase their sight-unseen Bids for these Gold Comms. Plus signs are omnipresent in this short series. Demand is targeting grades MS62 thru MS66. Also, since January 5, the top 10 Gold Comms finished with double digit percentage gains. The above chart indicates the sharp increases for certified Gold Comms.

Mint State Gold Type is the standout performer since January 5, 2001. The \$2.50 Indian Gold holds the top three spots on our chart for percentage gain for the quarter. An NGC MS64 and MS63 \$2.50 Indian jumped an incredible 70 and 60 percent respectively since January 5. A PCGS MS63 \$2.50 Indian scored an impressive 48 percent gain in the same time period. When you consider that these gains are for the first three months of the year, coupled with what happened to the stock market equities during the same period, you begin to understand the magnitude of these increases. Dealers have been actively trying to buy these coins with little luck as supplies continue to run thin.

On the surface, the sight-unseen rare coin market may appear to be flat with not much happening. That is until we look below the surface to discover that many dealers

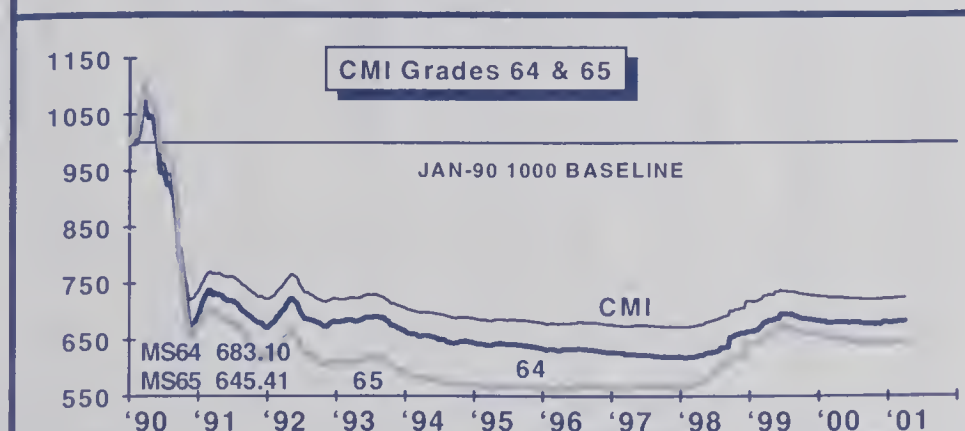

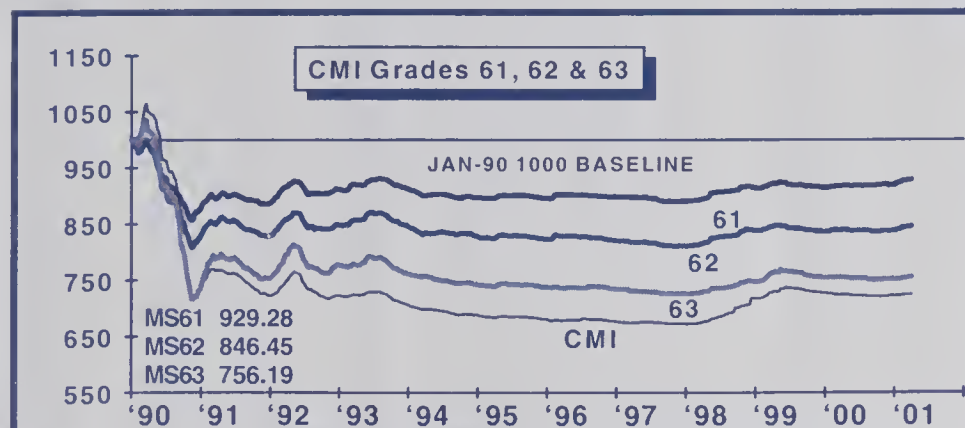

are posting higher sight-unseen Bids on a regular basis. The need for coins in the first quarter of the new year has been most impressive for a few specialized segments of the market. Areas such as Commemorative Gold and the Mint State Gold Type market have been hotly pursued by dealers. However, many additional areas of the market are doing just fine with strong supporting Bids taking place. We have seen this development among Mercury Dimes, Buffalo Nickels, Morgan Dollars and Proof Type to name a few. Still,

Bids alone do not put food on a dealer's dinner table and we know that their goal is having those Bids hit. The demand for coins remains strong because there are a lot of active buyers participating. The expanding collector base has helped to provide a steady source for this demand. New collectors and seasoned collectors are continually trying to add to their collections. Dealers know that the specificity of their needs will go a long way in determining how long they must wait to complete a transaction. Those collectors who are willing to buy substitute coins will have an easier time while those waiting for a specific grade and date need to be more patient. However, investor demand is also playing an important part of the supply and demand equation. An increase in demand is coming from a select number of investors

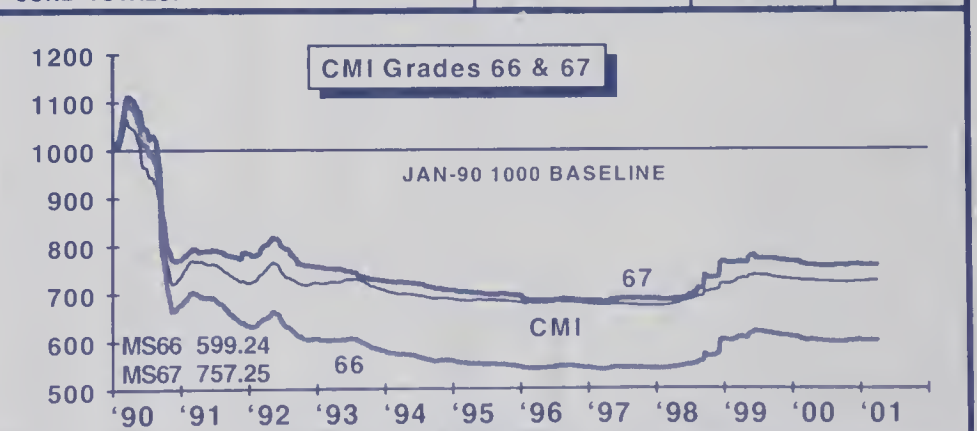

who may be trying to diversify their portfolios to give them more financial protection. Wild financial market swings have gone a long way to make more believers of those having diversified portfolios.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

THE CHOICE FOR ERROR COIN GRADING IS AS EASY AS "N-G-C"

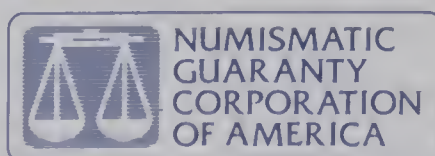

For the three recent Sacagawea mules, NGC was the first choice for grading and certification.

NGC now grades more mint error coins, and more of the world's MOST RENOWNED error coins than any other service. Why?

- #1** There is **NO EXTRA CHARGE** for NGC error coin attribution. You pay only the cost of the NGC grading tier you choose, plus shipping and insurance.
- #2** NGC certifies almost **ALL non-proof U.S. & World error coins**, and we do it under **ALL NGC tiers** from **\$7 bulk** to **same-day WalkThrough!** (*Compare to \$30/30-days elsewhere!*).
- #3** Your coins are attributed by NGC mint error specialist **Dave Camire** as well as NGC's expert grading team **INSIDE NGC'S HIGH-SECURITY FACILITY**.

The next time you need error coins certified choose NGC, the Official Grading Service of the ANA, and the service that more and more error collectors and dealers turn to every day. Call Dave Camire or NGC Customer Service at **1-800-NGC-COIN** for details, or email dcamire@NGCcoin.com.

Dedicated. Responsive. Proven.

THE MOST MONEY THE LEAST HASSLE

If you have coins to sell, it's time to call SPECTRUM!
Dealing with SPECTRUM means more money and
less hassle for you, and here's why:

SEE US AT ALL
Major Shows

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Included in our recent purchases is the Wells Fargo® Nevada Gold hoard, which was one of the largest financial transactions in the history of numismatics. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

Walkers & Gold Commems Heat Up Fresh Material In Short Supply

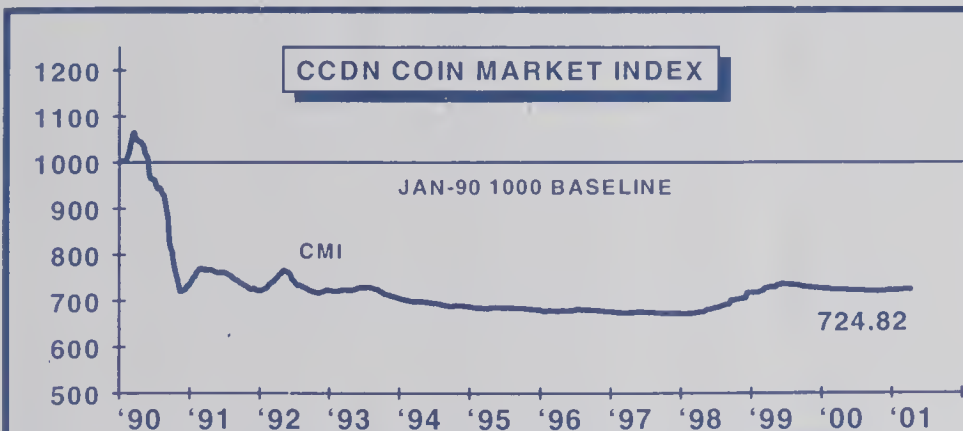

Last week we alluded to the thought that some dealer demand should be satisfied at the upcoming Central States Numismatic Society convention in Indianapolis. This was an easy forecast to make because the larger rare coin shows are known to offer a wide and interesting selection of material. Often, this selection includes a fair amount of fresh material. Unfortunately for many dealers, the April 5-8 show did not offer them enough of the special coins that they had hoped to buy for their inventories and for their customer's want lists. To be fair, there were some dealers that left the show thoroughly satisfied with their purchases. Some dealers bought coins for their customers while others bought items for their own, individual collections. In any case, most dealers attend rare coin shows to buy rare coins at wholesale Bid. We know that several dealers were even willing to pay greater than Bid for coins that they needed immediately. However, time and again dealers told us that the pickings were very slim at this large midwest show. Some of the complaints echoed like a broken record that we have heard throughout 2001. Fresh material is just not available! Dealers are clamoring to buy coins, but the strong willingness to buy doesn't always translate into sales. Demand for coins from an expanding collector base is certainly taking its toll. Those fresh coins were noticeably absent from dealer's tables down the many isles of the Central States bourse. We did not see but a few \$2.50 and \$5 Gold coins available, but at higher levels. We also did not see many Gold Commemoratives being offered for sale. These coins have, and continue to receive very strong Bids and demand. Lincoln Cents in MS64RB and better, especially the full Mint Red examples were highly sought-after. Dealers were battling each other during the Central States auction to buy these early Mintmarked Lincoln Cents. Indian Cents also were actively pursued at the show. Naturally, better date 20th century coins were on many a collector's buying list. Since the dollar amount collectors are spending is down, we see many transactions taking place for coins below \$1,000. The big ticket items are a tough sale right now with the

economy under considerable corporate earnings warning pressures and labor force cuts.

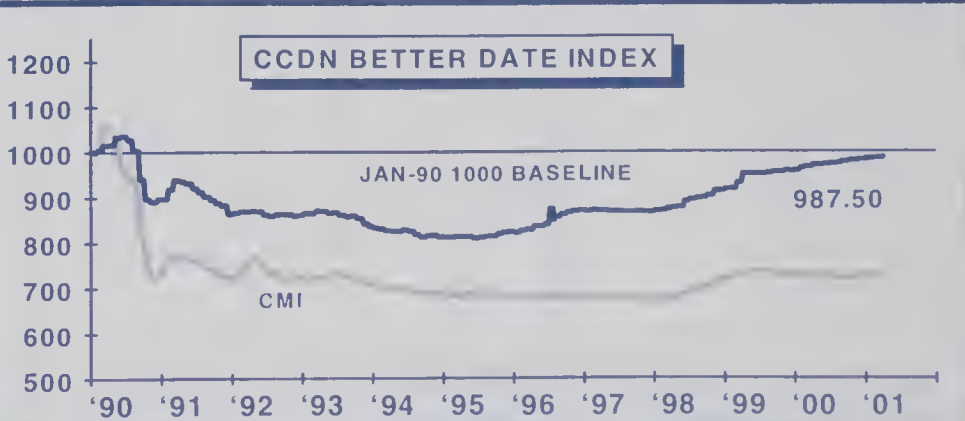

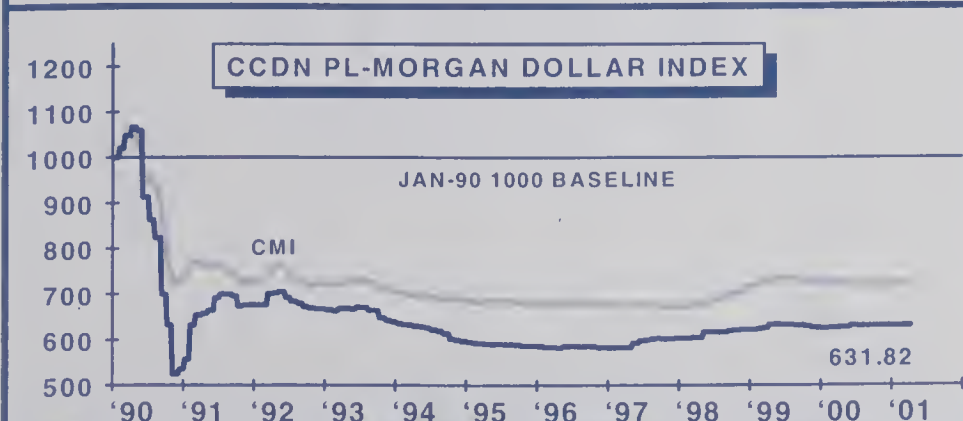

Heritage hosted the Central States Signature Sale and Bullet Auction April 5-7. We have listed a few of the certified highlights from the Signature Sale.

It is easy to see that the sight-unseen market has an array of dealers who are relentlessly trying to satisfy their needs. Increased Bidding continues to jolt the Gold Commemorative market. Dealers are still trying to pry some more Commems loose with yet another round of **sight-unseen** Bid increases. Those individuals that are holding these Gold beauties may soon consider this opportunity carefully. One of the best times to sell is when there are many strong buyers. Plus signs are prevalent in grades from MS63 thru MS67. Interest is also evident in the Walking Liberty Half Dollar series. The demand is raging for both NGC and PCGS coins. Plus signs are seen for MS63 and MS64 graded Walkers in the middle to late 1930s. We also see a barrage of plus signs for the late dates of the series in MS65 and MS66. Dealers are actively looking to buy these Halves at current to higher prices. Of course, Washington Quarters continue to be in dealer favor. The higher sight-unseen Bids reflect an ever growing collector demand for this popular series.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2ND EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."

— Hank Gilman, Business Editor, *NEWSWEEK*

"If making money by buying and selling coins is your game, Scott Travers' *How to Make Money in Coins Right Now* is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."

— Beth Deisher, Editor, *Coin World*

"The most valuable book ever written on how to profit from coins."

— Ed Reiter, Senior Editor, *COINage* magazine

"A revolutionary book."

— Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."

— Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of five award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. His widely distributed Random House price guide, *The Insider's Guide to U.S. Coin Values*, is updated annually. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

UNCONDITIONAL 30-DAY MONEY BACK GUARANTEE

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

"Buy. Sell. Trade. Consign. We've Got Your Number."

-Jay Parrino

Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726. Or see our entire inventory at www.jp-themint.com.

Proof Singles Score Impressive Gains Small Denomination Type In Demand

Mid-April is here and it's hard to believe but nearly one quarter of the year is now history. The first part of this year has seen dealer demand grow because the supply has not kept up with the quantity of rare coins needed to fill orders. Consequently, dealers are posting strong Bids for many popular areas of the market. This includes Silver Commemoratives, Morgan Dollars, Peace Dollars, Mercury Dimes, Buffalo Nickels and Mint State Type. We have also seen some discounting taking place, but this has been rather sporadic throughout the different segments of the coin market. However, we do see that strong dealer demand continues to target select areas of the sight-unseen market. These dealers are trying to buy coins that either have an immediate buyer waiting or they know that this coin represents an excellent value at its current price. Therefore, Spring finds most dealers still hungry for select rare coins at current price levels.

This week, strong interest has translated into many plus signs for several areas of the sight-unseen market. One area in particular that does not often get the main headlines is Proof Singles. Early Proof Singles dated after 1935 are very strong for Buffalo Nickels, Mercury Dimes and Walking Liberty and Franklin Half Dollars. Plus signs are seen for many dates in these three denominations. We do note that the demand is equally strong for NGC certified coins as it is for PCGS. Buyers are looking for quality Proof Singles. Dealers are trying to buy Proof 64 thru Proof 67 examples in most cases. The strength of this demand is evident when we examine the percentage gains. Just in the last week Bids have increased from five to ten percent in many cases. Even larger gains are seen when we compare today's levels to those in January.

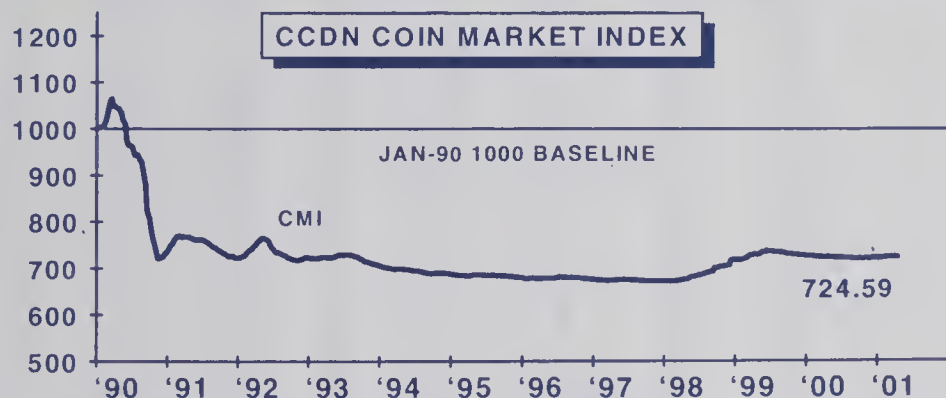

Proof Singles are not alone this week as plus signs have also invaded several other areas of the market. Morgan Dollars have demonstrated some strength this week. Again like we observed in the Proof Singles, PCGS and NGC certified Dollars are the target of active Bidders. Carson City issues from 1878 thru 1885 are realizing most of the Bidder's attention. We do point out that the percentage gains for the week are relatively small, but these Carson City Dollars have been popular and in demand all year. We also detect some strength among the usually quiet Philadelphia Mint Morgans. Here like the "CC" issues, the upward percentage change is small. However, the demand and plus signs are encouraging for those dealers that specialize in this series.

Similar to the many gains taking place in the sight-seen Type markets, the market for sight-unseen Mint State Type is rather healthy. This is written despite the few areas of discounting. Dealers are still trying to buy Type coins for their customers. Consequently, plus signs are evident among several Types and denominations. Indian Head Cents, 2-Cent pieces, 3-Cent Silvers, Capped Bust Dimes and Liberty Seated Dimes are all currently enjoying some prosperity this week. Sight-unseen Gold Type is mixed after many consecutive weeks of strong Bidding activity. Maybe an equilibrium point has finally been established.

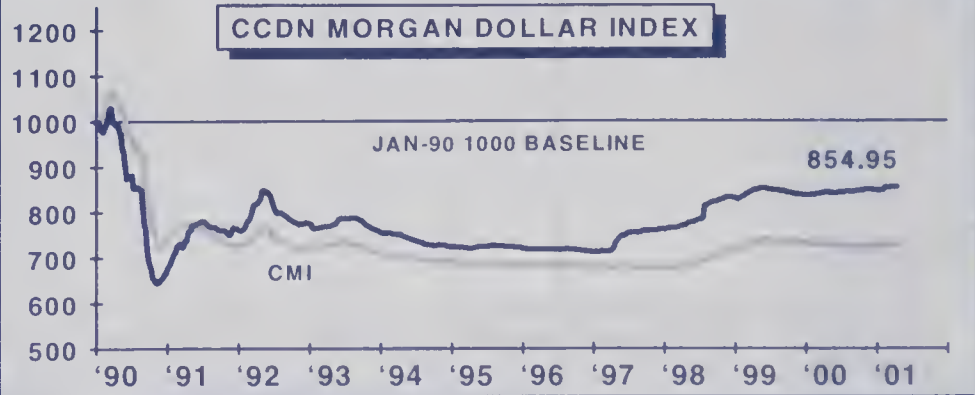

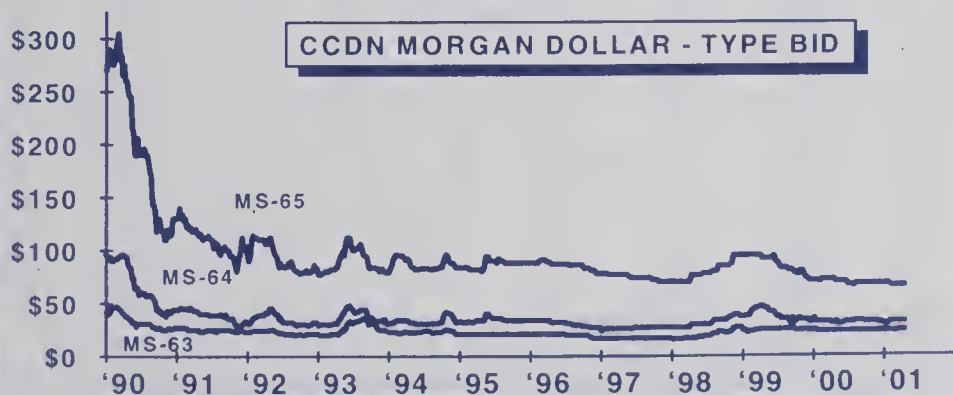

Late date Walking Liberty Half Dollars is another area of the sight-unseen market that is carrying over from the demand seen in the sight-seen market. Bidders are looking to buy this attractive, popular design for their customers. The current affordable price represents and easier sale for dealers and happy

collectors. Gold Commemoratives continue to attract several dealer's Bids. Interest remains sound as many supporting to higher Bids have been posted, resulting in several new plus signs for this short series. The target this week is the NGC certified 1903 Louisiana Purchase Jefferson and McKinley \$1 Gold Commems. Increases are taking place in grades MS64 thru MS66.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you.

Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

The more you value your collection, the more you need Intercept Shield to protect your investment.

Popularity Equals Plus Signs Sight-Unseen Market Healthy Despite Discounting

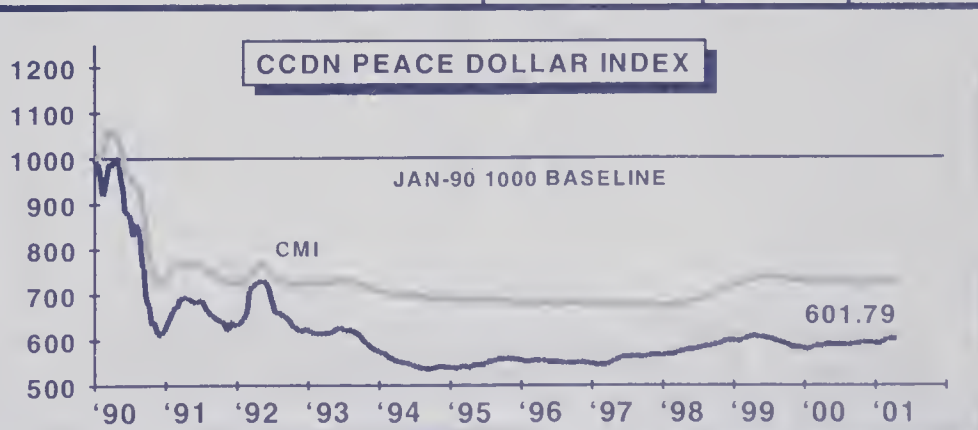

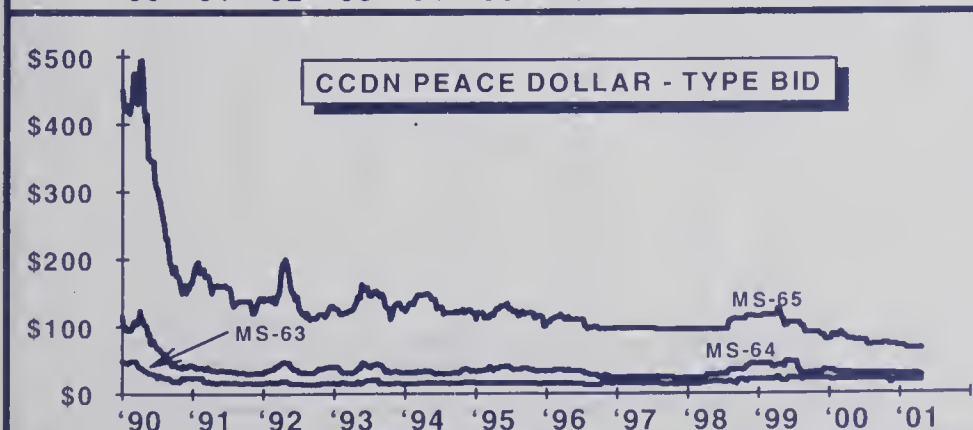

Is it possible that the Morgan Dollar market for common dates is finally stabilizing? Well, this week, the sight-unseen market for common date Morgan Dollars is actually displaying a few plus signs. This is a very welcome sight for the many collectors that have suffered with price declines for these issues for quite some time. Dealers are offering to buy quantities of MS62 PCGS or NGC examples at \$21, sight-unseen. Granted, this is only a \$1 increase but the direction is very satisfying for many dealers. Similarly, a higher Bid of \$32 is in place looking to buy NGC or PCGS examples grading MS64. Again, this represents a \$1 increase for NGC MS64 examples. However, the bigger story is not the amount of increase because it is very small, but the change in direction. We realize that this increase is only for two Mint State grades but it does suggest that the market is finally attracting some buyers for these common date coins at current levels. Elsewhere, the Morgan Dollar series is realizing a large number of supporting Bids by dealers on the electronic dealer networks. The demand for Carson City and other scarce date Morgans continues to impress dealers.

Gold Commemoratives are still extremely sought-after. Just a couple of weeks ago, we saw a strong round of plus signs for PCGS Gold Commemoratives. Today, we see a similar round of plus signs for NGC Gold Commems. Whether or not they are taking turns is not the point because the bottom line is performance. And, over the past year, Gold Commems have been excellent performers. The demand remains strong as dealers try to coax more examples out of hiding by posting another round of increases. It is important to point out that the increases may appear to be rather small at first glance. However, when you consider that these increases have occurred in only a week's time period you can begin to appreciate the significance of the change.

Mint State Type is a mixed bag this week. This is unlike what we saw in the sight-seen market where Bids are mainly to the upside. The sight-unseen market for Type has plus signs taking place but it also has some discounting taking hold. This discounting is related to several transactions that took place in recent rare coin auctions. Interestingly, the large number of plus signs that this market is experiencing is doing so on the NGC side. Dealers are posting increased Bids for select NGC graded Mint State Type coins. Bids seen on the PCGS side of the chart are holding their own at current levels. We see areas of interest among several Copper coins. Braided Hair Half Cents advanced in MS64 and MS65 while Liberty Cap, Draped Bust and Classic Head Large Cents are also noteworthy with increases occurring for MS62 Brown examples. At the MS62 grade level you can have a pleasing Uncirculated coin without paying the high amounts seen as you jump to MS63 and beyond. However, if popularity has anything to do with plus signs, it is easy to see why there are increases taking place in the Flying Eagle and Indian Head Cent Type section. This area of the market has been **red hot** in March and April with buyers willing to pay almost anything it takes to buy the coin. Bids are stronger for MS64 and better quality. Some additional areas in the Type arena that are benefiting from increased Bids include 3-Cent Copper-Nickels, Shield Nickels, Barber Dimes, Barber Quarters and Barber Half Dollars. Again its popularity that sells, because the Barber series is extremely popular with collector/investors. Many of these buyers know that even at the MS64 grade level they can well afford to buy a common date Barber coin for their Type collection. Writing about popularity, the Buffalo Nickels have numerous plus signs crowding our chart. Dealers are mainly concentrating their efforts on the early dates of the series, including the tough Denver and San Francisco keys. The bulk of the Bidding is focusing on grades from MS64 thru MS66.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Runaway Bids For Walkers An Upbeat Sight-Unseen Market

Last week we wrote that the sight-unseen rare coin market was very healthy, with plus signs intermingled with a few minus signs. This week, we see a market that is continuing to attract Bidders at current levels. Indeed, this is the sign of a very healthy market, despite the lack of large numbers of plus signs on our charts. The main story is found in the large number of supporting Bids taking place for many areas of the market. Gold Type, Proof Singles and Walkers are grabbing some plus signs. Overall, dealers are continuing to post strong **sight-unseen** Bids trying to buy coins at current levels. They are trying to do this because they know that at these levels a transaction can take place quickly, resulting in a happy collector/investor while at the same time making a reasonable profit.

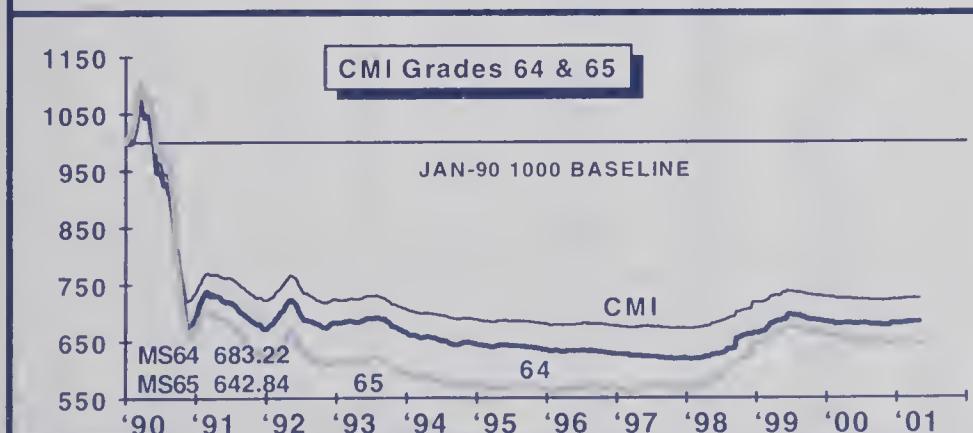

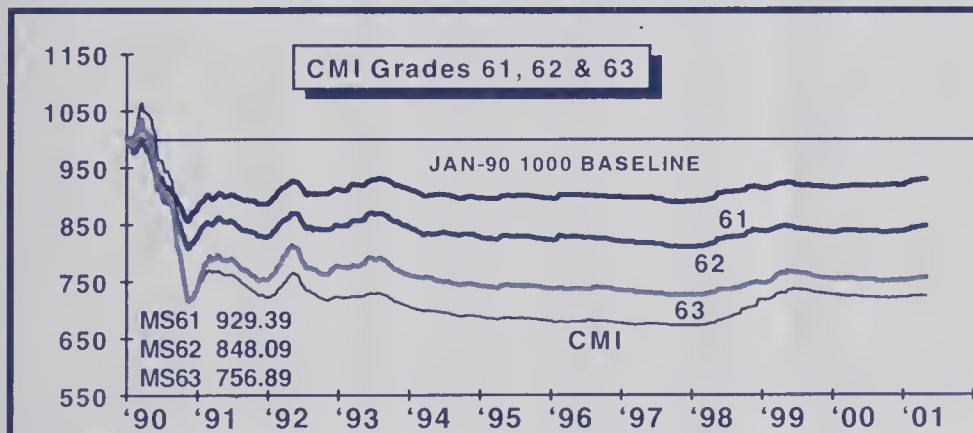

Walking Liberty Halves have been sought-after by dealers much of this year. Interest in this popular series has translated into many plus signs occurring in past weeks. This week, again, we see several plus signs occurring on our NGC and PCGS Walker charts. The Bidders are very specific in their needs and are targeting select dates and grades rather than widespread, wholesale advances to Type. The demand is mostly focused on the better dates of the series before 1923-S. This activity may be the result of a few collector/investor's want lists needs or an important and necessary sprucing up of one's inventory. Apparently, the demand and prices for select, scarce date Walkers in Uncirculated condition is ringing true. Increases are taking place beginning with the initial year of the series struck at the San Francisco Mint. Plus signs are seen for MS63 and MS64 examples. The 1917-S with the mintmark on the reverse is higher in MS64 as well. Plus signs are appearing in the MS62 and MS63 grading columns for both PCGS and NGC 1918-D Walkers. Other scarce semi-key Walkers realizing plus signs include 1920-D and 1920-S in MS62 and MS63. All these advances have been for semi-key rarities selling below the \$2,500 level.

However, the key to the series, 1921-S is also higher this week in MS61 and MS62, now Bid at \$5,600 and \$7,350 respectively for both NGC and PCGS.

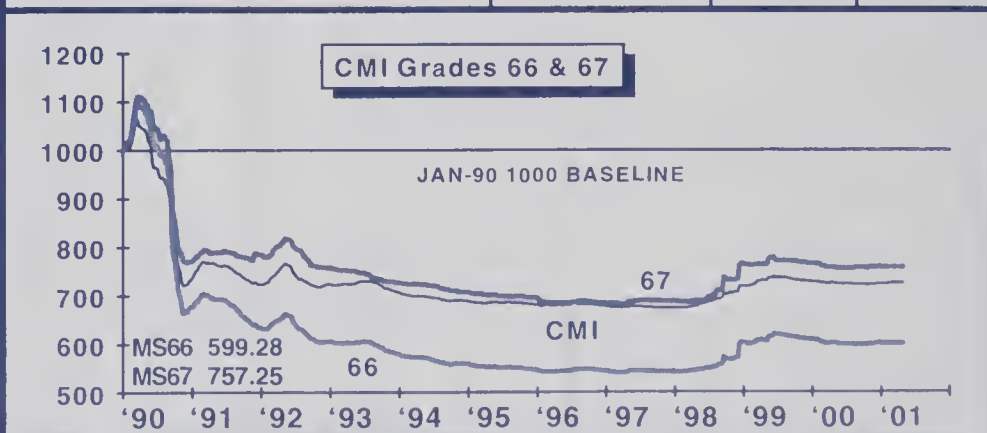

The demand for Walking Liberty Half Dollars is so great that we found dealers trying to capitalize by Bidding sight-unseen for ANACS slabbed examples as well. Obviously by the healthy jumps in a few of the Bids, being able to buy ANACS examples at these levels is believed by some to represent an excellent value. ANACS graded Walkers increasing this week include 1920-D, 1920-S, 1921-D, 1929-D, 1929-S and 1933-S. As you can see by this list, the early, better dates of the series are receiving most of the Bidder's attention.

The Morgan Dollar series is another segment of the market that has collector/investors working on complete sets. Consequently, the key and semi-key dates of this series seem to always find buyers. This week, a couple of key dates received noticeable jumps in Bid by dealers in the sight-unseen market. The 1884-S and 1893-S are two dates that are usually among the last filled when trying to complete a set of these Dollars. Bid jumped \$1,000 and \$5,000 respectively for the 1884-S and 1893-S in MS62 condition. At this grade level, a serious collector can have a nice, attractive Mint State rare coin without paying the huge premiums demanded for a specimen at the next grade increment.

Proof Singles have also received some serious attention from Bidders throughout 2001 and we see even more strength again this week. Dealers are mainly targeting the Walking Liberty Half Dollars. As we have seen in the business strike arena, **Walkers are hot**. Buyers are looking for Proof examples of extremely high quality. They have increased Bid for select dates in Proof 66 and Proof 67. Their main focus is for the years from 1937 thru 1942. The key, 1936 in Proof is unchanged this week. Gold Type is another reason why this market is so healthy. Dealers are continuing to increase Bid in hopes of fulfilling some of their insatiable customer demand for Gold Type.

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you. Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

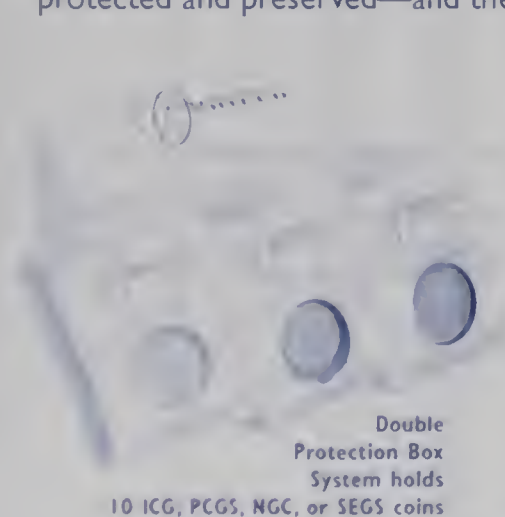

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

The more you value your collection, the more you need Intercept Shield to protect your investment.

Beneath the claims and the special offers, a grading service has to perform day in and day out with a level of expertise that few possess, in order to truly deserve your business.

Expertise is essential.

A grade you can trust comes from years of proven accuracy and consistency. This is achieved only by employing the right people. We believe that the finest graders in the coin industry are presently working for NGC.

Expertise establishes trust.

Another trait of a top grading service is the expertise to recognize and reject "No Grade" coins. Our diligence in this area is unsurpassed, thanks to the millions of coins we've seen over the years.

Expertise is proven through CrossOvers.

With the exception of one service (with whom we share a roughly equivalent CrossOver rate), other services fall short of the NGC standard 90% of the time.

Trust in the Official Grading Service of the ANA.

Only one grading company is the Official Grading Service of the American Numismatic Association, and that's NGC. Look at NGC's long association with the ANA and you'll see a track record of successful cooperation to build the strength of the hobby.

Expertise is proven in Error coins and Varieties.

Coins sent to NGC for error and variety attribution are attributed, graded, encapsulated and quality control checked quickly and expertly all within our high-security facility. It's why we grade more errors and varieties than anyone else.

Expertise is proven in results.

NGC is proud of its quarterly U.S. and twice-yearly World Census Report. They're not only a valuable reference for the coin hobby, but serve as a record of our achievement in grading over 5 million coins.

Trust in a proven guarantee of grade.

At NGC, our guarantee is real. And, it's used. Now while you may be surprised to hear us say so, we're proud to acknowledge that grading is an art, not a science. Ask around to see if other services honor and abide by their published guarantees, or for that matter, if they even have one.

Careful screening of member dealers is important.

We insist our member dealers be known for integrity, years of experience, sound business practices, and have reliable references. Unfortunately, padding these numbers has become fashionable. But member dealers admitted with no standards are about as good as no member dealers at all.

Expertise & consistency drive numbers.

At NGC, when we say that we graded 45,000 coins in a month, that includes only those coins that were actually encapsulated. We do not "pad" our numbers by including the 20,000+ pre-screened coins we reviewed that were never actually holdered.

Even if you only get coins certified occasionally, it is imperative you can trust the service doing the grading. The grade on the holder does not stand alone. It must match the grade of the coin in the holder.

Your expectations should be high. At NGC we welcome you to take a close look at the commitment we have to serving the hobby, and you, as a top grading service.

Mint State Type In Charge 1878-S Half Dollar Realizes \$50,600

We have discussed the overall health of the sight-unseen market in past weeks. The resounding conclusion is that this market is doing very well. As additional segments of the sight-unseen market participate in the rally as we saw last week with Walkers and Proof Singles, the general feelings about its future turn even more positive. Since early January, we have seen groups such as Gold and Silver Commemoratives; Proof Gold Type; Buffalo Nickels; Walking Liberty Half Dollars; Morgan Dollars; Peace Dollars; Mint State Gold Type; and, Proof Type all have their weeks of glory. Some series, such as Gold Commems, have had more glory this year than most. This week, Mint State Type takes its turn grabbing the headlines with serious gains.

These offers to buy have been present throughout the year and have increased in intensity on several occasions. Yet, what do all these plus signs mean? First off, a plus sign represents a dealer's willingness to offer more money for a specific coin at a particular point in time. Of course all the demand and all the plus signs do not guarantee anyone a successful transaction. However, it does point to the strong need for rare coins by dealers. There has been more than the usual number of promotions and programs entertained this year. The Television and Internet sites have proved to be great venues for those trying to market rare coins. Since many of the buyers may be first time buyers, it is safe to say that along with the immediate sale comes a potential new collector. The collector base might be increasing, once again, strengthening the overall support for prices at current levels. Again, a simple recipe that leads to a very healthy market.

Mint State Type scored an impressive number of plus signs this week. One of the most encouraging signs is the diversification of the sight-unseen Bids. Demand is pushing prices higher for many denominations and

grades. Dealers are trying to capitalize on coins and situations that represent excellent value. Interest is evident in Mint State Copper Type, with plus signs appearing for Draped Bust Half Cents and Large Cents. These coins are highly collectible and tough to locate. Dealers are looking to buy Red and Brown as well as full Red examples. Coronet and Braided Hair Large Cents are being demanded in the lower Mint State grades as well. Besides Copper, demand for Type is found among Liberty Seated Half Dimes, Draped and Capped Bust Dimes, 20-Cent Pieces, Liberty Seated Quarters, Capped Bust Half Dollars and Draped Bust Dollars. However, the truly impressive gains in Type are seen by our chart since the beginning of the year. Notice that the top four leaders in percent gains are held by NGC graded examples. Also, note that Draped Bust Dollars have control of six of the top ten.

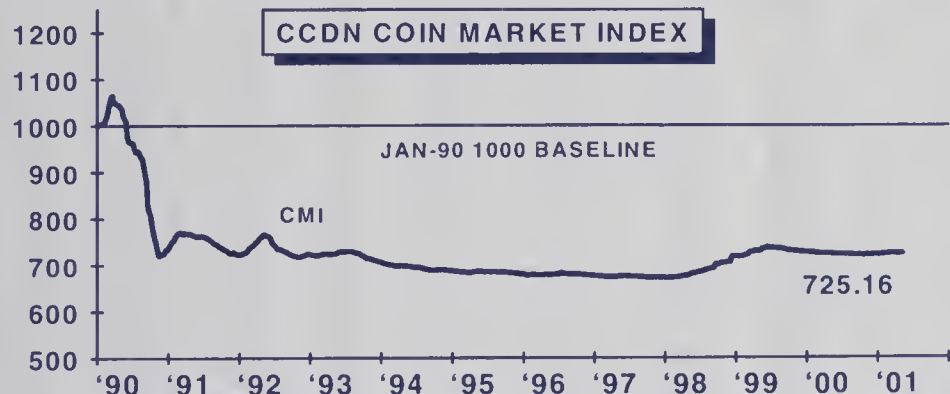

Buffalo Nickels have been up this year and this week is a perfect example of the willingness of dealers to increase Bid for specific examples. The heaviest portion of the demand is seeking the early, and better dates of the series grading MS64 thru MS66. Coins become a strong target by dealers when priced between \$500-\$5,000 range. Walking Liberty Half Dollars have also been on the wish list of dealers this week. In this series, it is the later dates in gem MS65 and better condition that are receiving the attention of dealers. Coins below \$1,000 are heavily sought-after.

The New York Spring Auction #208 was conducted by R.M. Smythe on May 3rd. It featured the "Nebraska Part V" collection of Half Dollars. The sale realized more than \$670,000. Listed below are a few of the certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

"Buy. Sell. Trade. Consign. We've Got Your Number."

-Jay Parrino

Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.

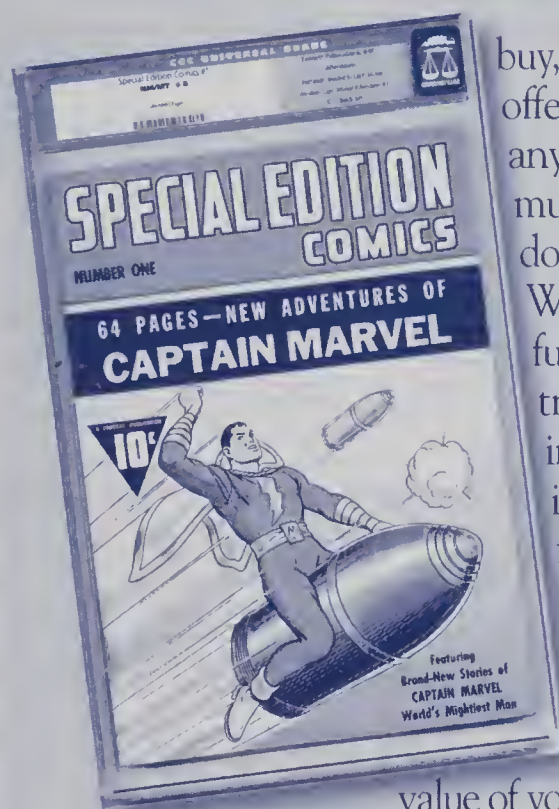

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726. Or see our entire inventory at www.jp-themint.com.

RARE GOLD

If you are a marketer of rare United States Gold coins and you do not receive my wholesale price list, you may be costing yourself money.

I'm one of the largest wholesalers of rare United States Gold coins in the world. I have over twenty years experience in wholesale gold coin sales.

Each week, I put out a "user-friendly" inventory list which contains over \$1 million of choice, fairly priced rare U.S. Gold coins.

I specialize in PCGS and NGC graded U.S. Gold coins struck from 1795 to 1900 in Very Fine to Mint State grades.

Comprehensive support material is available. I can increase your sales and make it easier for you to sell rare U.S. Gold coins.

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, one of the largest transactions in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

Walker Short Set Proves Popular Late May Auctions Number Three

One of the more popular items that we have seen this year in the sight-unseen rare coin market is the Walking Liberty Half Dollar Short Set. This is a collection of Half Dollars from 1941 thru 1947. It comprises 20 examples from the Philadelphia, Denver and San Francisco Mint. These are the last seven years of the popular Walker series that began in 1916. Many collectors have chosen to collect this Short Set because it is more affordable and is easy to complete in comparison to the full set. It also allows them to obtain high quality examples of this attractive design by A. A. Weinman with the entire gem collection Bid at just over \$3,000. Collectors can see the designer's monogram AAW on the coin's reverse below the Eagle's wing feathers. We know that dealer's have bought and sold these sets to collectors for many years. Today, they can even tout the appreciation factor of MS65 sets along with all its other accolades. Our performance chart depicts some interesting totals for this set in the last year. The grade of choice for this set is MS65 for pristine quality coins on a collectors budget. The sight-unseen Bid for NGC Short Sets increased sharply at 15.47 percent with a greater than 10 percent increase recorded for PCGS MS65 Short Sets. Demand seems to fall off precipitously after this grade of choice. Most other Mint State grades for the Short Set performed rather lackluster for the year. Those collector/investors that chose specific MS65 dates from the short set may have achieved a much greater return for their money. See the top ten percent gainers from this group of Walkers.

better. Meanwhile, Mint State Gold Type is sporting a few plus signs. Otherwise, Morgan Dollars and Commemoratives continue to find Bidders at current levels. Dealers are trying to supply key dates from each of these popular groups. However, bottom fishing in the sight-unseen waters has been slow with few prize examples tipping the scales.

Three important May Auctions are scheduled for the latter half of the month. The Cabinet of Lucien M. LaRiviere Part III, including selections from Douglas L. Noblet and Scott Travers

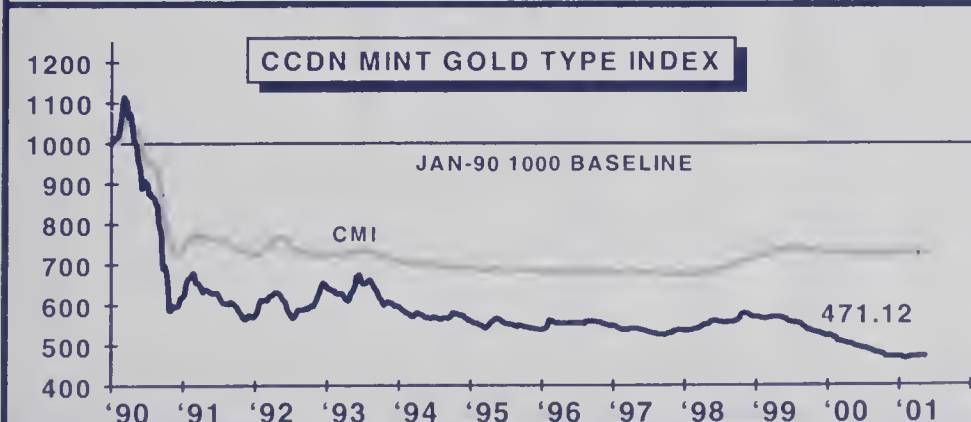

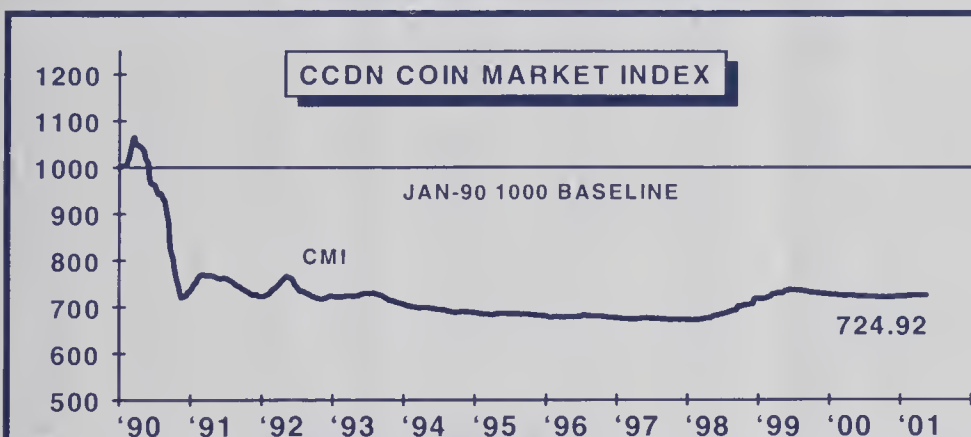

will take place May 21 in New York. Bowers and Merena will host this auction. On May

27-29, the Pre-Long Beach Coin Sale auction will be conducted by Superior. It will feature several collections including the Houston, Massachusetts and Hudson River Valley Part V. The sale will be held in Beverly Hills, CA. Finally, The Fairchild Family Trust Collection will hit the auction block May 28-30 in Los Angeles. The sale will be conducted by Ira & Larry Goldberg C&C. See a few of the certified highlights from each of these auctions above.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

THE CHOICE FOR ERROR COIN GRADING IS AS EASY AS "N-G-C"

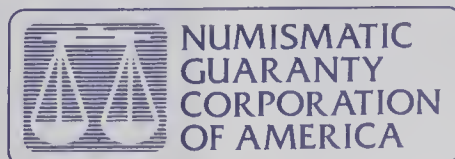

For the three recent Sacagawea mules, NGC was the first choice for grading and certification.

NGC now grades more mint error coins, and more of the world's MOST RENOWNED error coins than any other service. Why?

- #1** There is **NO EXTRA CHARGE** for NGC error coin attribution. You pay only the cost of the NGC grading tier you choose, plus shipping and insurance.
- #2** NGC certifies almost **ALL non-proof U.S. & World error coins**, and we do it under **ALL NGC tiers** from \$7 bulk to same-day **WalkThrough!** (Compare to \$30/30-days elsewhere!).
- #3** Your coins are attributed by NGC mint error specialist **Dave Camire** as well as NGC's expert grading team **INSIDE NGC'S HIGH-SECURITY FACILITY**.

The next time you need error coins certified choose NGC, the Official Grading Service of the ANA, and the service that more and more error collectors and dealers turn to every day. Call Dave Camire or NGC Customer Service at **1-800-NGC-COIN** for details, or email **dcamire@NGCcoin.com**.

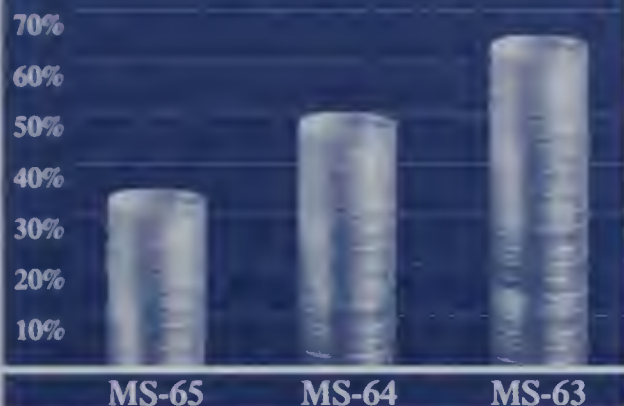

Dedicated. Responsive. Proven.

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you.

Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

The more you value your collection, the more you need Intercept Shield to protect your investment.

Plus Signs Crowd Popular Series 1913 Nickel Docks At Long Beach

Overall, the sight-unseen market is doing very well from Commemoratives thru Proof Singles. Dealers are readily posting strong sight-unseen Bids for the coins that they need for their customers and inventory. The electronic dealer trading networks provide dealers with a quick avenue to buy and sell rare coins. Often, a closer inspection of the coins being offered for sale along with the highest sight-unseen Bid on the demand side can prove to be lucrative for the astute dealer. Bargains are out there for those dealers who are willing to cover all the bases regularly.

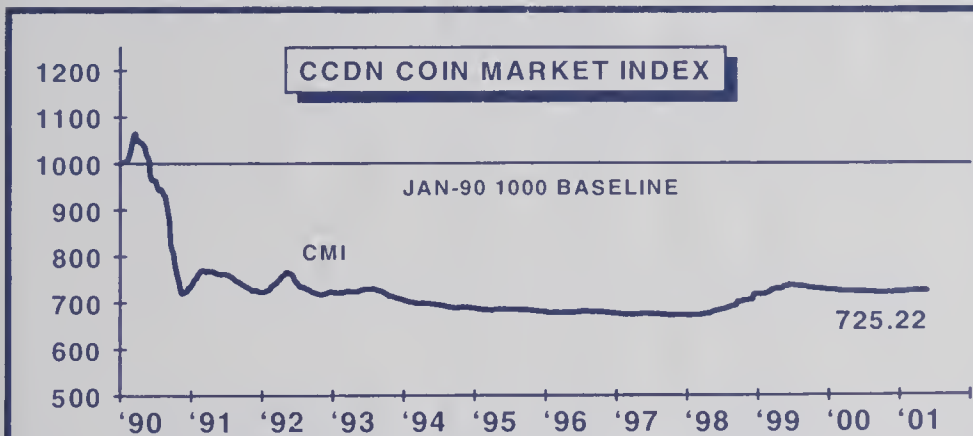

This week, it is difficult to find too much fault with this market after seeing the large number of **plus signs** appearing in several series. Morgan Dollars are arguably the number one series for many seasoned collectors. The attractive design and their availability in Mint State condition allow many collectors an opportunity to complete their Dollar set building goals. Some choose to complete Carson City sets while others, even more ambitious, try to assemble complete sets. Currently collector demand for Dollars is extremely strong! Dealers are still having a tough time buying dates that they need to fill want lists for customers. Consequently this week, we see many plus signs for this series and other popular series. Walking Liberty Half Dollars and Buffalo Nickels are two areas showing several increases. Again, attractive designs and key date challenges add to the excitement that collectors enjoy when building complete sets. For the Walkers, it is the short set dates that are being targeted. Plus signs are numerous for coins dated 1941 thru 1947 in grades MS65 and MS66. In these grades, dealers are able to offer a very attractive Mint State gem to their customers at a very affordable price. Buffalo Nickels are displaying similar strength, but the demand is focused on the early, better dates of the series. Dealers are attempting to load up on these tough dates, increasing Bid incrementally week after week in an effort to buy. Many Bids are in the \$1,000-\$5,000 range with higher Bids appearing for select key and semi-key dates. For Buffalo Nickels, the grade of choice ranges from MS64 thru MS66. Dealers are looking for coins that exhibit full luster and strong

strikes. Gold Type is realizing strong demand for coins above the \$1,500 level. Plus signs are appearing for \$2.50 Liberty examples in MS66 and MS67. Advances are also occurring for MS65 \$2.50 Indians; \$10 Liberties, with Motto; and, \$20 Type III Liberties. We see that even \$3 Indians are participating in MS63, now Bid at \$2,800 for either PCGS or NGC. The only exception is the \$20 High Relief issue that has a few minus signs appearing this week. Active Bidders are also looking to buy Proof Singles. Specifically, they want select dates grading PR67 among the Nickels and Dimes.

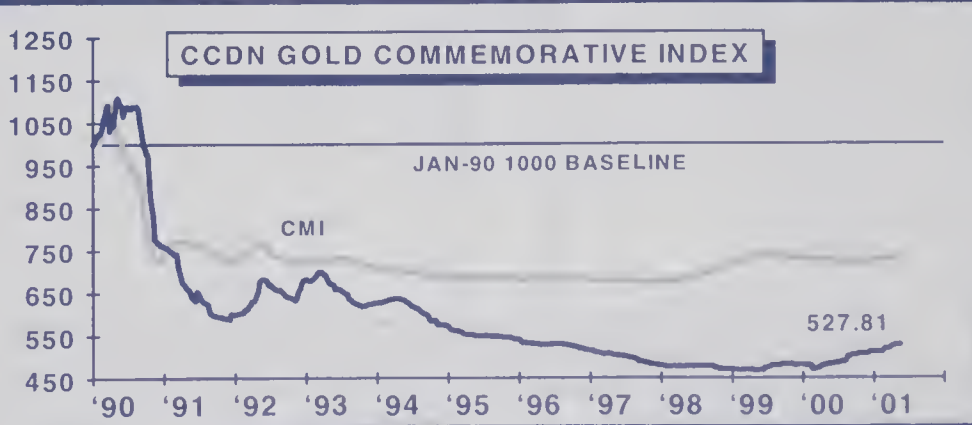

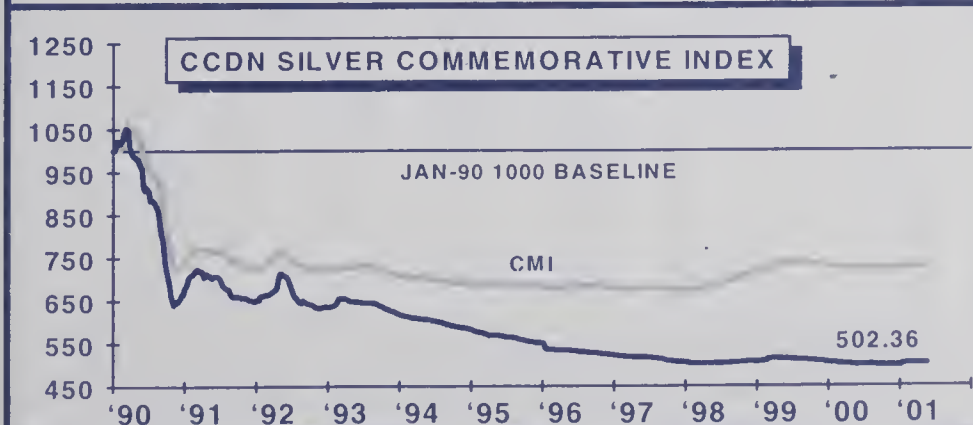

Most dealers will be heading towards Southern California to participate in the Long Beach Coins & Collectibles Expo held May 31 thru June 3. This show is a good **mid-year** barometer of the coin market because it is one of the more well-attended coin shows held throughout the nation. Expectations this year are definitely running high. One of the hobbies most celebrated rarities, the famous 1913 Liberty Head Nickel will be on display at the Expo. This attraction should generate excitement from all those who will have a chance to examine the coin first hand. Another major rarity in the news, the King of Siam Set, changed hands on May 14. Spectrum Numismatics, acting as an agent, announced the sale of the set with Mike's Coin Chest, agent for an anonymous client. The record price exceeded the \$4.14 million received for the Child's Class I 1804 Draped Bust Dollar sale in 1999.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder.
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

"Buy. Sell. Trade. Consign. We've Got Your Number."

-Jay Parrino

Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Walkers Strong In Long Beach Pair Of Auctions Total \$8.4 Million

The May 31st thru June 3rd Long Beach Coin & Collectibles Expo is already in progress in California with dealers from all over the country buying and selling coins. Short supply of quality coins has been a problem for most dealers. They are actively trying to buy fresh material that has not been picked through or tampered with in any way. They are looking for original, attractive coins that they know will be easy to sell to their sophisticated customers. Also, they are willing to pay very strong money for the right coins. In early trading, MS65 and better Walkers dated 1937-1947 are in heated demand. Increases have been occurring for late date Walkers for several weeks now and this report is no different.

Generally, May has been a very busy month in the world of numismatics. We have seen a lot of activity on the electronic dealer networks, bourse floor and at auction. Auctions have played a serious role in May and will continue to play a role right through to the last day of the month. Two sales are concluding in the final week of May while one other will end June 2. At least five major auction companies scheduled sales during May. Interest in the sight-unseen market throughout the month has been evident with dealers willing to continually offer supporting Bids as well as posting increased Bids. Demand remains strong throughout many segments of the rare coin market. Mint State Gold Type has been a major highlight this month and continues to sport several plus signs as we close out the final week of May. We see numismatic Gold outperforming bullion Gold coins with buyers pushing Gold Type to levels that some dealers find amazing. Still, demand is evident because there are several buyers willing to pay Bid and higher to buy these coins. As the number of coins listed in customer want lists continue to grow, so does the potential of future sales. Dealers are trying to stay ahead of this fast-paced market by keeping a generous selection in their inventory. Those dealers that manage to keep their inventory fresh stand a better chance of being successful in this selective rare coin market.

Some areas of interest observed this week include: Proof Singles; GSA "CC" Dollars; Carson City Dollars from any professional grading

service (note the ANACS Bid increases this week); Cleveland Commems in MS65 and MS66; and Morgan & Peace Dollars. Dealers have been stocking their inventory with Proof Singles for much of the month. This week, we see several plus signs for Proof67 Mercury Dimes. Carson City Dollars have realized powerful demand throughout the year. Today, interest is still very evident for any example housed in any kind of plastic. Just this week alone, healthy increases are seen for Carson City Dollars encapsulated by NGC, PCGS, ANACS and the GSA. Somebody lit a match under the Peace Dollars this week. Granted the increases are slight but the number of issues advancing may tell us the bigger story. Of course we know that many collector/investors are continually working on Mint State Type sets. This week, increases are taking place among Barber Half Dollars. Dealers are looking for either PCGS or NGC examples grading MS63 and MS64.

Also, a small increase has occurred for Standing Liberty Quarters in MS64.

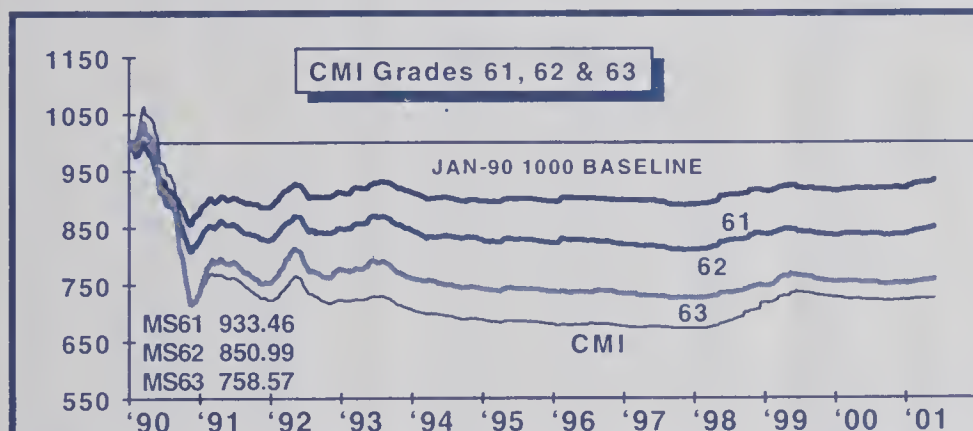

The just completed Pre-Long Beach Coin Sale by Superior Galleries realized more than \$3.4 million. The May 27-29 sale in Beverly Hills found

Beneath the claims and the special offers, a grading service has to perform day in and day out with a level of expertise that few possess, in order to truly deserve your business.

Expertise is essential.

A grade you can trust comes from years of proven accuracy and consistency. This is achieved only by employing the right people. We believe that the finest graders in the coin industry are presently working for NGC.

Expertise establishes trust.

Another trait of a top grading service is the expertise to recognize and reject “No Grade” coins. Our diligence in this area is unsurpassed, thanks to the millions of coins we’ve seen over the years.

Expertise is proven through CrossOvers.

With the exception of one service (with whom we share a roughly equivalent CrossOver rate), other services fall short of the NGC standard 90% of the time.

Trust in the Official Grading Service of the ANA.

Only one grading company is the Official Grading Service of the American Numismatic Association, and that’s NGC. Look at NGC’s long association with the ANA and you’ll see a track record of successful cooperation to build the strength of the hobby.

Expertise is proven in Error coins and Varieties.

Coins sent to NGC for error and variety attribution are attributed, graded, encapsulated and quality control checked quickly and expertly all within our high-security facility. It’s why we grade more errors and varieties than anyone else.

Expertise is proven in results.

NGC is proud of its quarterly U.S. and twice-yearly World Census Report. They’re not only a valuable reference for the coin hobby, but serve as a record of our achievement in grading over 5 million coins.

Trust in a proven guarantee of grade.

At NGC, our guarantee is real. And, it’s used. Now while you may be surprised to hear us say so, we’re proud to acknowledge that grading is an art, not a science. Ask around to see if other services honor and abide by their published guarantees, or for that matter, if they even have one.

Careful screening of member dealers is important.

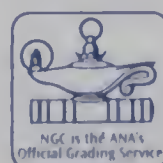

We insist our member dealers be known for integrity, years of experience, sound business practices, and have reliable references. Unfortunately, padding these numbers has become fashionable. But member dealers admitted with no standards are about as good as no member dealers at all.

Expertise & consistency drive numbers.

At NGC, when we say that we graded 45,000 coins in a month, that includes only those coins that were actually encapsulated. We do not “pad” our numbers by including the 20,000+ pre-screened coins we reviewed that were never actually holdered.

Even if you only get coins certified occasionally, it is imperative you can trust the service doing the grading. The grade on the holder does not stand alone. It must match the grade of the coin in the holder.

Your expectations should be high. At NGC we welcome you to take a close look at the commitment we have to serving the hobby, and you, as a top grading service.

Proof Singles Are Number One Sight-Unseen Market Vibrant

We can see from the very strong Bids that the fervor has not left the **sight-unseen** rare coin market. Dealers are out there shaking the money trees and hoping that some coins that they need fall their way. We know how strong the demand is for Proof Sets and Mint Sets because of the plus signs that crowd the *Greysheet* each week. However, in the sight-unseen market, couples and groups will have to sit this one out because this dance is for Singles only. Forget about the strong demand for original government sets of coins for a moment. Proof Singles are practically on fire. It is the kind of scenario that it is fairly common to the rare coin market. This is a thin market by its very nature and thus at certain unpredictable times it can be an extremely volatile market. That is what is happening currently in the Proof Singles market as dealers increase many Bids by 10 percent and higher. Keep in mind that this jump in sight-unseen Bids for Proof Singles has taken place in just one week. Therefore, a **10 percent** increase in one week's time is something to write home about. Just do not expect to here it on the nightly business news because that slot is reserved for the "Large Caps."

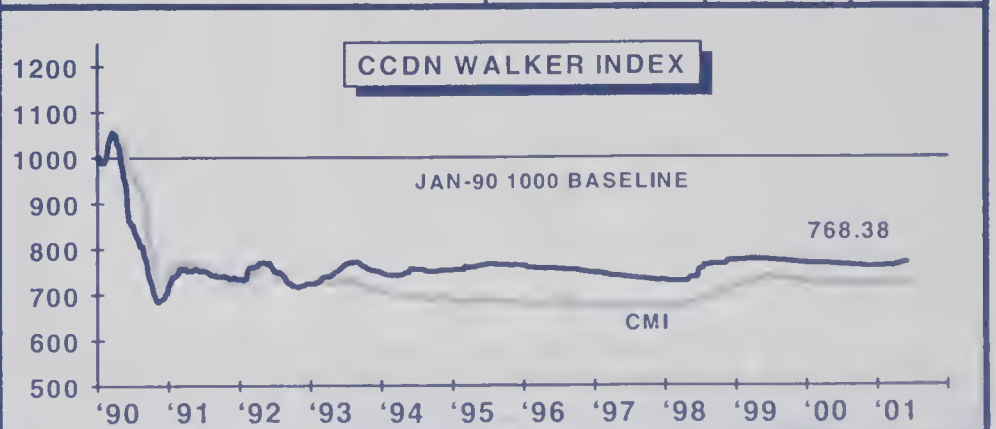

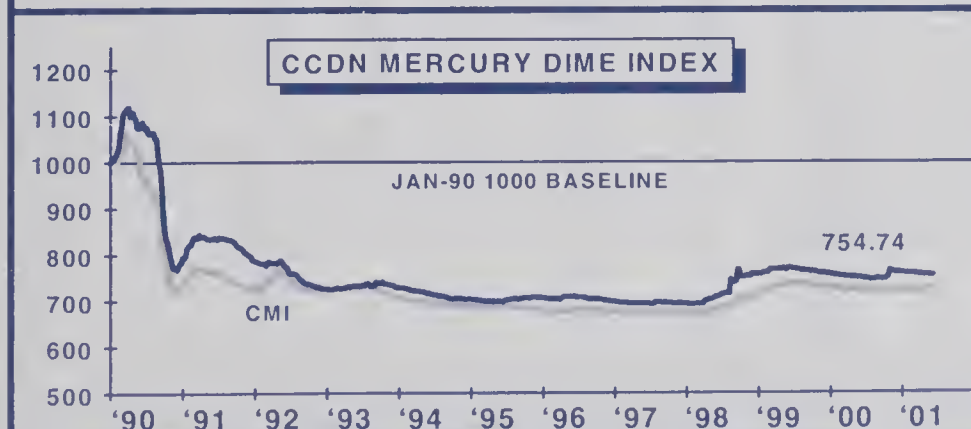

Even in our circle of rare coin Types and denominations Proof Singles are not considered to be one of the "Large Caps." Well, every dog has its day and this one belongs to Matte Proof Buffalo Nickels; Proof Mercury Dimes 1936-42; and, Proof Walking Liberty Half Dollars 1936-42. As you can see, the popular, attractive design series of the 20th century are realizing sharp demand. The grade of choice begins at PR64 and anything higher is definitely acceptable. It is no wonder that the Nickel, Dime and Half Dollar have dominated the percentage gainer leaders since January.

What is happening around the rest of the sight-unseen market this week? We should note that Matte Proof Buffalo Nickels from 1913 thru 1916 are realizing exceptional demand. Again, demand is greatest for

the grades PR64 and higher. Interest is also being observed among early Matte Proof Lincoln Cents. However, dealers seem to be targeting the lower Proof grades. They are looking to buy PR61, PR63 and PR64 Cents. Proof Like Morgan Dollars are displaying a mixed bag. Plus signs are overpowering minus signs with demand for Carson City issues taking the lead. We do see that common dates are lower for MS63 PL issues. In all, the market for PL Dollars is generally good. **Early Gold Type** has been hit with several minus signs. Weakness is still apparent for these four and five-figure rare coins. Strong supporting Bids continue to buoy the Gold Commemorative series. Dealers are willing to pay these top Bids, sight-unseen for a few examples. Evidently supply has not satisfied the demand in this short series. Silver Commems are quiet with a few plus signs and a few dealers trying to fill some of their needs. It appears that the strong demand seen for Proof Buffalo Nickels, Mercury Dimes and Walkers has not translated into plus signs for the business strike examples of these series. However, we do know that there is steady support from dealers for many of these dates at the current levels. One of the hottest segments of the market has been Mint State Gold Type. However, this week, we are finding Bidders to be less aggressive at the top levels and even backing off on some of their strong Bids. Consequently, we see some minus signs beginning to creep into the chart. Washington Quarters are realizing multiple high sight-unseen Bids for many tough dates of the series. Some of these Bids are targeting examples in MS65 such as 1932; 1932-S; 1934-D; 1935-D and S; 1936-D; and, 1936-S. These are the early dates that collectors chase when trying to complete the Washington Quarter set. The gem grade of MS65 is a difficult challenge for most collectors. It is also an expensive proposition considering the cost of the 1932-D and 1932-S in gem.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

"Buy. Sell. Trade. Consign. We've Got Your Number."

-Jay Parrino

*Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.*

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726. Or see our entire inventory at www.jp-themint.com.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The **PCI** Capsule...

☒ **\$8⁰⁰ PER COIN**

☒ **6-DAY SERVICE**

Tells why more people

are turning to **PCI**

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at **PCI** have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you.

Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

The more you value your collection, the more you need Intercept Shield to protect your investment.

Advance/Decline Line Compelling

\$10 Liberty Increases 37% In NGC MS65

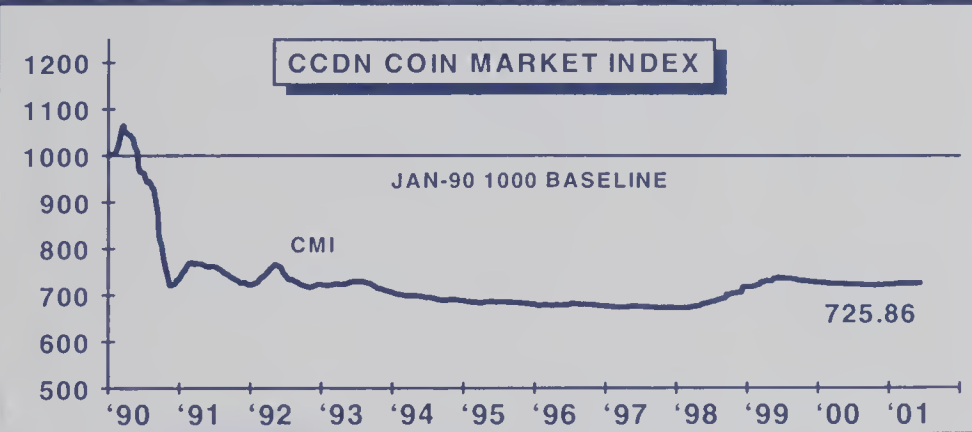

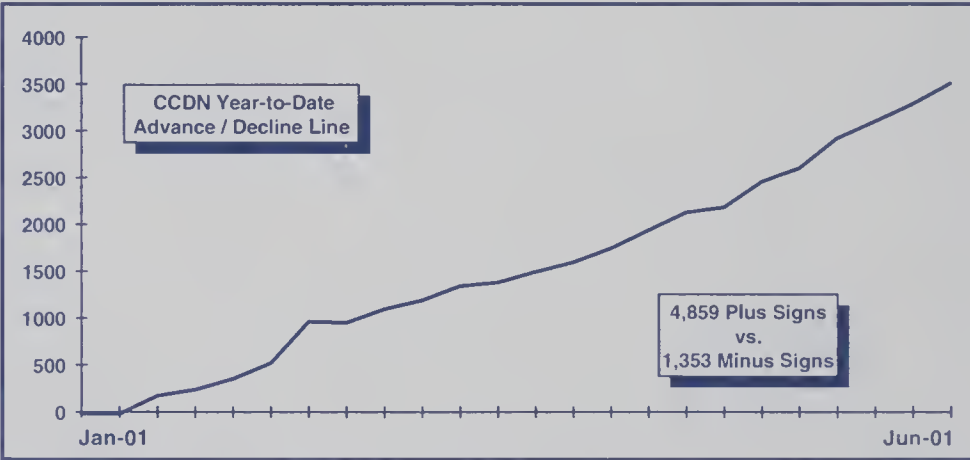

One of the best ways to check the pulse of the sight-unseen market is by examining the *CCDN Year-to-Date Advance/Decline Line* since January. This gives us a quick snapshot of the market indicating bullish or bearish movement. Things got off to an ominous start as declining issues outnumbered those advancing for the very first week of the new year. However, only one other week had a negative in this department as our chart depicts nothing but plus signs out numbering the minus signs for 22 out of 24 weeks. Also, beginning with the March 2nd update, we have recorded 16 positive weeks in a row.

The *CCDN Coin Market Index* also depicts positive movement of this market since January. Interest is increasing and so are the prices as dealer's battle to buy coins. With this issue, the *CCDN Coin Market Index* is at 725.86 just under its high for the year at 726.04.

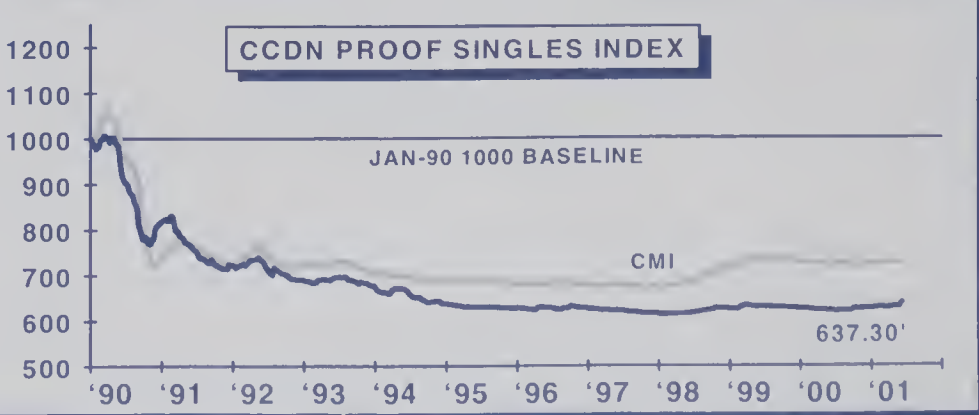

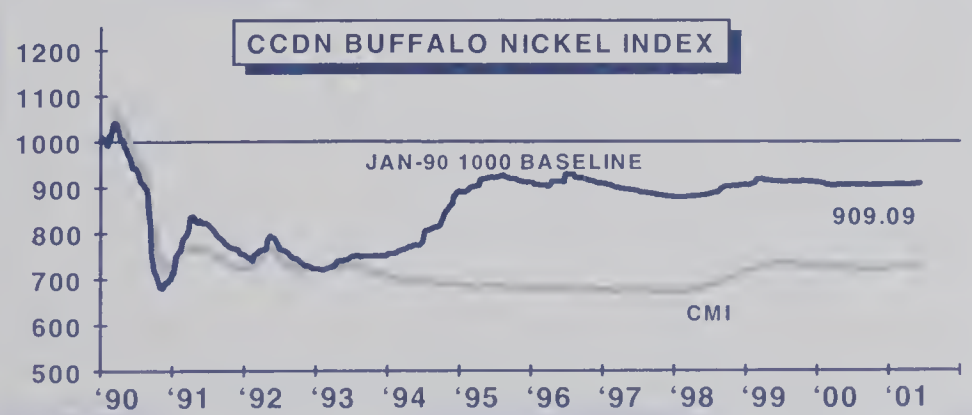

There's a lot happening within the sight-unseen rare coin market. Plus signs are appearing more numerous throughout the many areas that we track on a weekly basis. Not only are prices increasing but we see select issues sporting very healthy percentage gains. Demand is very strong because dealers need coins in quantities to feed the increased collector base. Where have all the rare coins gone? This is the question that dealers think about when they are having difficulty buying material on a daily basis. They need material for a depleted inventory and to fill their customer want lists, but the number of coins they are able to buy is insufficient to satisfy the demand that they are facing. Still, they do the best they can and diligently use all the avenues at their disposal to obtain material for their business. One dealer believes that many of today's collectors, including those new to rare coin collecting are "holding" their coins. They are not as willing to buy a coin and quickly sell it in a few months or even a year later just because it has increased in value. Rather, the coins are in stronger hands and consequently it is becoming more difficult for dealers to obtain the coins that they so desperately need. Therefore, dealers are becoming more willing to buy deals that include a lot of coins they do *not* need just to be able to add a few that they do need. They are more willing to spend the time to examine quantities of "junk" in an effort to find those few jewels.

After the huge jump last week among Proof Singles you would think that prices would level off or even drop as some profit taking would be likely to

appear. Hardly! We see more plus signs this week as dealers are still unable to buy the number of Proof Singles that they need. Other areas of the market are also doing quite well. Mint State Gold Type continues to shine brightly. Dealers are posting strong, sight-unseen Bids for select issues. An **astonishing 36.9 percent increase** was turned in by an NGC MS65 \$10 Liberty With Motto. Also note the huge 22 percent jump for PCGS examples. It sometimes takes a spike jump in Bid to shake a few coins loose. If anyone was even considering selling a \$10 Liberty in MS65 this Bid should have solved his or her dilemma in a heartbeat. Increases are also evident for Type I and Type III Gold Dollars in MS64. Some common date Morgans in low grades are advancing as are select Carson City issues. Discounting from recent auction sales is seen among a few Silver Commemoratives, Morgan Dollars and Mint State Type, but it is mainly targeting the higher priced coins in the higher grades. Proof Type, Buffalo Nickels, Walking Liberty Half Dollars and even some expensive Proof Gold issues scored big this week. Dealers looking for specific issues are willing to increase their Bid in their quest for success. It takes coins to complete transactions and this need has yet to be satisfied.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The Service More Error Collectors and Dealers
Turn To Every Day.

That's NGC.

As the industry leader, NGC has become the choice for error coin authentication and grading. From Multiple Struck coins to Mules, more people are choosing NGC. Our team of experts including David J. Camire, mint error specialist and a noted authority on the minting process, evaluates every coin. From authentication to attribution NGC has it covered.

NGC accepts all Non-Proof US and World error coins for authentication and grading. The convenient tier system offers flexibility and speed while meeting your needs. Bulk rates are available starting at just \$7 per coin. Call NGC for quotes.

Mint error coins can be submitted to NGC through one of its 1600+ member dealers or now directly to NGC through the Certified Collectors' Society.

For more information please call
1-800-NGC-COIN or go online to
www.NGCcoin.com. David J. Camire can
be reached via email at

The Coin Collector's Survival Manual – Fourth Edition by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$18.95.

"This is the book about the coin business you can't afford to be without." - **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the fourth edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- **How not to get ripped off if you buy coins through the mail or over the Internet**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and safe—as well as the right storage method
- A review of some Internet web sites, with a legal analysis
- Requirements of the FTC telemarketing act
- The real facts behind the toning corrosion controversy

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

NEW information in the fourth edition:

- **Courageous information about on-line auctions—no other numismatic author has ever been as bold in exposing Internet scams!**
- A comparison of PCGS versus NGC—which service does the market really favor?
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins and much, much more!**

Order your copy of *The Coin Collector's Survival Manual - Fourth Edition*. 284 pages, dozens of sharp illustrations. (black & white and full color). For the price of \$18.95, you can make a mint.

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of six award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *The Insider's Guide to U.S. Coin Values*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

Sight-Unseen Market Maintains Strength

Huge Percentage Gains Continue

Last week we reported that \$10 Liberties grading NGC MS65 increased a whopping 37 percent. This week it is the \$10 Indians turn, gaining an amazing 20 percent since the previous week for an MS65 example. Again, NGC scored the largest percentage increase with the PCGS counterpart jumping 13 percent. Sometimes the **power** of the **sight-unseen** market is almost frightening. Some of these increases would make the top percentage gainers list of most financial newspapers if they were stock. However we know that rare coins are usually promoted as something other than an investment vehicle, but as you can see by some of this year's results, select rare coins can surely hold their own.

Those of you that believe only the financially sound collector/investors that can afford to buy Gold Type coins are able to reap these spectacular results should consider other areas of the market. Again as we reported the last couple of weeks, Proof Singles continue to overachieve. Despite some believing that profit taking is inevitable, a large number of increases have taken place for the third week in a row. Demand remains very strong for Proof 1936-37 Buffalo Nickels; 1936-42 Mercury Dimes; and, 1936-42 Walking Liberty Half Dollars. Similar to what we have witnessed in the Gold Commemorative market, supplies are tight. The popularity of these designs combined with the beauty of deeply struck mirrored surfaces seem to make these coins irresistible. However for some collector/investors, these huge percentage returns have been equally attractive to their pocketbook. This week, for example, a more than 36 percent increase took place for PR66 1952 Franklin Half Dollars. It does not matter if your coin is in an NGC or PCGS holder to achieve this spectacular result. Also, it was only Bid \$110, a price that fits comfortably in most coin collector's budget.

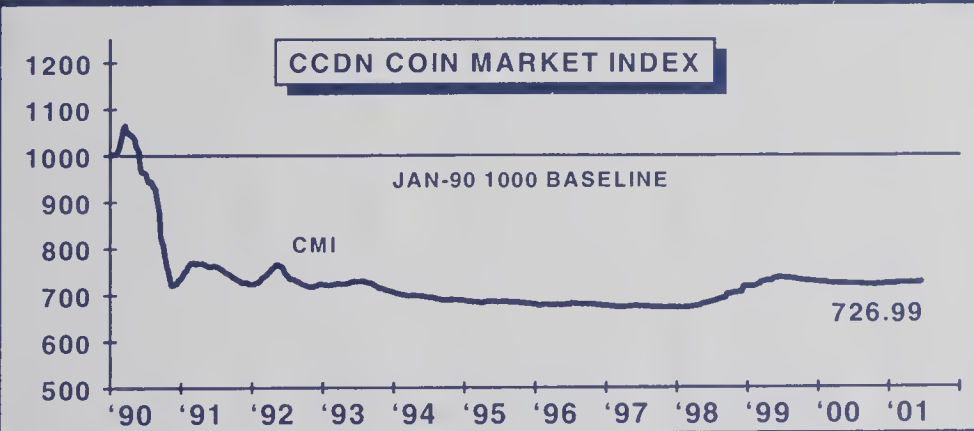

What is intriguingly significant about the current bull rare coin market is the demand's diverse needs. Interest is seen at many levels covering a wide range of dates and denominations. On the one hand, we

see plus signs occurring for Matte Proof Type Copper. Interest ranges from Brown to Red and Brown to full Red examples in the Lincoln Cent series. This is easy to swallow because of the rarity and popularity of these Proof Cents. However on the other hand, a dealer is trying to load up on common date, 1938-D Buffalo Nickels in MS66. Yes, quantities of up to 50 coins are needed at \$38 regardless of whether they are in NGC or PCGS holders. Unfortunately not everything is coming up roses, as some common date Morgan Dollars in PCGS MS65 have fallen to the \$64 Bid level equaling the \$64 Bid for NGC common date Morgans. Also, discounting is evident around the market as a result of recent auction activity.

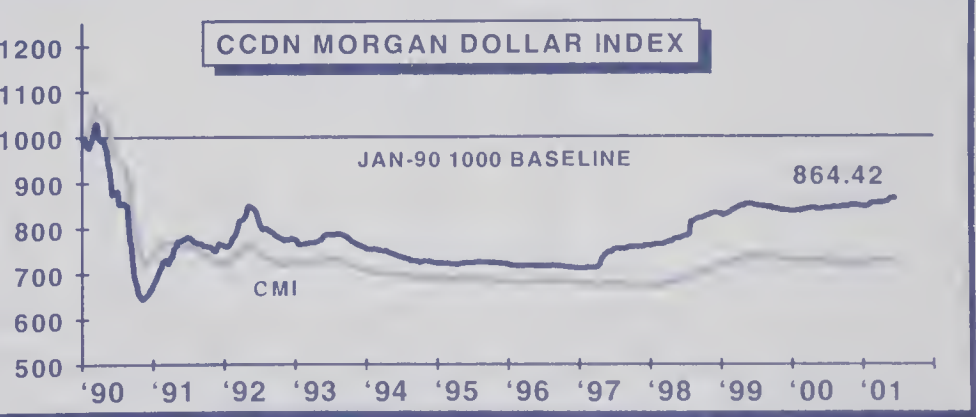

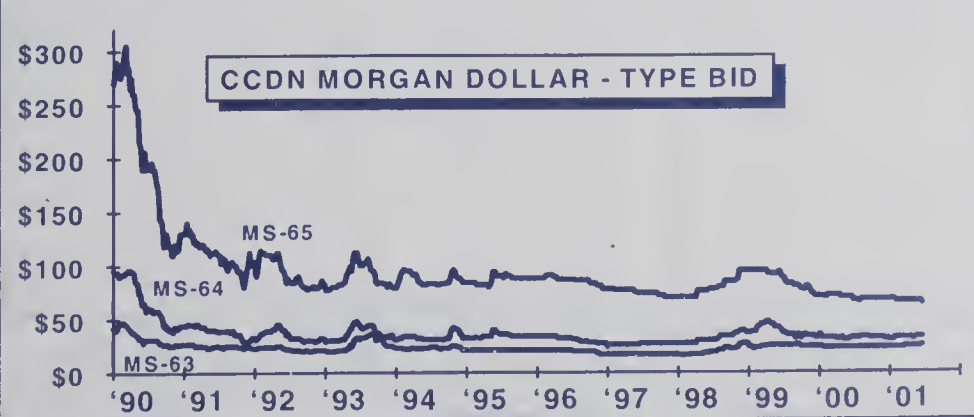

Much of this increased demand and activity points to a collector base that has a little bit of everything — from new collectors to seasoned coin market junkies. As the collector base expands further, we will see additional pressure that will strain supplies and force prices even higher. Therefore unless this situation changes, the shortage of material that dealers often complain about will continue to exacerbate over time.

Still, an upbeat rare coin market is just what the doctor ordered for the Mid-America Coin Expo to be held in Rosemont, Illinois. This centrally located show is in proximity to many coin collectors residing in the Chicago Metropolitan and surrounding areas. The June 29 thru July 1 show feature The Lake Geneva Sale, a public auction to be held in conjunction with the show June 28-29. The sale will be conducted by Bowers and Merena. We have listed a few of the certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

"Buy. Sell. Trade. Consign. We've Got Your Number."

-Jay Parrino

*Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.*

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726. Or see our entire inventory at www.jp-themint.com.

Business Is Good — Depends On Who You Ask Walkers, Buffaloes Race To The Top

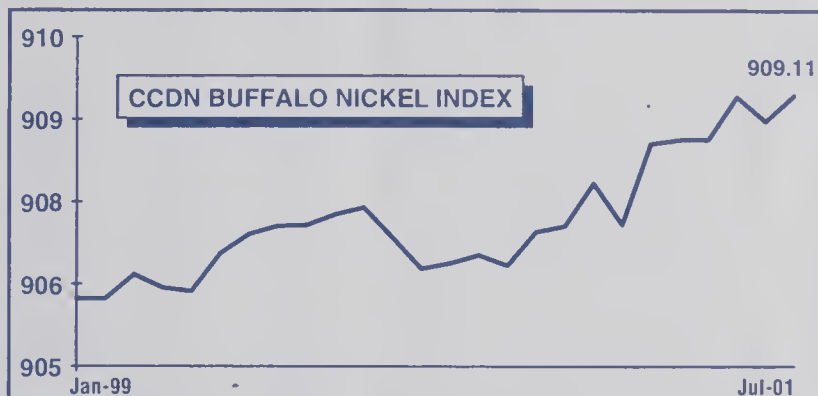

There was time not so long ago when the rare coin business moved along at a modest, easy pace. Dealers were able to conduct business without too many problems and provide their customers with the rare coins they wanted in a reasonable amount of time. Well, times have changed and the electronic age has electrified this market many times over. The cost of doing business has exploded, in part due to increases in air fare, hotel, show table and other expenses. Along with increased costs, it has become more difficult to spend the time and effort needed to view the thousands of available auction lots on a regular basis. Dealers are not able to relax as often as in the past and must stay on top of the market if they are to maximize their business profits and ultimately, their customer's needs. The more trading information that a dealer has access to and the more his or her business pays attention to that information the greater the benefit will be. Sometimes it is easier said than done, but potential profits are within reach of those diligent enough to grab them. Substantial sales and profits are being achieved by dealers who are willing to put in the hours that is necessary to achieve such results. Of course, that is what many dealers are doing right now in Rosemont, Illinois while you are reading this newsletter. The Mid-America Coin Expo, June 29-July 1, is in full swing with dealers buying and selling in hopes of ultimately having a successful and profitable show.

One thing is very sure, the market is not shy when it comes to the rare coins that are needed by dealers. Bids are quick to be posted and increases are the reality of supplies not able to keep pace with the demand. This week, the interest for specific groups is crystal clear and dealers are not shy when it comes to increasing their Bid. Late Date Walking Liberty Half Dollars is one

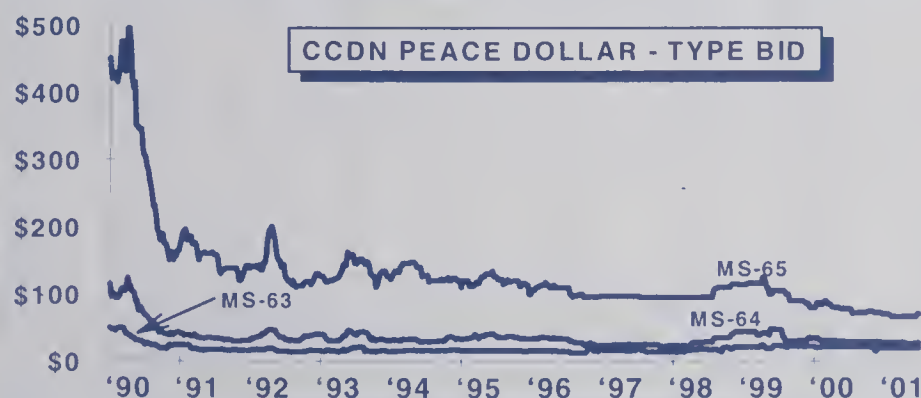

such segment of the market that remains powerful. Exceptional demand keeps forcing dealers to Bid higher. The object of those higher Bids is for coins of outstanding quality. Specifically, dealers are looking for gem specimens that grade MS65 thru MS67. We know that Walkers have been hot but that's not the whole story. What is news is that demand seems to be increasing by way of huge percentage jumps in sight-unseen Bids. Look at the more than 33 percent jump this week for 1944-D Walkers grading NGC MS67. Of course there are other examples, but the important thing to keep in mind is that volatility is the nature of this market. Price can jump quickly for the right coin when a buyer has been waiting a long time.

Buffalo Nickels are receiving strong Bids similar to the Walker market. However, as we have mentioned before, demand is targeting the difficult key and semi-key dates of the series. We see dealers forced to raise Bid hoping to unlock those few tough dates that probably reside on one of their customer's want list. The demand is looking for MS64 and better quality. For Buffalo Nickels, that means well struck coins with attractive Mint luster. Everyone knows how tough it is to find dates

such as 1913-S Type 2; 1914-S; 1917-D; 1917-S; 1919-S; and, 1924-D, just to name a few, in this condition. This series represents a significant challenge for even the most financially sound collector/investor.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Major Shows

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, one of the largest transactions in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

Sight-Unseen Market Completes Strong 1st Half San Francisco & Carson City Dollars Square Off

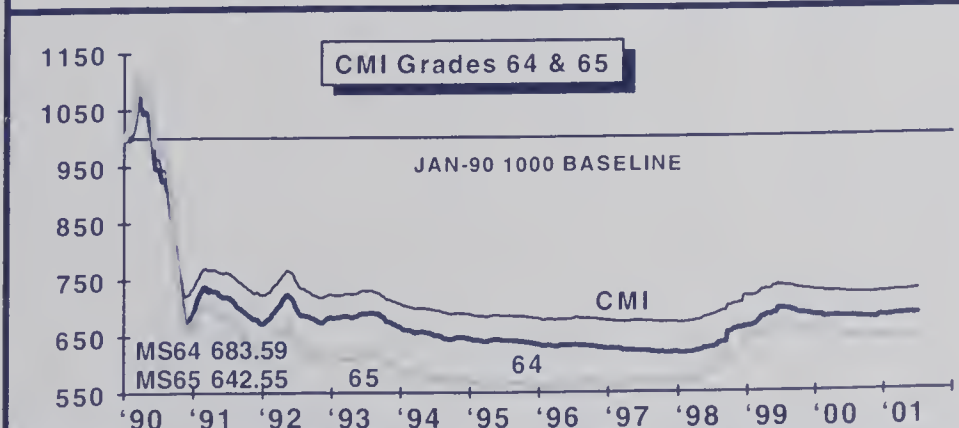

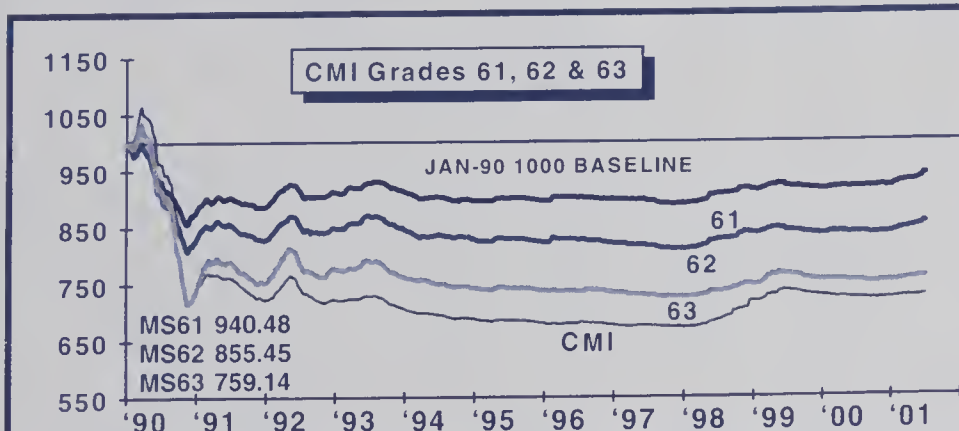

The first week of July was not as explosive as we have seen in previous weeks. Still, some of the fireworks enjoyed by dealers celebrating Independence Day was probably similar to how they feel about completing a successful first half of the year. Many dealers continue to have a reason to be upbeat about the current **sight-unseen** market. They know that interest for coins is running very strong and they need to be ready to provide their customers with material. Of course, the difficult part of the equation is finding available material that their customers are ready to buy today. The second half of the year begins where the first half left off, with solid demand for select rare coins.

Silver Commemoratives continue to maintain a steady pace with buyers carefully increasing Bid for select issues. We all know that the Silver Commem series is very long and represents a serious challenge to those attempting to complete the 50-piece or 144-piece set. However, for just under \$9,000, one can successfully put together an Uncirculated 144-piece set. The more ambitious and financially strong collector/investors can attempt one in MS65 condition for over \$40,000. This week, several plus signs are found scattered on our chart indicating selective demand. Many collector/investors are working on complete Silver Commem sets and besides the examples that they are missing, they like to upgrade. We see that Bid has increased for the 1936 Robinson - Arkansas Centennial Half Dollar in Gem, MS65. At \$160 this coin is affordable for many looking to buy a Gem quality Silver Commem. Additional issues increasing this week include the 1937 Roanoke Island, N.C. Half Dollar in MS67 and the 1934 Maryland Tercentenary in MS66. A couple Silver Commems were also discounted, with the 1893 Columbian Exposition in MS65 being the least serious. Gold Commemoratives appear quiet this week because of no increases or decreases in Bid to report. However, dealers remain very interested in buying Gold Commems. There is a lot of supporting Bids with several dealers battling for the top Bid position. Strong demand for Gold

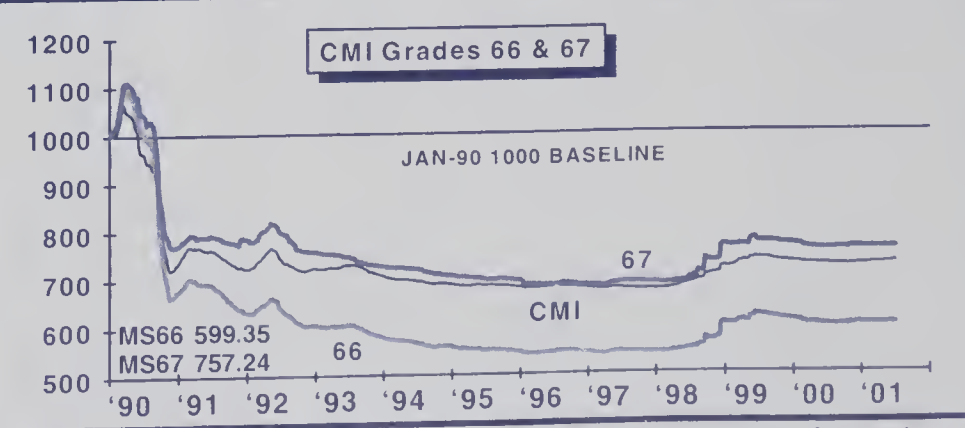

Commems is evident from the MS64 and higher grade level. Dealers have buyers available and are just anxiously waiting to buy virtually any example from this short series. Recent auction prices realized give further evidence as to the powerful demand that we have seen within this segment. Also, we have not witnessed much in the way of discounting within the Gold Commem area as we have seen in other segments of the market. Supplies are limited and dealers are forced to increase Bid if they hope to be successful in their quest for quality Gold Commems.

The Morgan Dollar series continues to be among the most solid areas of the sight-unseen market. Buyers are continually willing to increase Bid because they know that this series is supported by a very strong collector base. Many weeks have gone by with plus signs appearing for the favorite Carson City issues each and every week. However, take notice, in that select scarce date San Francisco Mint Morgans have quietly been gaining the favor of Bidders. This week, semi-key dates 1888-S; 1889-S; 1894-S; and, 1895-S have been the target of strong Bids. Carson City issues also advancing include both 1879-CC issues and 1890-CC thru 1893-CC. For these semi-keys, MS63 seems to be the grade of choice although some dates are needed in lower Mint State grades as well.

Mint State and Proof Type are quiet this week. Still, we know that many dealers are willing to pay strong money for Type coins that they need for their customers. Type has become an attractive way to collect for those that like variety but want to keep down their costs. Gold Type is another one of those solid areas of the market. However, after a rather explosive first half of the year, we do see some signs of stabilization occurring. Still, demand for select Gold Type is evident every week. Proof Gold is mostly quiet except for \$4 Flowing Hair Stellas in PR63 and PR64. These favorites, technically patterns maintain a solid demand similar to High Reliefs.

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you. Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

The more you value your collection, the more you need Intercept Shield to protect your investment.

Business Strike, Matte Proof Buffaloes Strong 20th Century Coins Make A Statement

What better way is there to take the pulse of the rare coin market than by checking **sight-unseen** dealer Bids? Today's vibrant market continues to be characterized by activity and demand, with interest in select rare coins running strong and an ever increasing collector base driving Bids higher. Dealers know that it is important to maintain an inventory of rare coins in strong demand. If you do not, opportunities may pass you by while others benefit. In any event, this sight-unseen market has its strengths and weaknesses, but overall it is doing just fine.

Take one look at the increasing Bids this week and it is easy to see which area is dominating dealer interest: business strike and Matte Proof Buffalo Nickels. This will probably come as no surprise to those astute dealers involved in the day-to-day activities of running a coin business. The demand for Buffalo type coins was recently underscored when the entire Mintage of the new 2001 Buffalo \$1 Commemorative Coin sold out in a record four days. Buffalo Nickels are favorites of many a collector who identify with the carefree collecting days of their youth. Most collectors remember filling their blue folders with Buffalo Nickels taken from circulation. Today, many of those early collectors are financially able to complete their sets with examples from much higher grades. Dealers help meet their needs by answering questions and finding the tough dates. The concentration of plus signs found in MS64 through MS66 on our chart points to demand for high quality. It also shows that the need remains strong for early semi-key and key dates at the \$1,000 and higher level.

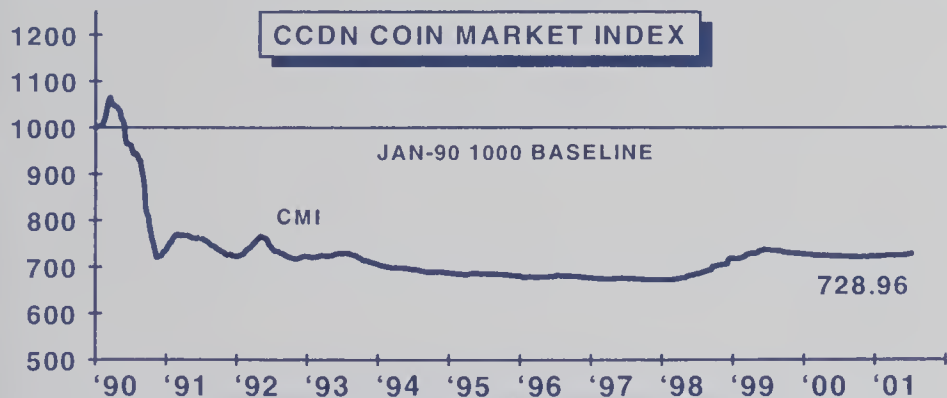

Early Matte Proof Nickels are among the most beautiful of all the 20th century coins, and many collector/investors enjoy buying these beauties for their design and rarity. In particular, Matte Proof Buffalo Nickels continue to be the object of very strong dealer demand. Dealers are mostly looking for those 1913-16 examples grading PR64 and better, and increases are occurring for both NGC and PCGS coins. At around \$1,000 in Gem Proof, these

coins have become an attractive target of many collector/investors. We see increasing Bids virtually across-the-board for this short date run of Philadelphia Proofs. Some coins are realizing rather hefty percentage gains, such as the 1913 variety 2 NGC PR65, which moved from \$1,050 to \$1,200; an increase of more than 14 percent.

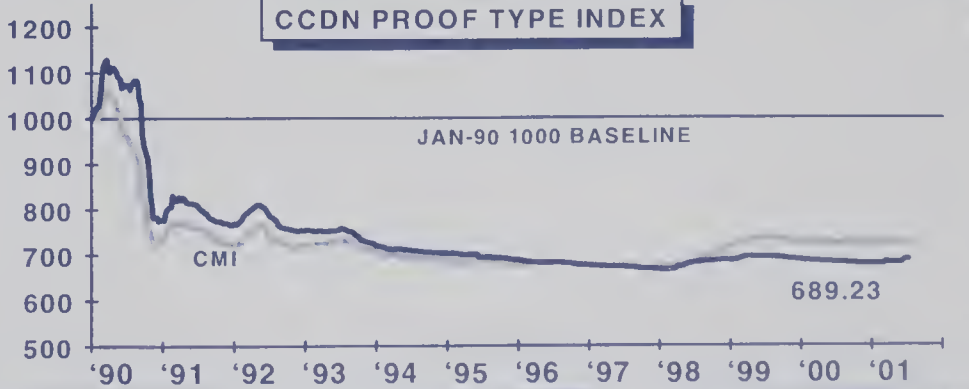

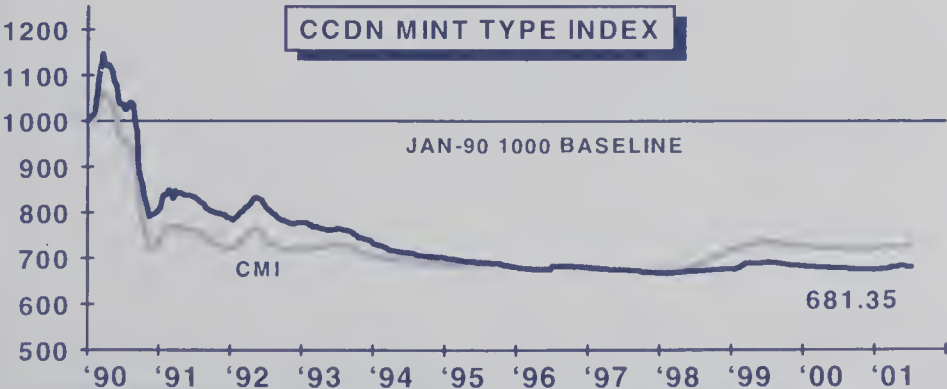

Matte Proof Lincoln Cents are another group of **red-hot** 20th century coins gaining the favor of several dealers' Bids. Struck during a similar time period as the Buffalo Nickels, these Cents are sought-after in all Proof grades from PR61 through PR67. Naturally, the full Red examples are the most desired, but we know that attractive Red & Brown and pleasing Brown examples can fetch a premium Bid from dealers.

Other strengths found in today's **sight-unseen** market come from the high number of supporting Bids at current levels. This is evident in Silver and Gold Commemoratives, Morgan Dollars, semi-key and key date Mercury Dimes, Gold Type, Mint State Type, Proof Type and Prooflike Morgans. Gold Commems continue to shine brightly because demand has not yet been satisfied, evinced by the number of multiple high Bids battling for available specimens. However the real story is the general weakness of common date Morgans relative to the tough, scarcer dates. Witness, for example, the \$1 decrease sustained by common date MS63 Morgans. That is because large numbers of these common dates have survived in high quality, easily satisfying current demand. Still, some may look at this situation as an opportunity.

Several increasing Bids are also evident this week in Washington Quarters, Proof Singles and Walking Liberty Half Dollars. In the case of Proof Singles, demand continues to overpower the limited supply. Again, select 20th century coins are popular with today's financially strong buyers. Perhaps future market demand will shift to earlier, more challenging issues. Time will tell.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the deep-mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2ND EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."
— Hank Gilman, Business Editor, **NEWSWEEK**

"If making money by buying and selling coins is your game, Scott Travers' **How to Make Money in Coins Right Now** is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."
— Beth Deisher, Editor, **Coin World**

"The most valuable book ever written on how to profit from coins."
— Ed Reiter, Senior Editor, **COINage** magazine

"A revolutionary book."
— Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."

— Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of five award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. His widely distributed Random House price guide, *The Insider's Guide to U.S. Coin Values*, is updated annually. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Sight-Unseen Market Weathers Summer Slowdown

Bid Jumps Among Gold Type

Summertime blues and bullion woes haven't put a halt to increasing Bids in the **sight-unseen** market. Although there isn't an unusually large number of increased Bids this week, there is a definite dealer need that continues to go unfulfilled. Wherever possible, dealers are turning to the **sight-unseen** market to meet their demand.

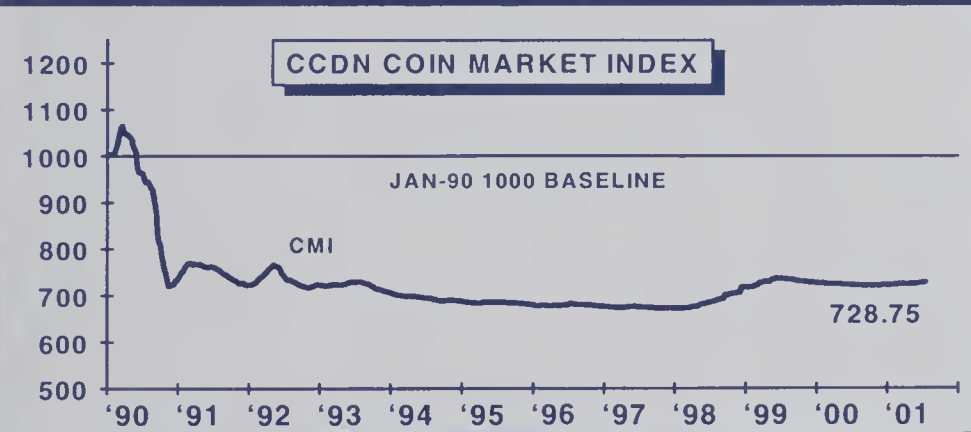

A few dealers have told us that the market is in the midst of a slowdown period. If so, it's right on schedule. The market typically experiences a slowdown during the summer, when many dealers and collector/investors take vacations, the August American Numismatic Association's annual convention and public auctions that are just around the corner. Also, the precious metals market continues to display signs of weakness, despite analysts' predictions to the contrary. As of this writing, Gold is trading below \$270 per ounce, while Silver is even softer at \$4.20 per ounce.

Often, weak bullion markets have a way of dampening upward movements in generic numismatic Gold, and we do see continued weakness within the \$20 Liberty and Saint-Gaudens series. But the decreases have been slight, small percentage losses, and mainly among the most common dates. What is surprising is that there is continued interest in other Gold and Silver series. Select issues of Mint State Gold have found Bidders willing to up the ante on sight-unseen Bids, and up it with a vengeance. We've seen several double digit increases this week alone, with the rise on NGC MS65 \$2.50 Indians approaching 20 percent. According to some dealers, Silver Commemoratives are gaining the favor of collector/investors. The historical significance of these Quarters, Half Dollars and Dollars makes them attractive, as does the different designs among the many issues within the long series. This week, interest is evident in several Silver Commem issues, with all Mint State Grades targeted. The series is sporting plus signs scattered about, with a few minuses thrown in. In contrast, Gold Commems are quiet, although Bids are in place supporting the current levels as dealers seek coins to fill orders.

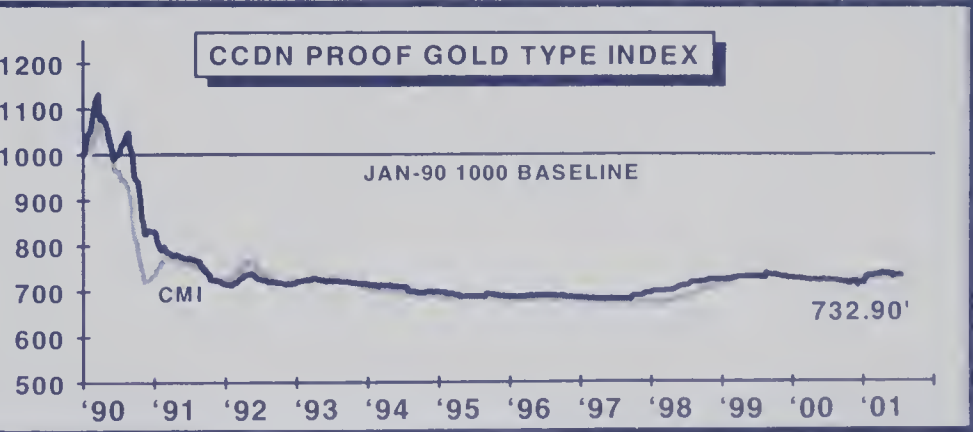

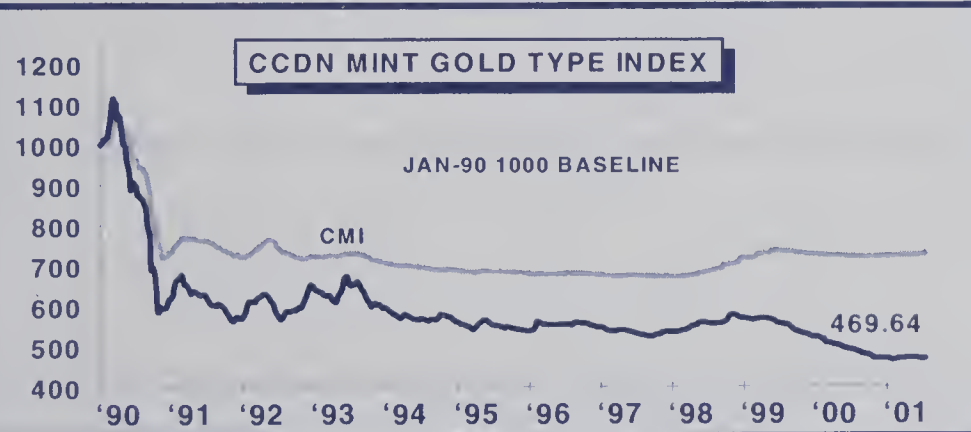

Dollars are strong in the **sight-unseen** market. Many dealers have continued to increase their Bids for select Morgan Dollars. In particular, a lot of Bidding activity is taking place within the MS64 and MS65 grades; the number of collector/investors working on near-Gem to Gem sets may account for this. However, we are also seeing strong Bidding within the MS61 through MS63 grades. These Bids are for coins that are better than common, and it suggests that new collectors are entering the Morgan Dollar series. The 1881-S, along with a few other San Francisco Mint Dollars of the same period, are among the most common dates in the series. However, select coins bearing San Francisco Mintmarks are among the most sought-after Dollars this week. Some of these dates displaying increases are the 1887-S, 1888-S, 1889-S, 1894-S, 1895-S, 1898-S, 1899-S, 1900-S, 1901-S, 1902-S and 1904-S. These coins are desirable even in MS61 through MS63 grades. The scarce 1879-CC, 1894, 1897-O and 1899 issues are also entertaining higher Bids in similar grades.

Not all Dollars are advancing in Bid, however. The short Peace Dollar series is displaying weakness, with several minus signs appearing in the MS64 grade. There are a few plus signs to report, but, in general, the series is holding steady at current levels.

Proof Type is displaying several plus signs this week, with the bulk of the Bidding occurring within the smaller denominations. This may be a sign that new collectors are entering the series, just as the number of increasing Bids on common date Morgans may be indicative of interest from new collectors: many new collectors starting a Proof Type or Mint State Type collection begin with the smaller denominations first. Proof Indian Head Cents and Shield Nickels are gaining ground in grades PR65 and better. This week Brown is the color of choice for dealers buying the Indian Cents, along with the Red and Brown issues. Buffalo Nickels and Proof Singles have also been doing very well this year, and this week is a continuation of the strong demand that has been evident in these popular areas for some time.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Beneath the claims and the special offers, a grading service has to perform day in and day out with a level of expertise that few possess, in order to truly deserve your business.

Expertise is essential.

A grade you can trust comes from years of proven accuracy and consistency. This is achieved only by employing the right people. We believe that the finest graders in the coin industry are presently working for NGC.

Expertise establishes trust.

Another trait of a top grading service is the expertise to recognize and reject “No Grade” coins. Our diligence in this area is unsurpassed, thanks to the millions of coins we’ve seen over the years.

Expertise is proven through CrossOvers.

With the exception of one service (with whom we share a roughly equivalent CrossOver rate), other services fall short of the NGC standard 90% of the time.

Trust in the Official Grading Service of the ANA.

Only one grading company is the Official Grading Service of the American Numismatic Association, and that’s NGC. Look at NGC’s long association with the ANA and you’ll see a track record of successful cooperation to build the strength of the hobby.

Expertise is proven in Error coins and Varieties.

Coins sent to NGC for error and variety attribution are attributed, graded, encapsulated and quality control checked quickly and expertly all within our high-security facility. It’s why we grade more errors and varieties than anyone else.

Expertise is proven in results.

NGC is proud of its quarterly U.S. and twice-yearly World Census Report. They’re not only a valuable reference for the coin hobby, but serve as a record of our achievement in grading over 5 million coins.

Trust in a proven guarantee of grade.

At NGC, our guarantee is real. And, it’s used. Now while you may be surprised to hear us say so, we’re proud to acknowledge that grading is an art, not a science. Ask around to see if other services honor and abide by their published guarantees, or for that matter, if they even have one.

Careful screening of member dealers is important.

We insist our member dealers be known for integrity, years of experience, sound business practices, and have reliable references. Unfortunately, padding these numbers has become fashionable. But member dealers admitted with no standards are about as good as no member dealers at all.

Expertise & consistency drive numbers.

At NGC, when we say that we graded 45,000 coins in a month, that includes only those coins that were actually encapsulated. We do not “pad” our numbers by including the 20,000+ pre-screened coins we reviewed that were never actually holdered.

Even if you only get coins certified occasionally, it is imperative you can trust the service doing the grading. The grade on the holder does not stand alone. It must match the grade of the coin in the holder.

Your expectations should be high. At NGC we welcome you to take a close look at the commitment we have to serving the hobby, and you, as a top grading service.

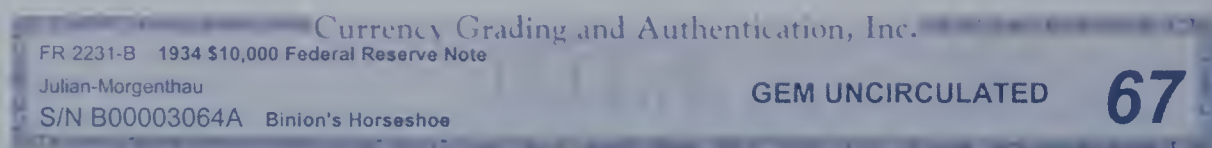

"Buy. Sell. Trade. Consign. We've Got Your Number."

*Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.*

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726. Or see our entire inventory at www.jp-themint.com.

SHE WAS ONCE A BEAUTIFUL PRINCESS.

NOW LOOK AT HER.

True story. The proud owner of this collectible coin paid \$1650 for it in 1993. Today it is worth a mere \$120, due to corrosion. Where was Intercept Shield? Not yet invented. If it had been, the original purchase condition of the coin could have been fully protected and preserved—and the current market value would be about \$2000.

Fortunately, loss like that needn't happen to you. Corrosion Intercept* Technology provides state-of-the-art protection unlike anything ever offered before. The proof is on our Web site: indisputable results of comparison tests.

The proof is also in the pristine condition of countless coins protected by Intercept Shield products today.

Ask your local dealer for museum quality albums, 2"x2" holders and the double protection box system like the one shown here.

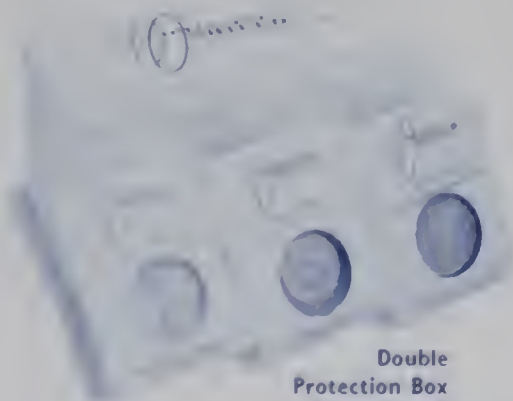

The more you value your collection, the more you need Intercept Shield to protect your investment.

Atlanta ANA Approaching Bargain Hunting In A Mixed Market

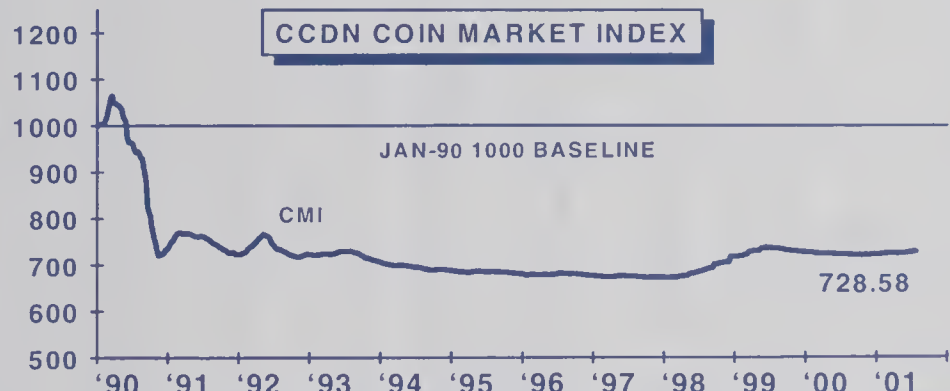

The sight-unseen market has been holding up rather well throughout the usual summer doldrums' period. We continue to be impressed with the willingness of dealers to post strong supporting and increasing **sight-unseen** Bids. The realization that this market has expanded in recent years to include a whole new crowd of collectors via the 50-State Quarter program has given new life and vigor to a market that was badly needing a jump start. This doesn't mean that everything is rosy or that plus signs are the only thing you will see on the charts because there continues to be some discounting taking place. These sales of select coins may be a result of dealers who desperately need to raise funds for additional opportunities that may come along. Some of the years biggest opportunities are nearly upon us with the American Numismatic Association's Annual Convention and auctions on deck. This year, Atlanta will be the host city for the August 8-10 show. As usual, auctions will be very much a part of the activities and festivities. Dealers look forward to these auctions as they usually can provide them with the individual rarities that they are trying to fill from their customer's want lists. Also, dealers tend to bring more spectacular coins from their inventories to the ANA for either display or direct sale. Preparation for the big show also means freeing up a sufficient amount of funds necessary to feel comfortable in buying at the ANA.

Along with the many plus signs on our sheet we are also seeing a fair number of minus signs in this mixed market. Dealers are quicker to discount some higher quality coins because those are the coins that can provide them with a sizable amount of cash right away. However, there is another factor that should be considered. Dealers are more willing to support rare coins, sight-unseen at the lower end of the Mint State grading category rather than at the higher range. Prices seem to take a

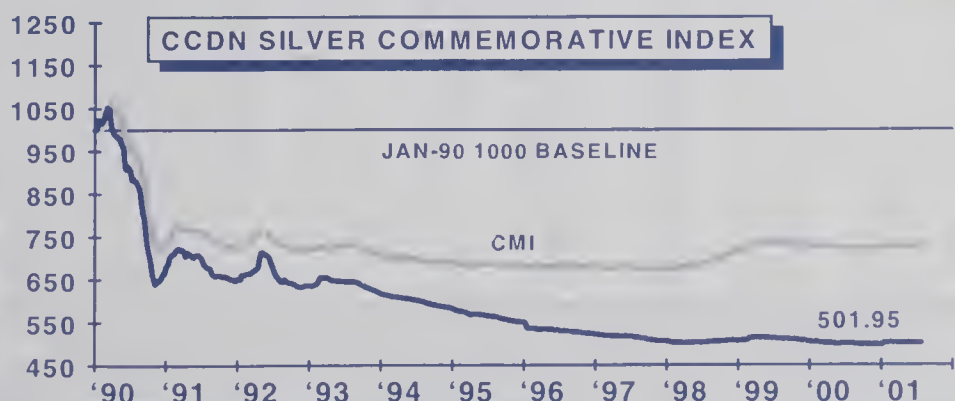

significant jump for many of those coins that are MS65 or PR65 and higher in grade. Dealers are well aware that at these grade levels any mistake can prove rather costly, especially when buying or selling sight-unseen. So, it is not unusual for us to witness some minus signs occurring in these grades at the present time. That doesn't mean that the top-end of the market is collapsing nor does it mean that dealers are reluctant to Bid for high quality, sight-unseen examples. It just means that dealers need to be very prudent with their transactions if they are to be successful.

The activity within the Silver Commemorative series seems to be a perfect example of today's sight-unseen market. We see many plus signs scattered about reflecting the demand for various Silver Commems. The heaviest concentration of plus signs appear to be chasing Mint State grades up to MS64. Some discounting is also taking place in grades MS65 and higher. However, there are some exceptions where demand has forced a few plus signs for coins at these same higher grade levels. Many collector/investors are actively working on high-grade sets of Commems and dealers must continue to be ready to fulfill their orders as quickly as they can. Although the Gold Commem chart appears to be inactive, the limited supply and strong demand seem to tell quite a different story.

Additionally, several other series and areas of the market are experiencing discounting coupled with select demand translating into some increased Bids. As you look over this week's *Bluesheet* you will see this type of activity also taking place among the Morgan and Peace Dollars in addition to Proof and Mint State Type. However, it is this weakness at the upper grade levels which can spell opportunity to astute dealers willing to take a risk. Bargain hunting in the rare coin market is one of the many pleasurable activities and it makes for excellent stories during nostalgia time at ANA parties.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing *last month*; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Your coins will realize the top market prices with our unique advantages.

Your coins can realize maximum value in the market, now that Superior Gallery is part of the Tangible Asset Galleries Family.

1. Largest combined mailing list of buyers in the rare coin market with over 100,000 names combined from our list, our parent and all of our affiliates.
2. Largest list of on-line buyers with over 50,000 email addresses.
3. The only auction selling team with experience and top quality customers resulting from national and local television advertising on CNBC, CNN, History Channel, A&E and other channels.
4. A joint venture partner with eBay and their 22 million buyers, and our parent and affiliates are top sellers on eBay as PowerSellers and Premier Sellers.
5. A joint venture partner with iCollector and their 7 million Internet buyers.
6. Our parent was the first recommended seller on Yahoo! and now one of only a few Premium Sellers.
7. Added security of selling through a part of a publicly traded company that requires extremely accurate and timely reporting to the Securities and Exchange Commission, a higher standard than even audited financial statements. (Our parent is required to submit our audited statements to the SEC.)
8. Live, interactive bidding on the Internet in real time in competition with floor bidders, maximizing bid prices from all over the world, all with tested and verified high technology.
9. Over \$13 million in total assets, one the largest combined companies in the rare coin markets.
10. Our parent has been either the number 1, 2 or 3 volume buyer at public auctions, buying 5% to 20% of the entire sale (and selling these items to their top customers, the same customers as you will access), including these top sales: Buddy Ebsen, Auction '89, Auction '90, Norweb, Eliasberg, Pittman and many others.
11. Highest possible auction advances, with no limit in value.
12. Lowest possible consignment rates beyond comparison to others.
13. The only auction company with a photographer that is award winning and published in national photography journals.
14. The only auction company to provide Superior Portfolios™, a complete analysis, historic and photographic review of your key and special items available both on the Internet and in CD format.
15. The most significant concentration of wealth in and near our offices of any seller, with affiliates on the East Coast near New York City and Philadelphia and on the West Coast our office in Beverly Hills and our parent location in Newport Beach in Orange County.
16. Our mailing list already contains the most elite client list in the country with names like Kareem Abdul-Jabbar, Michael Jackson, Jerry Buss, Buddy Ebsen and many other entertainment and sports stars.
17. A policy from Lloyds of London insuring all of your coins at market value.

Now you can realize the best prices at our Pre-Long Beach Convention Sale. Here's why.

When you sell your quality coins at a convention auction, you get more buying attention. And when you use our most experienced selling team, you'll get additional advantages like no other. Look at these benefits:

- ◆ FIRST OPPORTUNITY to sell to the millions of dollars at the Long Beach Show- Almost every dealer or collector attends the Long Beach Show to buy, but our Pre-Long Beach Sale reaches them BEFORE any of their money is spent, so your coins are first in line for the buying frenzy!
- ◆ Our track record of successful Pre-Long Beach Auctions- Your coins will have an even greater selling advantage since our buyers are tuned-in to our consistent success.
- ◆ Better and more generous credit terms to buyers- Your coins will benefit from that "one-more-bid" opportunity because we offer special credit terms to buyers including longer term payout plans.
- ◆ More cash in your pocket faster- You can have cash now with our generous cash advances and keep more for yourself with our unbeatable commission rates for sellers.

LAST CHANCE: Don't wait any longer as our deadline for this sale is August 10!

Take advantage of the most experienced selling team. To sell your quality coins take one of these next steps:

- ◆ *Call us toll free at 800-421-0754 or one of our nearby affiliates TODAY*
- ◆ *Send your collection TODAY via Federal Express at our expense and covered by our insurance. Please send your collection only after you call for instructions.*

Strong Bids Target Dollars, Commems & Proof Singles Intercept Shield Products Debut At ANA

This year's Summer American Numismatic Association's Annual Convention held Aug 8-12 in Atlanta will be even more exciting because of the availability of a revolutionary new product. The ANA will provide the venue for the national unveiling of the Intercept Shield product line of coin protection holders. This invention, using corrosion intercept technology developed by Lucent Technologies Bell Lab Innovations provides owners of coins a way to further protect their investment and/or collections. At the ANA, visitors and dealers will be able to see this revolutionary product that neutralizes contaminants before they harm your coin. This is arguably the first new product to hit the coin industry since the sonically sealed slab itself. In addition to the many Intercept Shield products available to protect raw coins, two products are specifically designed to protect certified coins from most grading services. Currently the Independent Coin Grading Co., ICG, is the only grading service to offer this technology within the slab itself through the use of an Intercept Shield gasket. This service is available for an additional \$3 per coin.

History has taught us that in the week before and during the ANA and other major shows, dealers will usually curtail a majority of their Bids. However, someone forgot to tell the sight-unseen market about it because dealers are not only placing Bids, but they are even increasing Bids for select coins. Still, we really shouldn't be too surprised because this market has been performing rather amazingly all year. Areas of strength continue to be those that have strong collector and investor interest.

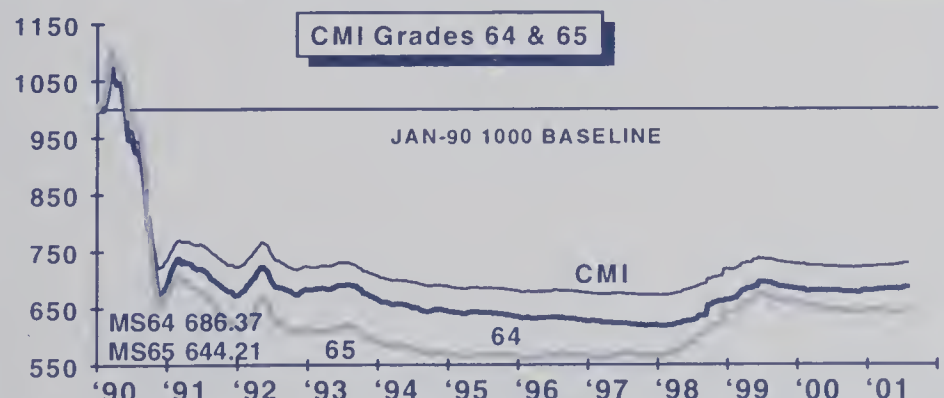

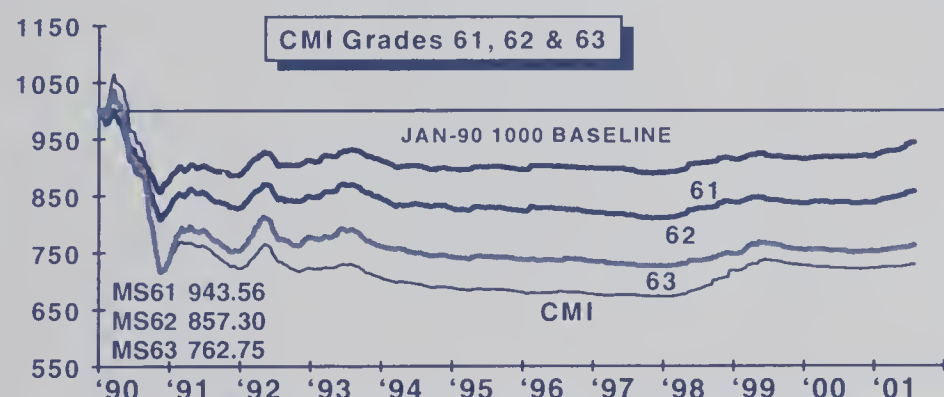

This week, the **sight-unseen** market is displaying plus signs among Silver Commemoratives, Morgan Dollars, Peace Dollars and Proof Singles. Morgan Dollars may have to share some of the headlines with Peace Dollars which have posted a number of gains within the last month. Still, Morgans are leading in collector demand. The San Francisco Mint is on fire. Now we don't actually mean the Mint building, we mean "S" Mint Morgan Dollars. Interest has

definitely been on an upswing for this Mint and this week dealers are at it again, raising their sight-unseen Bids. What is even more surprising is the fact that this is occurring the week before the famed ANA. This was supposed to be a light week on the electronic dealer networks, with many dealers already heading for or are already in Atlanta for the huge show. However, several dealers continued to Bid aggressively for select "S" Mint Dollars before they left. Demand isn't interested that much in pushing the common and very rare "S" Mints higher, just the in between moderately scarce to rare issues. For example, 1883-S, 1885-S, 1888-S, 1900-S, 1901-S and 1904-S are some of the issues moving higher.

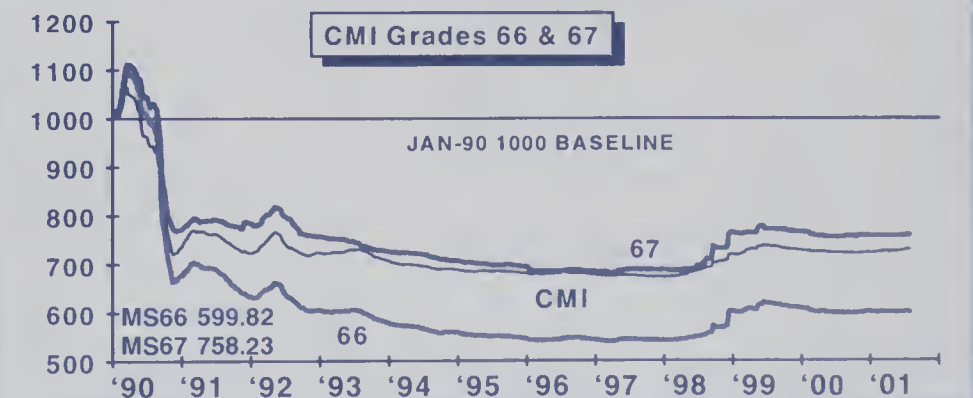

Peace Dollars are advancing, but the gains are not as healthy as we see in the Morgan chart. Still, the trend is beginning to establish itself and it's hard to deny the plus signs even if the gains are slight. Dealers are seen targeting the MS63 and MS64 grades of the series. We also see that some slightly better than common dates are in demand as well some of the rarer dates.

Silver Commemoratives are also in the spotlight with many plus signs scattered about on our chart. The increases in Commems give evidence that the collector base is expanding. New collectors enjoy adding some of the many different designs available in this series. Also, the MS63, MS64 and even some MS65 grades are a great, affordable way to start a collection of Silver Commems in very nice condition.

Proof Singles are sporting a number of plus signs this week. Dimes and Half Dollars grading PR65 and above are receiving the majority of the action. Singles dated from 1936-1942 are in serious need at the present. The need for these relatively modern Proof coins are due to the strong, continued demand for modern issues. Many new collectors have been looking to complete date and Type sets. Demand is for quality, and the gem and better level is what is being requested most often.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

3 MORE REASONS WHY NGC IS THE UNDISPUTED LEADER IN THE COIN GRADING INDUSTRY

The Certified Coin Registry

The Registry offers a dynamic system for collectors to enjoy friendly competition while assembling remarkable collections. The Registry's fair, expert and numismatically accurate ranking system is truly unique. It accounts for several important factors including grade, rarity, population and the NGC "star" designation for exceptional eye appeal. Accepting coins from the two relevant grading services NGC and PCGS, the Certified Coin Registry is the most inclusive program of its kind. Visit Collectors-Society.com for more information.

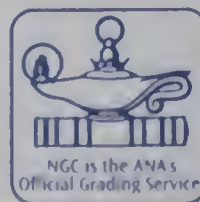

NGC's New Website

Visit NGCcoin.com to experience the most comprehensive numismatic website available. You will find the industry's only **free** access to Census information, spectacular images of coins graded by NGC and all the latest news. The new and improved NGC website is an invaluable tool for dealers and collectors alike.

The Industry's Best Holder Gets Even Better!

From NGC you've come to expect the most consistent grading the industry has to offer. Now we would like to introduce to you the perfect complement, **NGC's next generation holder**. Over two years of thorough research and development has resulted in the ultimate holder for certified coin. The highest quality, hermetically sealed materials create a solid barrier between your coins and the elements that can harm them. Now even more reason to make the #1 grading service your first choice. For more information call NGC Customer Service 1(800)NGC-COIN.

An Upbeat Market At Atlanta ANA

Key-Date Washingtons Surge

Why is it that the sight-unseen market refuses to act as everyone expects it to act? Doesn't it know that this is ANA week and it's supposed to be on summer vacation from the normal Bidding activity? In any event, the sight-unseen market continues to prosper with dealers actively pursuing coins for their customers and their inventories. It certainly is a testament to the strength and vitality of the rare coin market. Several dealers who are at the ANA have left instructions with their staff back home to keep aggressively Bidding for select coins that they need. Consequently, the sight-unseen market is active despite the already in progress ANA. It is also flourishing despite those that say it is long overdue for some corrections to those areas that have realized impressive gains this year.

The Rarities Sale has claimed just over \$2 million in Atlanta. The August 6 auction by Bowers and Merena Galleries was held just prior to the start of the American Numismatic Association's Annual Convention. We have listed a few of the many certified highlights from that sale.

BOWERS AND MERENA GALLERIES

Peace Dollars are still grabbing the attention of a few Bidders. While the Bid increases haven't been earth shattering, they are a continuation of the interest and increases that we began noticing the last several weeks. The bulk of the interest appears to be targeting the MS63 and MS64 grades. Specifically, dealers are looking to buy some of the tougher dates including 1925-S, 1927-D, 1927-S and 1928-S. Silver Commems continue to catch the attention of Bidders. Grades of MS64 and higher are what is needed. The demand is targeting quality Commems. Morgan Dollars continue their impressive activity with plus signs present again this week. Buffalo Nickels are once again in short supply. Naturally Bids have increased trying to force some examples on the market. Also, be sure not to miss the big jumps in Bid for several key date

Washington Quarters. Demand is really chasing the key 1932-D and 1932-S issues. On the weak side, Early Gold Type and prooflike Morgans have been hit with a round of discounting. This drop has been the result of some weakness at several recent auctions.

Take a look at the Type chart below comparing Bids from August 1989 to today. You may draw a couple of conclusions on your own that account for the huge losses. One point that is often overlooked is that certified coins were still a fairly new idea. Nobody was really sure how many MS65 Morgan Dollars or PR67 Franklin Half Dollars were out there. This same scenario may be occurring right now with modern coinage receiving ultimate grades of MS69 and PR70. In 1989 Wall Street money was poring into numismatics, and in a big way. Slabbed coins were being bought up as quickly they were made, driving Bids higher and higher. Keep in mind this was near the absolute top of the market with the collapse occurring over the next several months. Can the State Quarter program, Sacagawea Dollar, and Modern Mint Errors generate enough new collectors to ever return to those 1989 levels? Obviously there appears to be plenty of room for improvement. Those would be buyers who thought that they missed their buying opportunity may realize that it might not be too late.

Still as the saying goes, "Rome wasn't built in a day" and the comeback trail may be plagued with pitfalls.

If history is to repeat itself there must be more end users on the collector side. These individuals look to buy the coins for enjoyment and satisfaction first and profit is only secondary. Looking back at past collectors and collections, it has been those individuals and their heirs that used this recipe who were able to also profit the most.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

"Buy. Sell. Trade. Consign. We've Got Your Number."

-Jay Parrino

*Choose Jay Parrino's The Mint for the best of reasons:
We make the numbers work for you.*

Jay Parrino's The Mint is the world market leader in fine collectibles. We handle only the rarest and most desirable coins, currency and comics. And our success is based on a simple, sensible formula: when the numbers work for you, they work for us.

When you buy, nobody else offers you anything like our multi-million dollar inventory. We welcome full or partial trades. We offer interest-free in-house financing. Our exclusive 90% repurchase program ensures the value of your acquisitions.

When you sell, we pay top dollar for top quality. In fact, no one pays more. If you want to consign, our commissions are as low as 5%. And we'll give your materials exposure that drives high prices, featuring them in our ads and on our website.

Whether you're buying, selling, trading or consigning, we've got your number. And we'll make the numbers work for you. Call Jay Parrino's The Mint at 800-280-4726. Or see our entire inventory at www.jp-themint.com.

Market Soft For Saints But Hot For Buffaloes Sight-Unseen Quality Has Improved

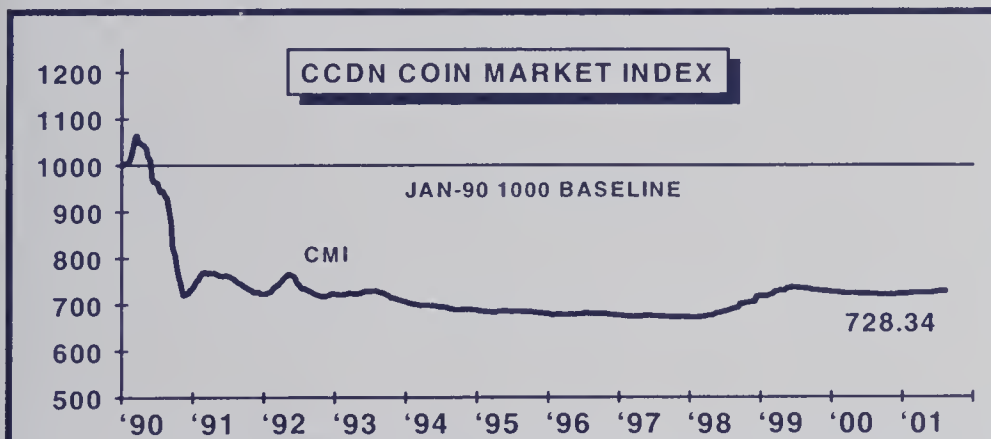

Most dealers are returning home from a successful and enjoyable American Numismatic Association's Annual Convention in Atlanta. They are trying to catch-up with the immediate business that took place in Atlanta. Coins bought at the ANA from current want lists need to be mailed to their customers. At the same time dealers will begin to pay attention to their daily routine and work from their offices and store fronts. This includes regular Bidding and trading activity on the electronic dealer networks. The sight-unseen market should also experience a boost as the normal number of regular Bidders restore their Bids that were suspended before going to the ANA. Dealers continue to be encouraged by the results of their Bidding. One east-coast dealer said buying material in the sight-unseen market is a nice way to buy rare coins inexpensively. Most of the time, buyers are happy with the sight-unseen coins that they receive. Usually the coins are average in quality although sometimes a real ugly one is received. That has become the exception rather than the rule. The number of "bad" slabs on the market has definitely dwindled. The major grading services have done a pretty good job of correcting their mistakes from the early days and have removed several of these coins from the market. In all, dealers have been more pleased with their sight-unseen purchases day in and day out.

Morgan and Peace Dollars, Silver Commemoratives, Walking Liberty Half Dollars and Type play a big part of the sight-unseen market. These are the bread-and-butter coins that dealers buy and sell on a regular basis. Dealers are continuing to see an increase in the number of mail order and internet customers. These new collectors are generally interested in buying Morgan Dollars and Commemoratives. The demand for these coins is increasing and can be confirmed by the regular increasing number of plus signs seen on our charts.

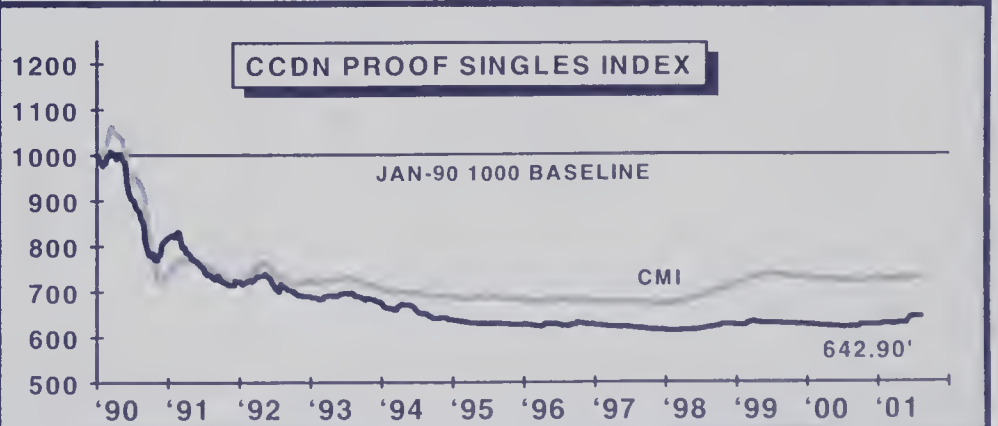

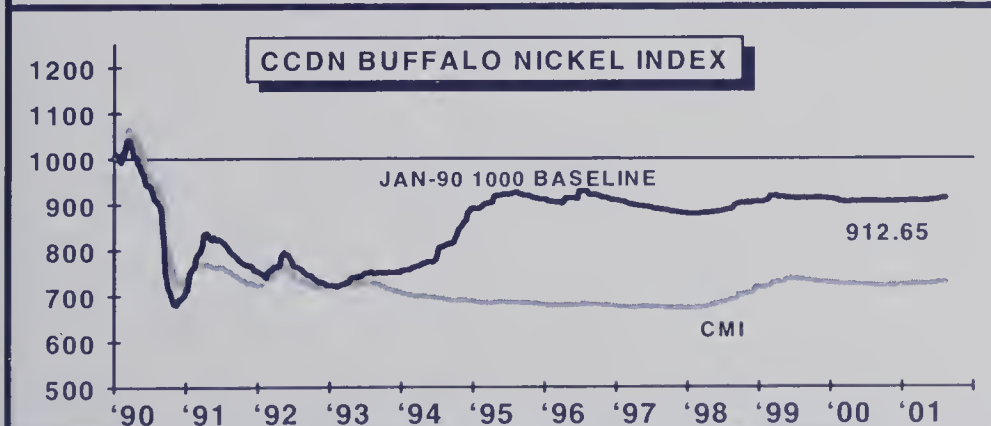

This week, minus signs are plentiful throughout the Mint State Gold Type and Saint-Gaudens charts. The spot price of Gold continues to play a

role in this weakness for low grade generic Gold coins. However, the declines are still rather slight with the MS61 thru MS65 grades suffering the most. Weakness is also appearing for the most common dates of the \$20 Liberty series as well as quite a few better dates. Since each \$20 Saint and Liberty contains nearly one full ounce of Gold (0.96749 ounce), it is easy to see why the most common dates of these series are very price sensitive. Yet, on the other hand, MS66 common dates Saints were in strong demand at the ANA with dealers trying to buy them in quantity. Within any areas of weakness there are opportunities for those willing to go against the majority. Even when coins are being heavily discounted and the price continues to drop, someone is buying. Some discounting from recent auction results is also a contributing factor to the declines. Notice the drop in Bid for the MS67 High Reliefs.

Many areas of this market remain strong, even though some series are not displaying plus signs, they are the beneficiary of solid supporting Bids at current levels. Dealers continue to face strong demand for coins and need to constantly restock their inventories. Unfortunately, the ANA did not meet their expectation in this department. The lack of fresh material is a concern of dealers who need to fill orders of their customers. One of the bright spots of this market is Buffalo Nickels. These popular coins have been quite strong throughout 2001 and continue to fetch strong collector/investor demand. The buyers are financially secure, willing to spend four-figures for a single date. The heaviest portion of the demand is targeting the key and semi-key dates grading MS65 or better. Mainly, it is the tough Denver and San Francisco Mint examples from 1913 thru 1928 that remain on want lists. Dealers have tried to find these dates anywhere they can, but that usually means battling it out with another dealer or collector at public auction. Auctions play an important role as dealers look towards them for fresh, rare material.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

Now you can learn a lesson about the new coin market. Without losing a mint.

NEW *The Coin Collector's Survival Manual – Fourth Edition* by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$18.95.

"This is the book about the coin business you can't afford to be without." - **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the fourth edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

- **How not to get ripped off if you buy coins through the mail or over the Internet**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and safe—as well as the right storage method
- A review of some Internet web sites, with a legal analysis
- Requirements of the FTC telemarketing act
- The real facts behind the toning corrosion controversy

NEW information in the fourth edition:

- **Courageous information about on-line auctions—no other numismatic author has ever been as bold in exposing Internet scams!**
- A comparison of PCGS versus NGC—which service does the market really favor?
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins and much, much more!**

Order your copy of *The Coin Collector's Survival Manual - Fourth Edition*. 284 pages, dozens of sharp illustrations. (black & white and full color). For the price of \$18.95, you can make a mint.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XVI No. 34

Select Coins, Cash In Short Supply Plus/Minus Count Negative For 2nd Consecutive Week

A lot of activity is taking place in the sight-unseen market this week as dealers look to raise some cash. Those dealers that have the kind of inventory that sells easily today can now reap the rewards. However, those that need to change or enhance their inventory to accommodate what the buyers are looking for are trying to as quick as they can. It is a rather strange market today. It seems that the strong increases that we have been used to seeing in the generic Gold Type market are now only a distant memory. Those dealers that were promoting this area and placing those Gold coins with customers have finished their promotions and have gone on to other areas. Consequently, the strong Bids that were responsible for the many plus signs have been removed and prices have settled down quite a bit. Still, dealers need to stay liquid and raise cash to be able to buy the coins that are currently in demand. So, there has been some discounting taking place in that regard. Discounting is evident in some Gold and Silver Commemorative issues; select Mint State Type; Proof Type; and Gold Type in both Proof and Uncirculated condition. These areas should provide dealers with a reasonable amount of funds on a per coin basis. These are some of the factors contributing to a **negative** Plus/Minus Sign count for the **second** consecutive week.

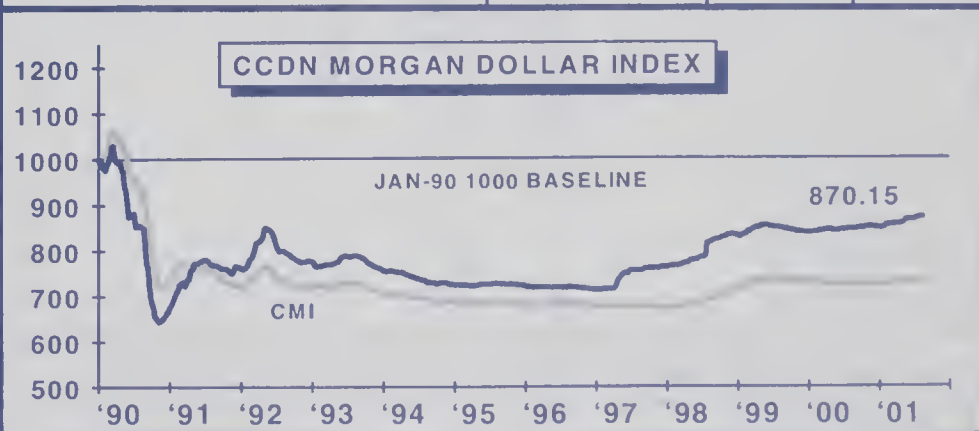

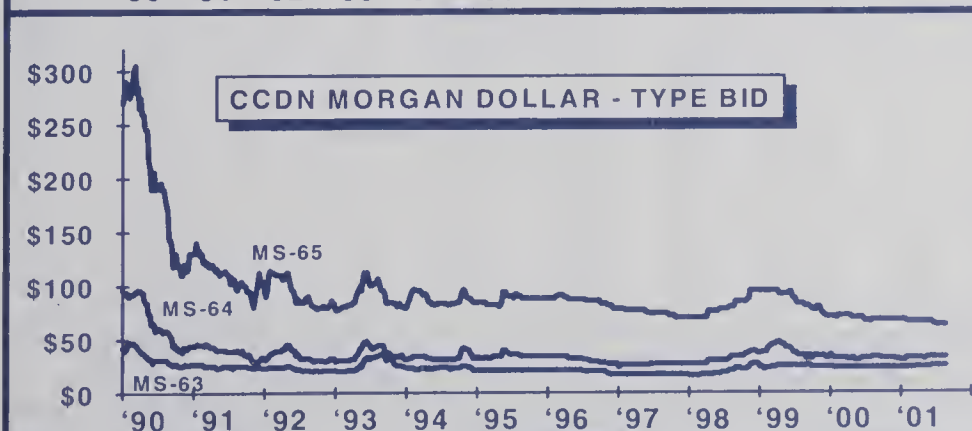

Is the economy to blame? It appears that everyone is looking for help with the soft economy from whatever source they can get it. Unfortunately the Federal Reserve Chairman did not hit the home run that most were looking for after their latest meeting. Consequently, stock prices have not responded favorably enough to provide the coin market with additional discretionary funds. Dealers often rely on a strong economy because it allows buyers to feel good about their finances. In turn, an increasing disposable income gives buyers the freedom to reach for the rare coins they want. Dealers tell us that the market is **collector driven** at the present time. The speculators in the bullion sensitive markets have virtually left

leaving the ultimate consumers of rare coins, the collector/investors to pick-up the ball. Actually these collectors are the real buyers, slowly prodding along trying to buy specific dates and denominations. It is simply a **collector's** market. Key and semi-key dates continue to be heavily sought-after. These collector/investors are working on sets of coins and they are willing to buy the best that they can afford. When the opportunity to upgrade a rarity comes along, these buyers usually don't hesitate to capitalize. Dealers are hoping to buy multiples of the key and semi-key dates of most 19th and 20th century popular series. This is because they have several customers looking for the same date in a similar grade range.

Let us look at some of the areas that are realizing demand. We continue to hear that **better date** Morgan Dollars are still badly needed. Obviously, the common dates of the series remain extremely weak with dealers offering many dates in MS64 and better condition at just over Bid. These discounted offers have been running for several weeks now with few takers even at reduced levels. Key dates are being targeted because they are in short supply in most Mint State grades. Even though some Silver Commems have been discounted, demand remains strong for the 1928 Hawaiian, 1921 Pilgrim, Alabama 2x2 and other select issues. Also, plus signs are evident in Type as the collector grades of MS61 and MS62 have spawned some plus signs for a number of issues. Uncirculated early date Walking Liberty Half Dollars and Proof Mercury Dimes are appearing on customer want lists with more regularity. Dealers are posting supporting Bids at current levels hoping to capture one or two. Buffalo Nickels are another segment of the market that remains hot. Again, it is the semi-key and key dates that seem to be attracting the attention of dealer sight-unseen Bids. Washington Quarters along with Proof Singles are still in short supply. Quantities are needed because of the many new collectors that are trying to complete sets of these issues.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing *last month*; "lt" Trade appearing *last month*; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

THE MOST MONEY THE LEAST HASSLE

If you have coins to sell, it's time to call SPECTRUM!
Dealing with SPECTRUM means more money and
less hassle for you, and here's why:

SEE US AT ALL
Major Shows

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

Peace Dollars & DMPL Morgan Dollars Higher

Five-Figure Keys Highly Sought-After

It's no secret that key and semi-key dates are all the rage in the sight-seen market. We are now increasingly seeing that sentiment carry over to the **sight-unseen, certified** market. Dealers have been informing us about the strong demand coming from new collectors for several months now. Of course, opinions vary as to the real catalyst for this demand. Many have pointed to the Internet as an easy entry point for these collectors. Some believe that the weakness in the stock prices on Wall Street is pushing some investor/collectors towards Rare Coin Street. Still others say that current favorably low interest rates are making it easier for buyers to plunk down larger sums of money on rare coins. Still others point to the State Quarters and Sacagawea Dollar as stimulants to new demand. Actually, we believe it is a combination of all these factors that has contributed to the strong collector/investor demand that is currently being enjoyed in the numismatic world. Yet with all this optimism everything is not perfectly well with the rare coin market. The demand side of the market is just fine, with new collectors entering all the time. However, the supply side is having a lot of trouble keeping pace in the face of strong demand. Dealers for several months now have complained that there are not enough coins to buy at shows and auctions. It is understandable because there is only a small number of key dates available. It is widely known that most of today's buyers have become much more sophisticated and educated. Many are taking advantage of their dealer's knowledge and advice. They are presently willing to act on their dealer's expert advice by trying to load-up on select areas of the market. Naturally, dealers try to put them in positions that have potential as well as enjoyment. Those that own a major rarity often take pleasure in sharing their example with family and friends. Consequently, demand is honing in on select middle to late 19th century and early 20th century rarities, but unfortunately the available supply of this material is not allowing all buyers to be satisfied.

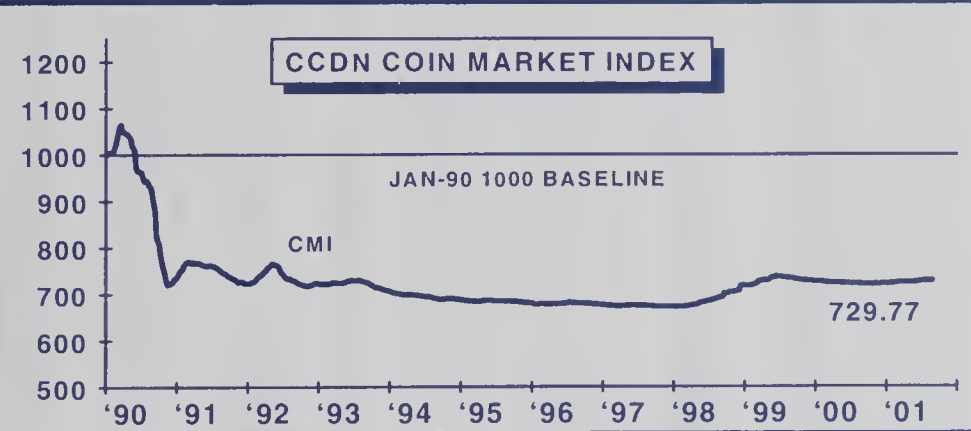

This week, we are seeing strong five-figure, sight-unseen Bids posted for several key dates. The demand is targeting Flying Eagle Cents; Indian Cents; Lincoln Cents; Shield Nickels; Buffalo Nickels; Mercury Dimes; Standing Liberty Quarters; Washington Quarters; and, Walking Liberty Half Dollars. Also, rarities from the three Barber coin denominations have experienced strong demand.

Another area that has perked-up this week is the Deep Mirror Prooflike Morgan Dollars. Dealers have increased their Bids for the common dates in MS63DMPL, MS64DMPL and MS65DMPL. We do note that the increases are rather slight but the direction is clearly seen. Additionally, select DMPL Carson City issues have displayed increases this week. The Morgan Dollar series has been a solid performer all year and it certainly gets its share of attention from collectors. The scarcity of DMPL Morgans has been touted often by dealers, so it is understandable that increased attention and Bids are occurring in this area of the market.

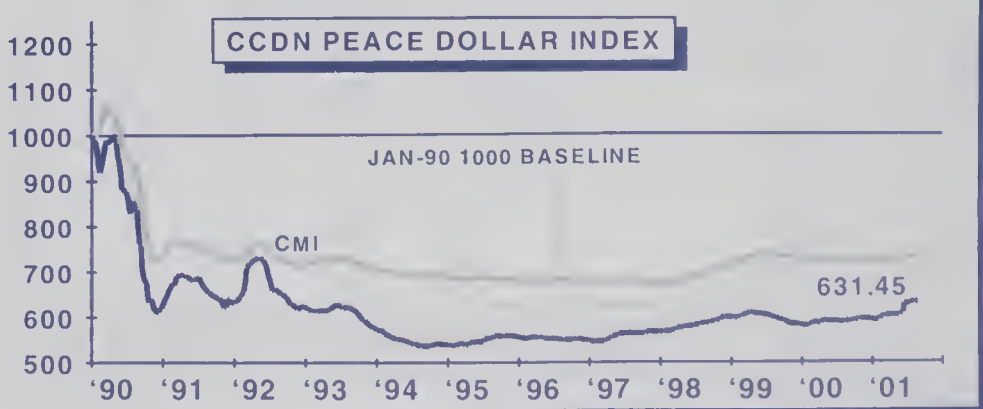

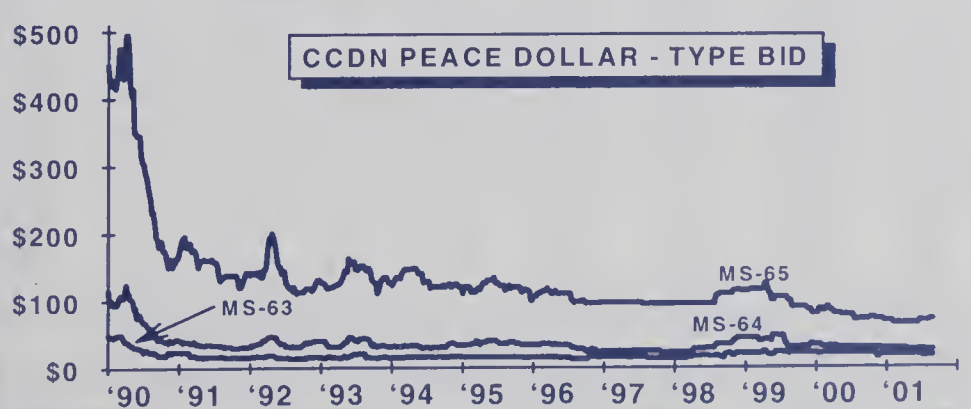

Peace Dollars have experienced a sufficient amount of activity this week. Common dates in grades MS63 and MS65 have moved just slightly higher. However, the difficult to locate MS66 grade has charged ahead with much stronger gains. See inset at left for this week's Peace Dollar advances.

Mint State Gold, which has been under a considerable amount of pressure lately has had a real good week. Plus signs are returning to our sheet with many denominations participating in the present **sight-unseen** rally. Common date MS66 \$20 Saint-Gaudens are higher for both With Motto and No Motto examples, with many collector/investors looking to put away a few. To many dealers alike, they represent an excellent value at today's levels. A few other Gold issues increasing include: MS65 Type 3 Gold Dollars and both \$10 Liberty and Indian Types in MS63 and MS64.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. We are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

Sight-Unseen Activity Increasing Walkers, Proof Singles & Buffalo Nickels Advancing

September is always a welcome month for the rare coin market. That's because it marks the end of summer vacations for many dealers and signals the beginning of the usually active period for numismatics. Dealers know that they need to be ready for the active coin shows and auctions that are upcoming. Sufficient funds must be available. Liquidity is very important because it allows dealers an opportunity to buy coins needed on their customer want lists, as well as any good deals that should come their way. Often, dealers utilize the **sight-unseen** market to maintain a strong financial position. This sometimes means offering select coins at discounts to raise money quickly. Coins offered sight-unseen can be just the ticket for dealers looking to have an adequate amount of cash for the next few busy months. Additionally, Bidding in the **sight-unseen** marketplace is also a convenient way of buying select coins at reasonable levels. Dealers have told us that they are generally pleased with the quality of the rare coins that they receive when buying sight-unseen. This is not always the case, horror stories are still told, yet, they are less often than in the past.

Numerous plus signs have once again dominated our PCGS Buffalo Nickel chart. We have written for several months how strong the demand is for key and semi-key date Buffaloes. This demand has yet to be satisfied, as dealers continue to increase their Bids week after week in an effort to buy a few of these dates. This market seems to be gaining strength as Bids are forcing plus signs for coins throughout the series in Mint State grades from 63 thru 66. We even see some interest being generated for a few of the relatively common Philadelphia Mints. But even here, Bids are targeting the early Philly issues including 1913, 1915-1917 and 1925 just to name a few.

A rush of new collector/investors are in the process of building Type sets. This type of collecting makes building coin sets more fun as they are able to have a nice variety of designs and denominations. Copper Proof Type is the target of some of this increased demand and Bids have been pushed higher. Flying Eagle and 1859 Indian Cents are realizing increasing Bids for both NGC and PCGS issues. These are two very popular designs that are a welcomed sight to any new collector. This is especially true in Proof as the design is seen with all the detail that was originally intended by the artist.

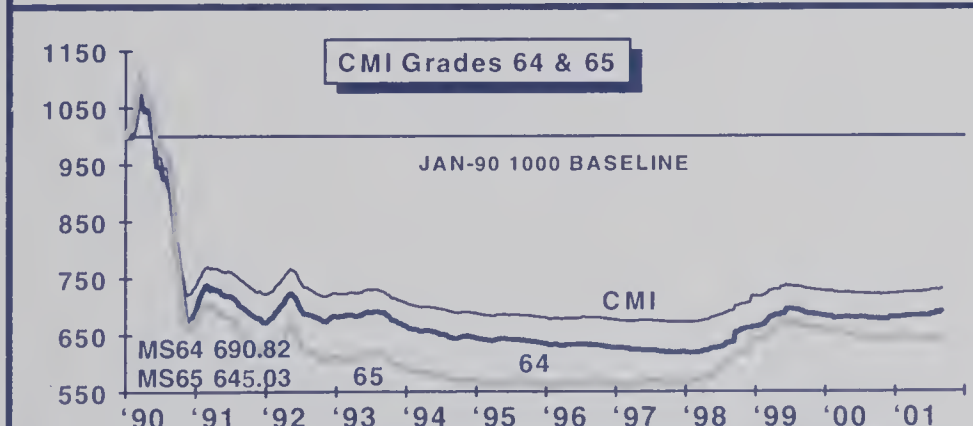

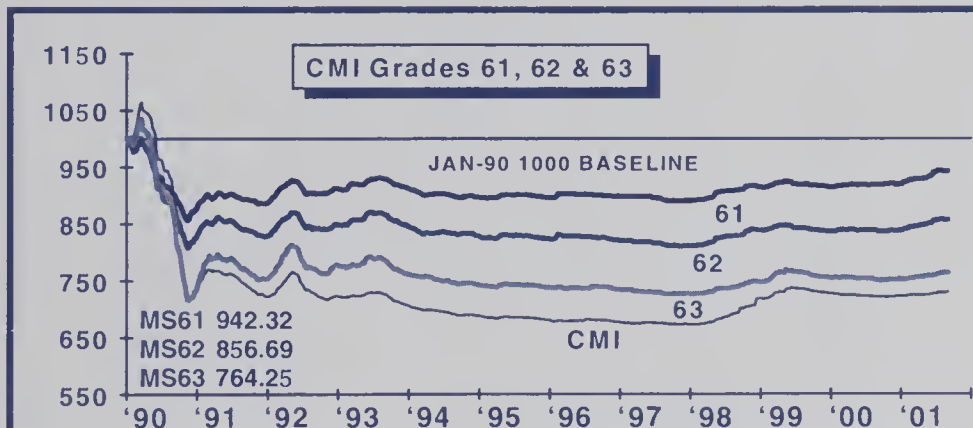

Proof Singles have realized some significant short term gains as of late. Interest is mostly seen among Proof Buffalo Nickels and Mercury Dimes. Dealers desperate for these coins are forced to sharply increase their Bids. Walking Liberty Half Dollars are also experiencing another surge of strong demand. Plus signs are breaking out all over the NGC and PCGS charts. Demand is mainly targeting the late dates of the series in MS65 and MS66 condition. See below for a list of this weeks 10 best performers.

Sight-unseen Bidding activity is continuing to increase for select ANACS coins. This is true despite the lack of many plus signs seen on the sheets. We are seeing many more supporting Bids at or just under current levels being entered for this material. Classic Silver Commems are needed, and ANACS Commems are receiving Bids for select examples in grades from MS64 thru MS66. Gold Commems are also receiving a number sight-unseen Bids for ANACS examples as dealers continually try to satisfy the strong demand that exists in this segment of the market. Morgan and Peace Dollars are another area receiving strong, supporting Bids for ANACS coins. Here, the Carson City Mint Dollars, like we have seen for some time are among the most actively pursued.

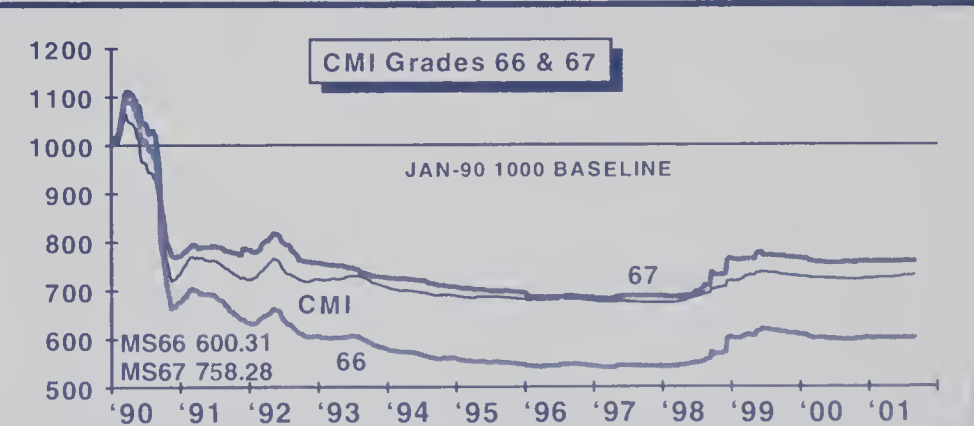

Heated interest is taking place for GSA "CC" Dollars. Many dealers are posting strong, supporting and increased Bids for select dates. The better date issues are still solid at current levels with dealers still looking to buy quantities of some middle rarity dates. The rare 1879-CC is down slightly as at least one dealer is willing to part with his example at a price just above \$3,150.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people
are turning to PCI

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Proof Type Targeted By Dealers MS66 Saints In Demand

Because of the tragic attack on our nation Tuesday, business was **not** as usual this week for the rare coin market. America's financial markets were closed this week, including the trading in the precious metals. The rare coin market was not officially shut down but it did operate at far less than 100 percent.

Light activity was evident in the sight-unseen market with Bidders cautiously placing their Bids on the electronic dealer networks. Washington Quarters have been one of the several star performers this year. Demand has been steady in this series ever since the 50-State Commemorative Quarters began to circulate. As a result, the collector base began to increase as new promising collectors started to fill their map boards with the new Quarters. The release of Government Mint Sets and Proof Sets also provided more kindling for a fire that was quick to spread across our nation. Many parents saw the State Quarter program as an opportunity to educate their children with our country's history as well as a tool for teaching children the concept of saving. Of course this kind of saving, coin collecting, is a lot more fun than just having numbers increase in your bank account. This week, dealers posted increased **sight-unseen** Bids for the key date of the series, 1932-D in grades MS61 thru MS67. On August 9 in Atlanta, a world record price (\$89,125) was paid at public auction for a MS66 1932-D Washington Quarter. It was the finest certified example of this rarity. Now, we see at least one dealer willing to jump his **sight-unseen** Bid for an example in MS66 to \$40,000.

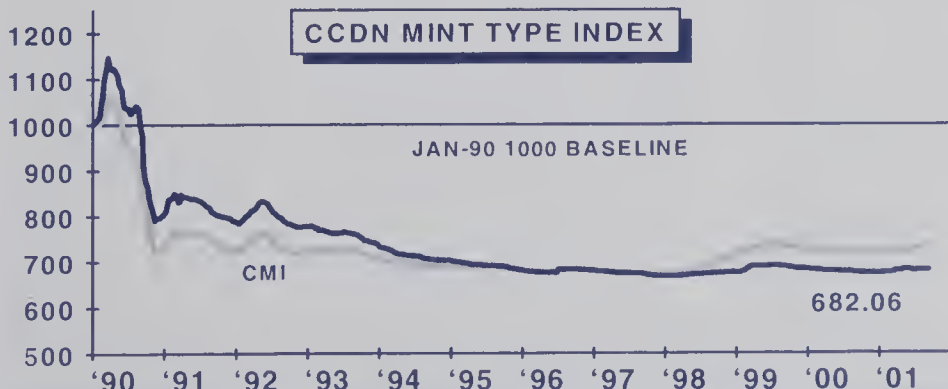

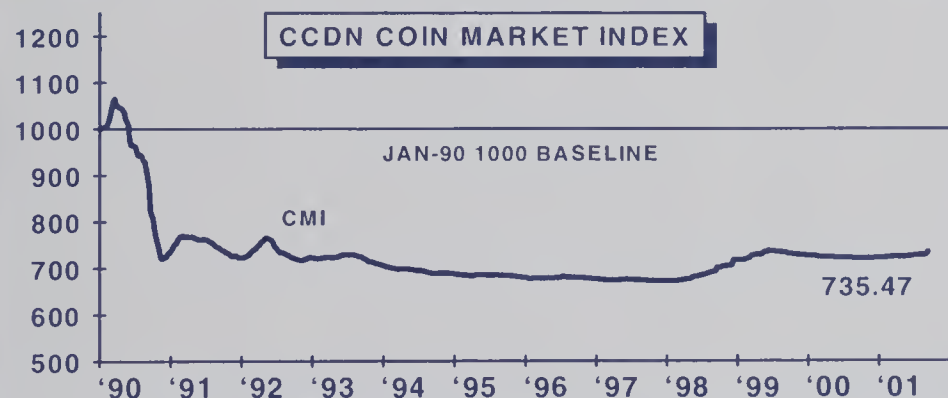

Proof Type is another area of the market that has some positive Bidding activity this week. Bid has increased for Copper-Nickel 1859 Indian Cents. These Cents are a very popular issue with collectors as it is the first year of the Indian Cent series as well as being a first year Type coin. Interest is seen for both major certified examples in grades PR61 thru PR64. In this grade range from approximately \$430 thru \$1,750 this coin is affordable for many collector/investors that are putting together Type sets. Staying in Copper, interest was also evident for Matte Proof Lincoln Cents in full Red. Increases

are seen for low-grade Proof examples. Lincoln Cents have been an extremely popular series with collectors for most of this year. They are looking for well struck examples that retain their original Red Mint bloom. The Proof examples are especially attractive due to their complete strike.

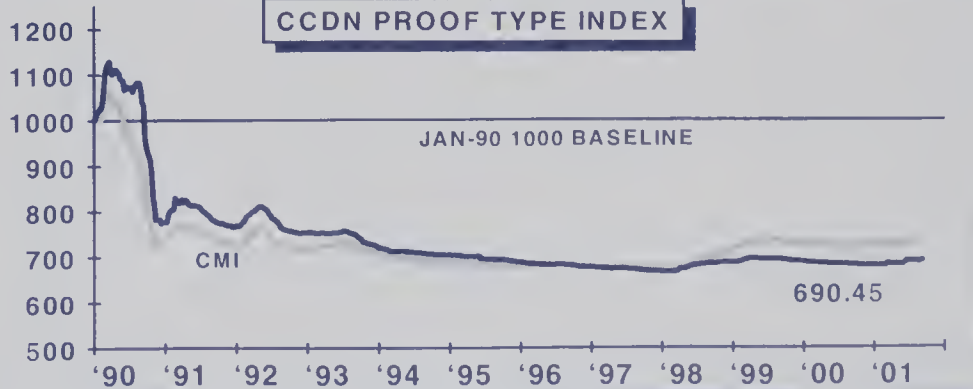

Matte Proof Buffaloes have been receiving similar demand. Like the Lincoln Cent, these Nickels are extremely popular with today's buyers. Dealers have increased their Bids for examples in PR64 and higher. Besides Type increasing, many dates in this short series are higher as dealers try to accommodate strong collector/investor demand. Much of this increased interest has spawned from the U.S. Mints release of the 2001 Buffalo Commemorative Dollar.

Classic Silver Commemoratives were rather mixed this week. However, the plus signs did outnumber the minus. While there were some examples being discounted, we did notice dealers willing to increase Bid for select issues. Since the demand for Commems is growing, dealers are more willing to try their hand at buying some in the sight-unseen market. Gold Commems are receiving solid demand with tight supplies hampering the efforts of many of those dealers.

Gold Type had an unusual week. The closing of the precious metals' markets since Tuesday has made speculators take additional risk than they normally would if those markets had been open. Added caution was taken when reports of skyrocketing oil prices became the short term reality in some states. Most believe that this is probably a temporary, predictable reaction that will change as calm is restored. Still, dealers did manage to increase their **sight-unseen** Bids for NGC and PCGS MS66 Saints, now at \$1,540. Recently Saints of this quality have become highly desirable at these levels. Also, the \$10 Indian series has received strong Bidding activity as well. This week, MS64 gained ground as both NGC and PCGS examples are sought-after by dealers. Demand is increasing and dealers want to be prepared to satisfy the needs of their customers.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2ND EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."

— Hank Gilman, Business Editor, **NEWSWEEK**

"If making money by buying and selling coins is your game, Scott Travers' *How to Make Money in Coins Right Now* is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."

— Beth Deisher, Editor, **Coin World**

"The most valuable book ever written on how to profit from coins."

— Ed Reiter, Senior Editor, **COINage** magazine

"A revolutionary book."

— Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."

— Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

RARE GOLD

If you are a marketer of rare United States Gold coins and you do not receive my wholesale price list, you may be costing yourself money.

I'm one of the largest wholesalers of rare United States Gold coins in the world. I have over twenty years experience in wholesale gold coin sales.

Each week, I put out a "user-friendly" inventory list which contains over \$1 million of choice, fairly priced rare U.S. Gold coins.

I specialize in PCGS and NGC graded U.S. Gold coins struck from 1795 to 1900 in Very Fine to Mint State grades.

Comprehensive support material is available. I can increase your sales and make it easier for you to sell rare U.S. Gold coins.

3 MORE REASONS WHY NGC IS THE UNDISPUTED LEADER IN THE COIN GRADING INDUSTRY

The Certified Coin Registry

The Registry offers a dynamic system for collectors to enjoy friendly competition while assembling remarkable collections. The Registry's fair, expert and numismatically accurate ranking system is truly unique. It accounts for several important factors including grade, rarity, population and the NGC "star" designation for exceptional eye appeal. Accepting coins from the two relevant grading services NGC and PCGS, the Certified Coin Registry is the most inclusive program of its kind. Visit Collectors-Society.com for more information.

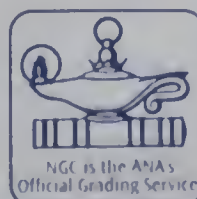

NGC's New Website

Visit NGCcoin.com to experience the most comprehensive numismatic website available. You will find the industry's only free access to Census information, spectacular images of coins graded by NGC and all the latest news. The new and improved NGC website is an invaluable tool for dealers and collectors alike.

The Industry's Best Holder Gets Even Better!

From NGC you've come to expect the most consistent grading the industry has to offer. Now we would like to introduce to you the perfect complement, NGC's next generation holder. Over two years of thorough research and development has resulted in the ultimate holder for certified coins. The highest quality, hermetically sealed materials create a solid barrier between your coins and the elements that can harm them. Now even more reason to make the #1 grading service your first choice. For more information call NGC Customer Service 1(800)NGC-COIN.

Saints On Fire

Gold And Silver Spurt This Week

Last week we wrote that MS66 \$20 Saint-Gaudens were in demand. This week they are on **fire**, along with some other Mint State grades. The catalyst this week, has to be the "break-out" jump in Spot Silver and Gold. As of this writing, Silver settled at \$4.71 per ounce and Gold at \$291.50. This kind of move has a way of motivating people towards the purchase of rare coins, bullion and semi-numismatic coins. One west coast dealer said that the **sight-unseen** market for generic \$20 Gold is very strong. He mentioned that the Saints were capturing the largest portion of that demand. However he did say that generally speaking, the whole **sight-unseen** market is very healthy.

Despite the strong sentiments being fostered throughout the numismatic world, there is some discounting continuing to occur in several areas of the market. Notice the minus signs on our Proof Type, Proof Gold Type, Morgan Dollar and Silver Commemorative charts. Mostly, coins have been allowed to sell at public auction with the reserve relaxed to some degree. The reasons vary but dealers like to retain a fresh inventory. The need to be liquid in today's market is also very important. Consequently, dealers are willing to allow some coins to sell at lower levels to free-up some cash to buy the **hot** issues of the day.

Mint State Gold is one of the current hot issues. The demand for No Motto and With Motto Saints is tremendous. We see several large numismatic firms trying to buy these Saints in quantity. And, they are not shy about posting strong Bids in order to be successful. Notice the healthy percentage gains on our top ten Saint-Gaudens Type chart over the last three months. It becomes plainly obvious that quality is in demand and dealers are willing to pay to get it. The MS65 and MS66 grades are heavily sought-after. This is certainly understandable as dealers tell us that their customers are looking to add quantities of these coins to their portfolios. Also, the strongest sight-unseen demand is being offered for No Motto Saints from the Wells Fargo hoard. Dealers know that these Wells Fargo examples are especially well struck

with nice blazing luster. Also, very few of these high grade No Motto Saints posses carbon spots. Spots have become a dirty word among Mint State Gold collector/investors. Dealers are willing to pay approximately 10-15 percent more for Wells Fargo Saints in NGC or PCGS holders for grades from MS63 thru MS65. They are even willing to pay nearly 7 percent more for MS66 certified examples.

Recent weakness in dated \$20 Liberties as seen in our September *CDN Quarterly III* has caught the attention of collector/investors. Many of the drops were rather steep and it has caused strong demand for the coins at "bargain" levels. Dealers tell us that they have observed an increase in the volume of demand for these coins in MS63 and MS64.

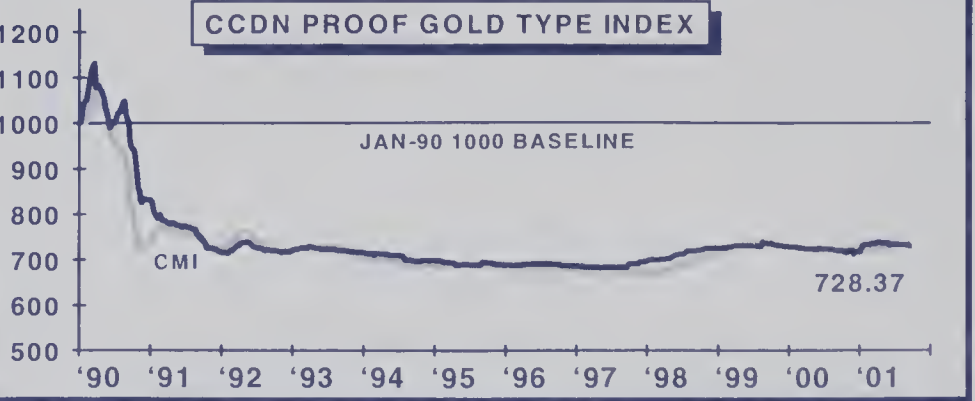

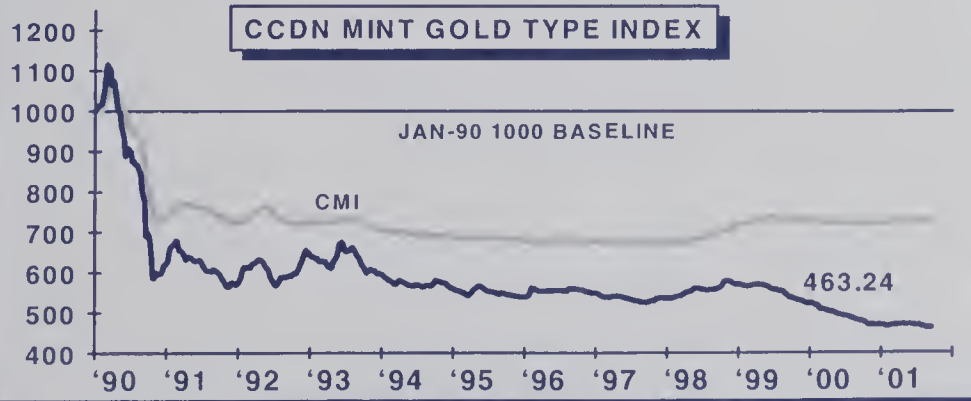

Proof Singles continue to improve upon the gains that we have already seen this year. This week, plus signs are evident again with NGC Mercury Dimes and Walking Liberty Half Dollars taking top honors.

For many dealers still trying to fill want lists for collector/investors there is some good news. Two early October auctions will be taking place prior to the Long Beach Expo. The October 1-2 Pre-Long Beach Sale will be conducted by Superior Galleries in Beverly Hills, California. The auction will contain 2,700 lots. Also, the George Mouhtouris collection will be auctioned October 1-2 by Ira & Larry Goldberg C & C in Los Angeles. This sale will contain over 2,300 lots.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein.

THE MOST MONEY THE LEAST HASSLE

If you have coins to sell, it's time to call SPECTRUM!
Dealing with SPECTRUM means more money and
less hassle for you, and here's why:

SEE US AT ALL
Major Shows

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

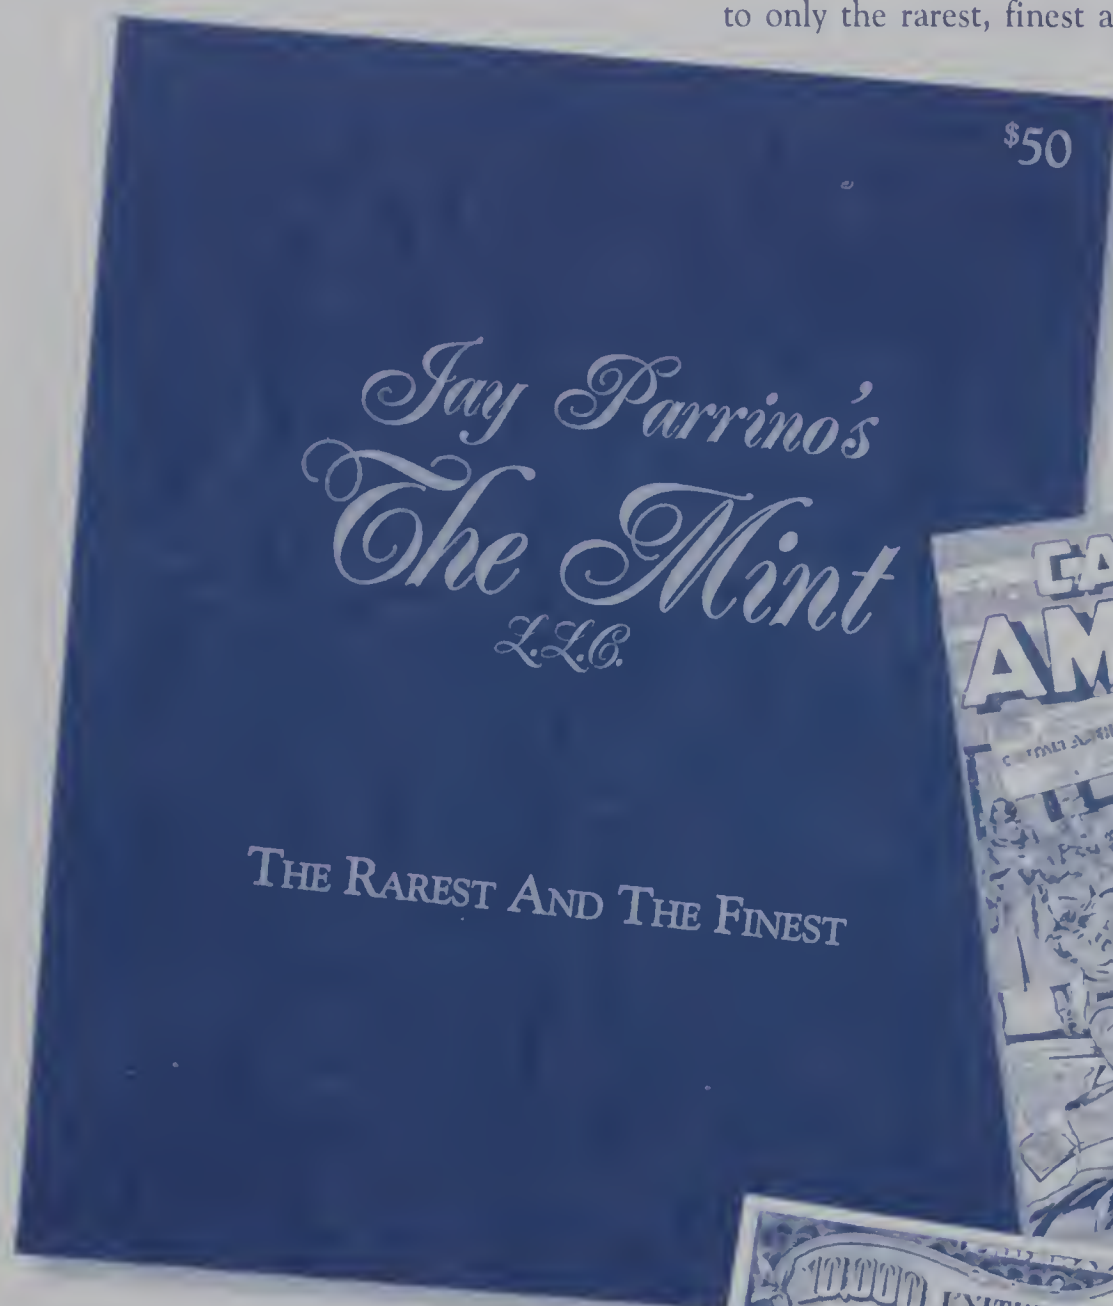

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

Sight-Unseen Gold Needed In Quantity Long Beach Expo On Horizon

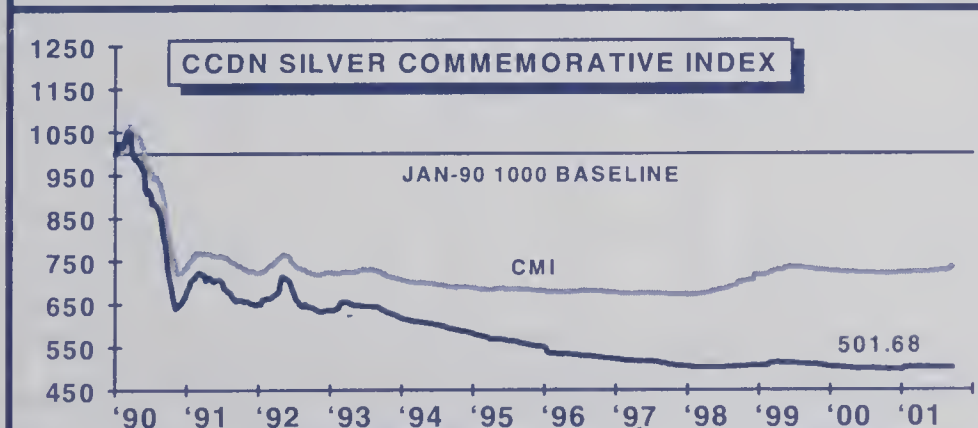

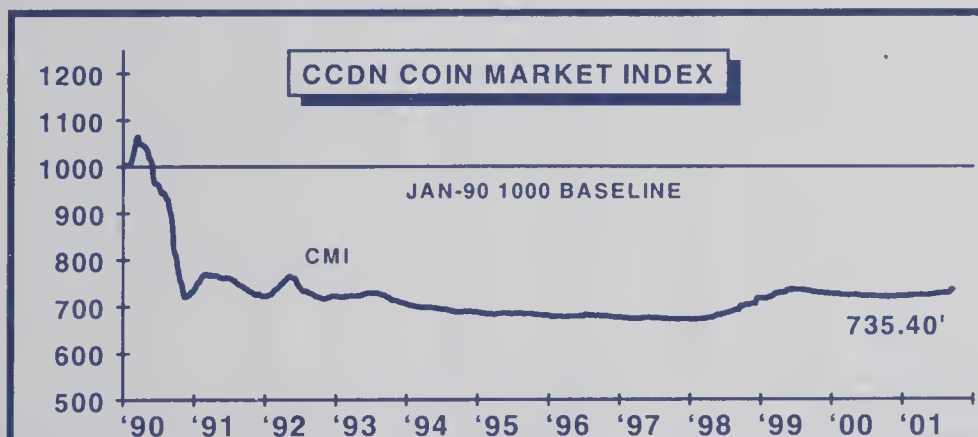

These are anxious times in our country. For many coin dealers, their business involves a lot of travel and time away from home. Right now, many dealers are either in route or will be leaving shortly for the Long Beach Expo in California. This October 4-7 show is a major one and is usually the busiest of the three Long Beach Shows held each year. Dealers know that several auctions are conducted before and during this show. They readily look to these public auctions to provide them with the coins that are listed on their customer's want lists. They look at this show mainly as an opportunity to buy rare coins. Currently, there is a shortage of fresh material and dealers are trying hard to restock their depleted inventories. They need to do this fairly quickly if they are to remain competitive and satisfy their customers. Some dealers are concerned that recent national events may have an affect on the number of dealers willing to travel. They are also concerned about the number of serious collector/investors willing to make the trip as well. Attendance, as well as the supply of rare coins at this years show will surely be under the magnifying glass.

It is plainly obvious that the demand that was evident last week for sight-unseen Mint State Gold has **not** been satisfied this week. Again, bullion prices have been hovering at short term highs of \$290 Gold and \$4.60 Silver. This support has provided the stimulus that people need in order to feel comfortable when buying numismatic Gold and Silver coins. The major rare coin companies are scrambling to buy these Gold coins in quantity to meet the present demand and be ready for expected future demand. The continued weakness in the financial markets is also supplying added fuel to this Gold fever. Many investors have been abandoning the stock market and seeking other avenues for their investments as they look to diversify for added protection. At the same time, the economic picture in this country and its immediate future is one of growing despair. Many corporations are downsizing and forecasting lower profits ahead. Collector/investors find a haven in owning Gold bullion and numismatic

Gold. Naturally, the \$20 Saint-Gaudens and \$20 Liberty examples become a priority with their weight nearly equal to an ounce of Gold. However, we are also seeing the sight-unseen Bid increasing for other numismatic Mint State Gold coins as well. In some cases, the jump in Bid from last week is quite significant. Note the strong increase in Bid for Type I and Type III Gold Dollars in MS63 and MS64. Also check the \$10 Indian in MS64. Increases from 20 to 32 percent are seen. Other Gold needed includes \$3, \$5 and \$10 Indians. These jumps also point to strong collector/investor interest for Gold Type collections and sets right now. Dealers have been telling us that they have customers working on Gold Type sets. They also tell us that they are looking to buy certified Gold in quantity when they can.

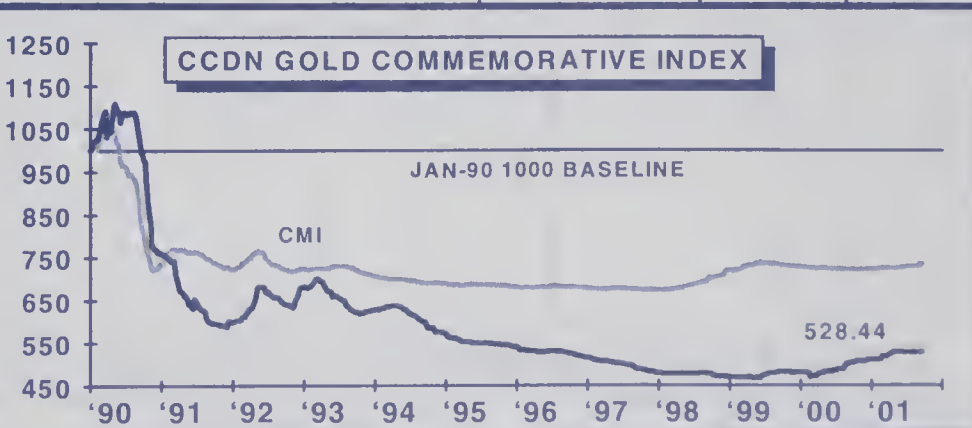

Some areas of the market still remain mixed. We do see some discounting taking place along with some slight Bid increases. Proof Type is a candidate for this type of trading activity. The discounting is directly related to auction sales or coins available for sale right now. Still, demand for Proof Type is strong with dealers looking to buy examples to add to their inventory. This week dealers are trying to buy 3-Cent Nickels, Shield Nickels and Liberty Nickels. Proof 65 and Proof 66 are the grades of choice. Mint State Type is also displaying some minus signs due to discounting. However, a lot of supporting Bids are seen among this category.

Commemorative Gold is at it again with plus signs appearing for a number of these little Gold beauties. Strong demand and Bid increases for Commem Gold has forced additional examples on the market in recent months. However, there is still a shortfall and consequently, plus signs are evident once again for several issues grading MS64. Silver Commems and Morgan Dollars are sustaining some discounting this week. Similar to the sight-seen market, Mercury Dimes are floundering with decreases occurring for select high-grade, Full Band issues. Walkers are mixed with significant percentage increases and decreases taking place. Basically, the latter dates of the series are being affected.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Limited S.S. Central America Gold Treasure Sets, Books, & Videos

The Ship Of Gold

In September 1857, the elegant side-wheel steamer *S.S. Central America* was bound for New York carrying 578 hardy souls and more than two tons of gold dust, nuggets, coins and ingots from the California Gold Rush. The "Ship of Gold" never made port, sinking off the coast of the Carolinas in 8,000 feet of deep blue sea. The loss has been described as the greatest economic catastrophe in all of U.S. maritime history, triggering the Panic of 1857, a severe recession and a deep depression.

Garden of Gold

131 years later, famed scientist and explorer Tommy Thompson, along with the Columbus America Discovery Group, located the sunken *S.S. Central America*. Beneath the sea, debris, sand and marine life was found an unparalleled treasure trove – thousands of gold coins minted by the then-new San Francisco mint ...over 500 unique assayer gold ingots, bars and "bricks" ...and a precious few pounds of solid gold nuggets. Those who first witnessed this treasure lying at the bottom of the sea called the scene a "Garden of Gold."

Framed Limited Edition S.S. Central America Gold Nugget Treasure Sets

In the early days of the Gold Rush era, California was a "gold dust" economy. Paper money was not yet trusted, and there was an extreme shortage of trustworthy coinage. As a result, gold dust and nuggets were a primary medium of exchange and commerce. For example, a nugget could be used as payment for a saloon libation and meal after a miner's long hard day in the gold fields.

During the salvation operation of the *S.S. Central America* treasure, salvagers vacuumed the sea floor around the shipwreck site. Then, using the "old-fashioned" method of "panning" for gold to separate the sand and debris, a limited number of gold nuggets were recovered and are offered in "treasure sets".

Each Gold Nugget Treasure Set is gorgeously presented in a 22" x 18" "antiqued" frame and includes... a sonically sealed holder containing .5 grams of gold nuggets "recovered" from the *S.S. Central America*... accompanied by an individually numbered Certificate of Authenticity duly signed by PCGS President, Richard S. Montgomery... a copy of Tommy Thompson's beautiful "coffee table" book, *America's Lost Treasure*, which details the *S.S. Central America* recovery operation... and a video cassette copy of The History Channel's documentary feature, *Ship of Gold*.

By special arrangement, we are proud to offer an extremely limited quantity of Gold Nugget Treasure Sets, featuring "authentic" gold nuggets recovered directly from the *S.S. Central America*. **We only have 125** of these historically essential sets available. With more than 10,000 client invitations being extended, someone is going to be disappointed. Do not be one of the "disappointed!" **Even America's most respected numismatists are purchasing this framed set for their private collections or to hang on their wall. Call for price and availability.**

Special Book and Video Offer At Cost!

We feel so strongly about the historical importance of the *S.S. Central America* recovery that we are making available an additional limited quantity of Tommy Thompson's book, *America's Lost Treasure*, together with The History Channel's video documentary, *Ship of Gold*, **at our cost!** Together, the book and video retail for \$60. However, we are able to offer only 250 book-video sets to our clients at our actual cost of **only \$37**, which includes Rush Priority Mail charges.

Kellogg & Co. \$50 Gem Proof and Gem Mint State Gold Commemorative Restrikes

Glittering gem Proof restrikes have been produced from transferred dies, each a triumph of "coiner's" art, and each *specifically* struck from gold taken from an original Gold Rush era ingot made in San Francisco by Kellogg & Humbert – the same John G. Kellogg who issued the fabulous 1855 original \$50. Each ingot has been part of the treasure recovered from the most famous of all finds, the *S.S. Central America* "Ship of Gold."

There are also extremely limited numbers of Gem Mint State Commemorative "restrikes" of the famed 1855 Kellogg \$50 Quintuple Eagles available to our clients. **Less than 500 are being minted.** These gorgeous commemoratives each contain 2.5 troy ounces of gold actually recovered from the *S.S. Central America*. With a maximum of only 5,000 coins being minted, **proof and mint state combined**, every single coin will immediately disappear into private collections. You may never have another chance to own these historically unique coins. See order form below for pricing and ordering information or call Toll Free 1-800-459-2646.

LIFE magazine (March 1992) called this "The Greatest Treasure Ever Found." Once you see this beautiful and unique presentation up close, we're sure you will agree this is something YOU will treasure for years to come.

Business As Usual In Long Beach California Auctions Realize Nearly \$5 Million

Early market activity at the Long Beach Expo is exceeding expectations. Dealers are actively looking to buy nice material and are willing to pay strong money to get it. A very strong turnout of dealers are trying to conduct business as usual in these unusual times. They are hoping that the latest Federal Reserve Bank interest rate cut will help an ailing economy. On October 2, the Fed lowered the Discount Rate a half-point to 2.5 percent. Lower interest rates make it easier for collectors to buy rare coins — a non-interest bearing asset. Dealers know that it can be tough to sell rare coins when the economy is sputtering. Not long ago when the stock market was reaching new heights, collectors were willing to buy major rarities that they remembered from their youth. We also saw an influx of new collector/investors willing to put a few dollars down for some rare coins. Now with a reeling economy and concerns about safety here at home, collector/investors are taking a more cautious approach towards rare coins. Indeed, some dealers see funds entering the market as protection against the weak economy and uncertainty at home. In fact, this has been taking place to some degree. This is especially noticeable with the strength seen in Mint State Type Gold. We have seen strong sight-unseen Bids entered for many denominations. Several are looking to buy generic Gold in quantity.

This week's sight-unseen market is being dominated by strong demand for Buffalo Nickels. We are seeing across-the-board strength forcing numerous plus signs throughout the series. The highlights are found among two NGC MS65 certified examples. Gains of 31.43 percent and 42.86 percent are seen for the 1929-S and 1925 respectively. Additionally, dealers pushed Bids higher for many dates of the series. Small wide-spread percentage jumps have become almost common for this series over recent months. Dealers are looking to buy coins valued at \$50 through much more expensive rarities over \$29,000. Key dates, semi-key dates and common dates are all on want lists for dealers to fill. The Buffalo Nickel series has definitely increased in popularity this year, mostly from the release of the Commemorative 2001 Buffalo Silver Dollar.

Proof Singles are another area of the sight-unseen market that has been very strong. This week that strength continues as select issues are displaying increases.

Demand is targeting Proof 64 and better Buffalo Nickels, Mercury Dimes and Walking Liberty Half Dollars. Modern Proof coins continue to face very strong collector demand.

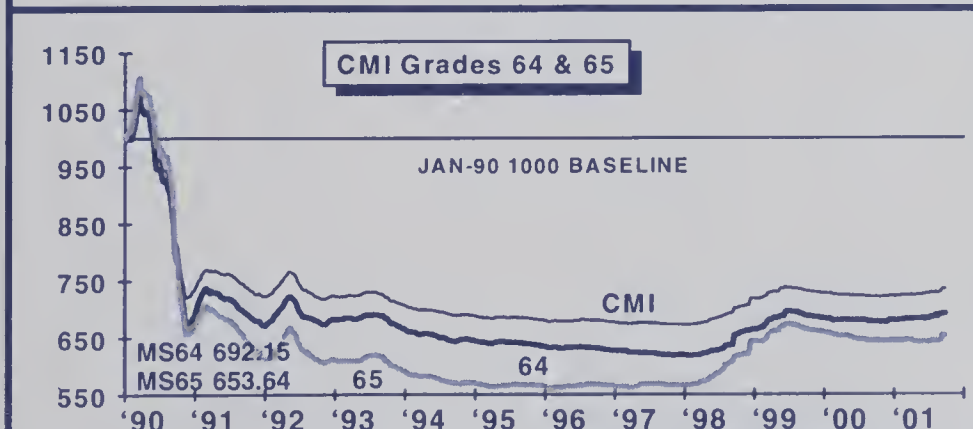

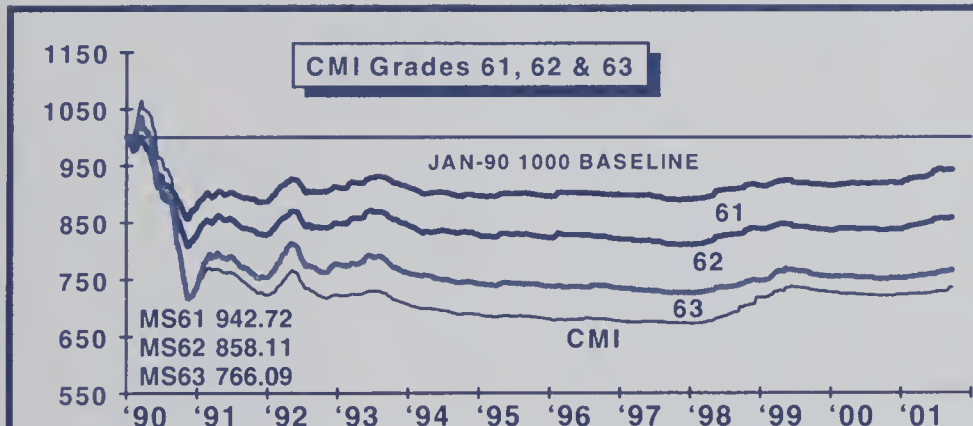

Discounting is also evident this week as seen in our Silver Commemorative charts. The discounting is occurring on coins from \$40 thru \$400. Gold Commems are holding fairly steady to slightly higher. Morgan Dollars remain extremely popular with collectors and dealers are continuing to post a number of supporting Bids as well as a few increases. Peace Dollars are solid at current levels. Proof Type is mixed with a few increases as well as a few decreases. Still, dealers tell us that Type remains as one of the strong areas of the current market.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$7 charge for storage box orders containing less than 20.)

After our 12th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequaled market knowledge and a solid financial base. Sight-Unseen Bids Increase Sharply For MS Gold \$5 Indian Now Bid \$2,500 In MS64

This has been an interesting week for the rare coin market. Dealers are returning from the Long Beach Expo with a few orders left unfulfilled. Sure, they were able to buy some coins from the public auctions as well as from other dealers on the bourse. However, they are still in desperate need of select coins that remain on their customer want lists. They know that price is becoming more of a factor as the economy remains in turmoil. Still, dealers are aware of the fact that collectors are willing to pay strong money for those tough to find coins that they have wanted for some time now.

Spot Gold has been rather erratic, leaving dealers to scratch their heads about its movement. This week, as dealers were touting its future potential increase, it suffered a sharp decrease. As of this writing, Spot Gold is trading at approximately \$282 per ounce down from over \$292 just a few days ago. In the face of this sharp short-term decline, dealers are boldly willing to post very strong Bids for Mint State Gold. These Bids are **sight-unseen** and demonstrate the continued strong demand for Mint State Gold. Also, these Bid increases are a continuation of the many increases that has been occurring in the Mint State Gold category for several weeks now. What is most surprising about this week's Bid increases, is the strong percentage jumps of up to 37%. This activity is another indication of the tremendous demand for generic Gold by dealers. They are looking to buy many of these denominations in large quantities when they can.

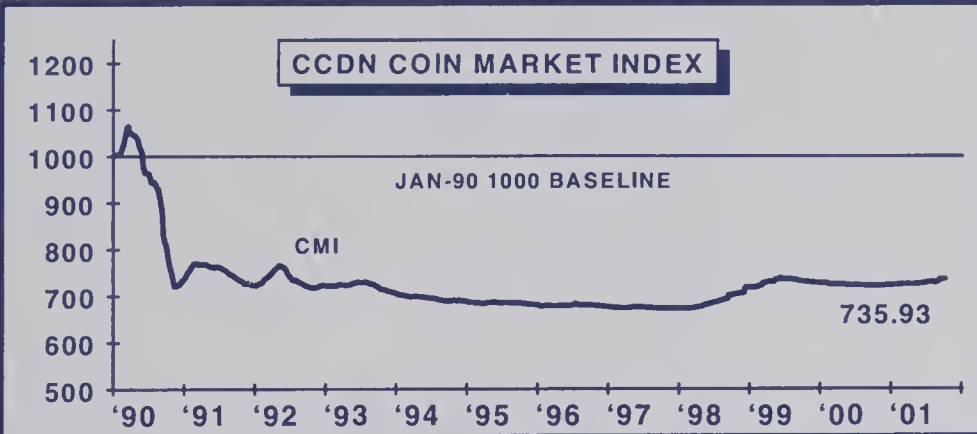

Aside from Gold Type, the remainder of the sight-unseen market this week is mixed overall. We said that it has been an interesting week. The Discounting taking place in several areas of the sight-unseen market is certainly evident along with pockets of strength. Silver Commemoratives are displaying some minus signs along side some plus signs. In some cases such as the Delaware Half in MS66, declines are rather steep. Silver Comms are a perfect example of this mixed market. Gold Commemoratives have only known one direction this year. We don't see much discounting taking place in this short series but we do see strong Bids forcing prices higher. Dealers are looking for NGC and PCGS slabbed Gold Comms in the \$750 to \$3,500 range as these coins are easily placed with collector/investors.

Morgan Dollars are one of the most popular areas of the rare coin market. Yet that doesn't mean that they are not susceptible to discounting. This week we see on our charts that Morgan Dollars are the beneficiary of a fair amount of declining Bids. A number of minus signs are prevalent for common and better date Morgans in grades from MS63 thru MS67. In some cases, the percentage decline is rather steep. Dealers do tell us that they are looking to raise cash for upcoming public sales. They want to stay

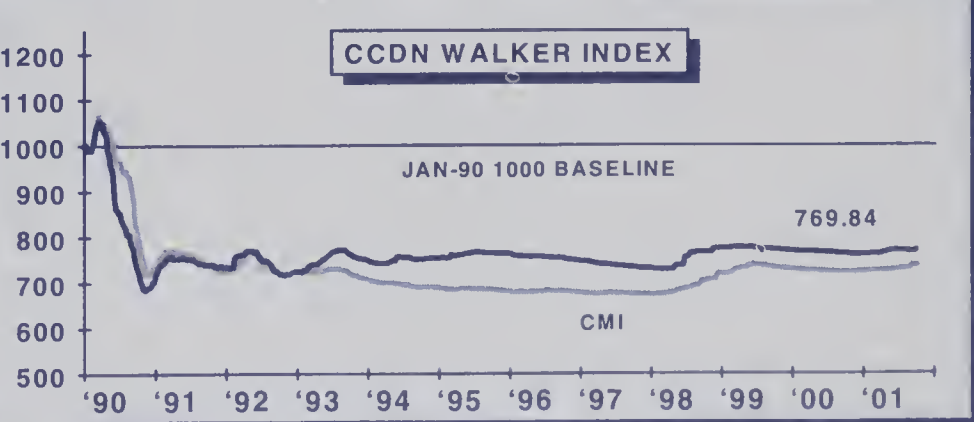

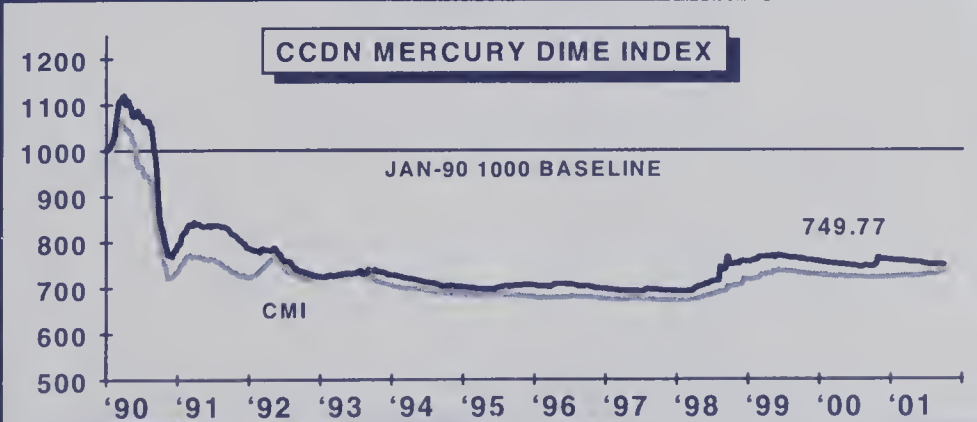

as liquid as possible to be able to capitalize on specific dates that appear at auction as well as deals that may come in the door. Peace Dollars are also seeing some discounting. However we see interest for the key date, 1934-S in MS61 and MS62.

Proof Singles are at it again with yet another round of Bid increases taking place. Once again, dealers are looking to buy Mercury Dime and Walking Liberty Half Dollar Proofs. These mid-20th Century Proof coins have been the target of strong collector/investor demand. Dealers are trying to supply their customers with the coins that they want. Several dates are needed from 1936-1942 in PR63 or better. Dealers also want Uncirculated pieces as well. Late date Uncirculated Walkers are experiencing exceptional demand in MS65 and better grades. Dealers have raised their sight-unseen Bids for most of the late date examples.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Now you can learn a lesson about the new coin market. Without losing a mint.

NEW *The Coin Collector's Survival Manual – Fourth Edition* by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$18.95.

"This is the book about the coin business you can't afford to be without." - **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED SIX-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the fourth edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance—and the latest in halogen flashlights
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- How not to get ripped off if you buy coins through the mail or over the Internet
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and safe—as well as the right storage method
- A review of some Internet web sites, with a legal analysis
- Requirements of the FTC telemarketing act
- The real facts behind the toning corrosion controversy

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- A grading service founder's startling admission of modified grading standards
- The newest tax laws

NEW information in the fourth edition:

- **Courageous information about on-line auctions—no other numismatic author has ever been as bold in exposing Internet scams!**
- A comparison of PCGS versus NGC—which service does the market really favor?
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins and much, much more!**

Order your copy of *The Coin Collector's Survival Manual - Fourth Edition*. 284 pages, dozens of sharp illustrations. (black & white and full color). For the price of \$18.95, you can make a mint.

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of six award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *The Insider's Guide to U.S. Coin Values*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *BusinessWeek*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

CERTIFIED COIN DEALER

newsletter

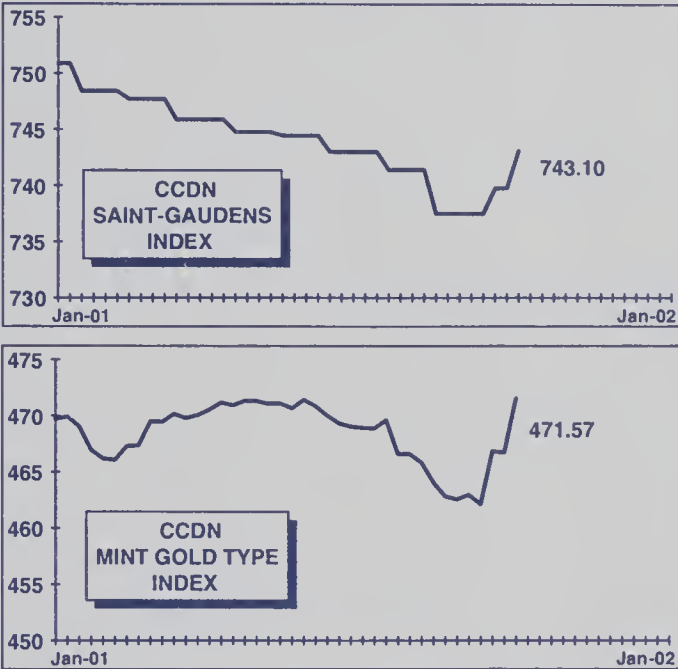

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XVI No. 42 October 19, 2001 Single copy price \$4.00

Saints Take Control Spot Weakens To The Benefit Of Buyers

Last week we displayed a chart that depicted some hefty gains for Mint State Gold Type. Many collector/investors who bought Gold Type earlier this year must be very happy. Double digit percentage increases have been realized for many denominations in only a short period of time. These increases are not just influenced by bullion because strong advances continue to be noted for Gold Dollars and \$3 Gold examples. This week, Bidders are still willing to support the strong increases that the sight-unseen market has absorbed despite weak Spot prices. Saints are dominating the dealers' attention this week even though a few minus signs appear on the Gold Type chart. The bottom line is that most denominations are holding close to the gains that they realized in the past few weeks. The market for Gold Type remains very healthy.

Saints continue to be sought-after by collectors, in turn dealers continue to post strong sight-unseen Bids for generic No Motto and Motto examples. This series is known to be among the most popular of all the Gold Type coins. And why not, it boasts one of the most beautiful designs of any rare coin. We have witnessed increasing interest in the Saint-Gaudens issue for several weeks now with dealers trying to buy quantities for their customers. The combination of low interest rates; war overseas; additional anthrax discoveries; a widening of hostilities in the Middle East; and, our faltering economy has some people looking at Gold coins. An increase in fear usually leads to an increase in the tendency to buy Gold and Silver for security. We also know that buyers see today's relatively attractive price levels as a value that looks too good to pass up. Dealers tell us that some savvy collector/investors are buying numismatic Gold coins first before buying bullion. To be sure, bullion is also among the items being purchased, but it is not necessarily their first choice. The current up and down nature of the Spot price of Gold is giving collector/investors ample time to enter the market. This week the metals are down. Actually, the

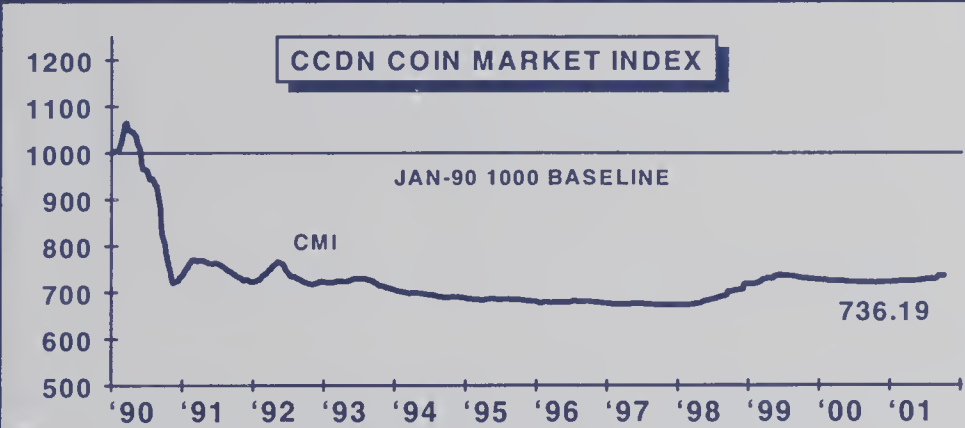

precious metals are acting much like the stock market, moving sharply up one day and sharply down the next. This is another indication of markets in a transition stage. We have yet to see the runaway prices that some analysts and rare coin dealers are speculating will occur in the next year or so.

Dealers often try to anticipate demand so that they are prepared to offer their customers the coins that they want. This may be what is occurring presently as quantities of Gold Type are usually welcomed at current Bid. Increases are taking place for generic examples in many Mint State grades. In particular, MS65 and MS66 are the object of several Bidders.

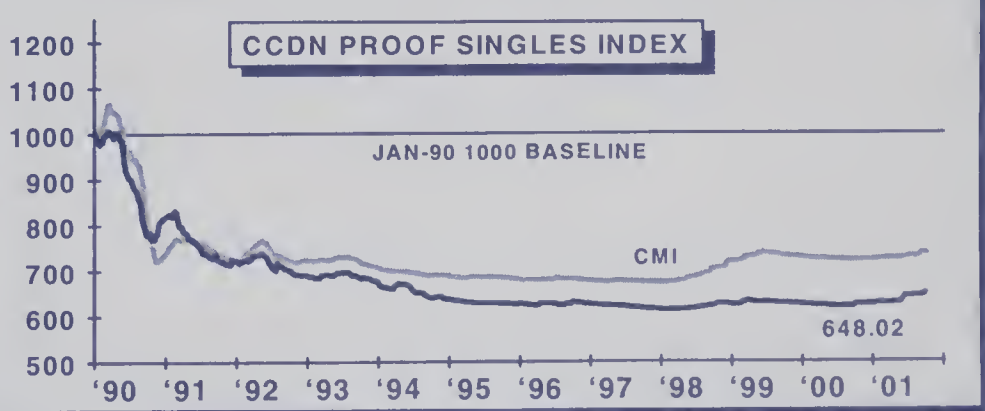

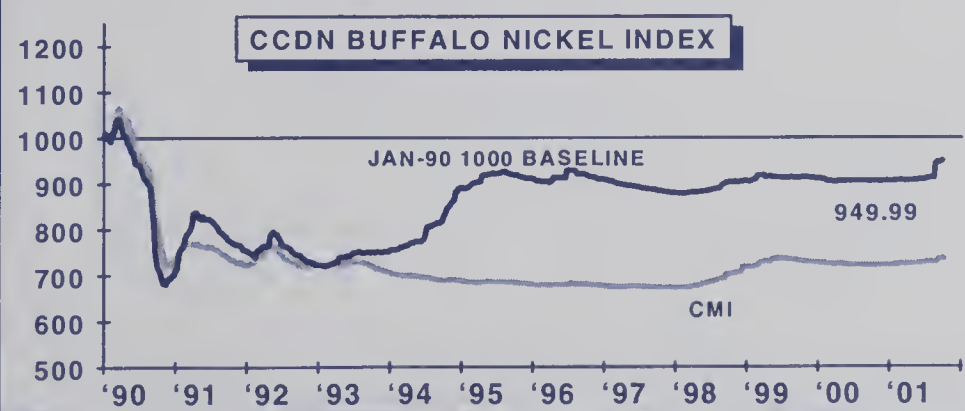

Silver Commems are also experiencing demand. Plus signs dot our chart this week as dealers look to add some examples in all Mint State grades. However, the concentration of Bidding is targeting the MS64 grade. Morgan and Peace Dollars are mixed this week. Still, interest for select dates remains a priority of most dealers. For example, plus signs are evident for two key dates, 1921 and 1934-S Peace Dollars in several Mint State grades. Buffalo Nickels continue to fetch increasing Bids but not to the degree that we had seen in previous months.

New York was the venue for Stack's 66th Anniversary Sale on October 16. The rare coins were consigned by the Strong Museum and featured Gold, Silver and Copper specimens. The sale realized more than \$1.584 million. Demand for fresh material was evident at this sale. We have listed a few of the certified examples.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequaled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

HOW COULD BEN FRANKLIN'S IMAGE BECOME TARNISHED?

The sad truth is, not even Ben Franklin can escape the ravages of time without the protection of Intercept Shield—an invention that surely would have delighted his scientific mind.

No wonder so many of the most knowledgeable collectors today depend on Corrosion Intercept* Technology. The most effective method ever devised to preserve the pristine condition of your collectibles, Intercept Shield provides state-of-the-art protection for gold, silver, copper, brass,

bronze and nickel. No spots, no tarnish, nothing to mar the quality of your coins or the value of your collection.

That's not just a promise. We have proof. Log on to our Web site and see for yourself—conclusive results of comparison tests.**

Then ask your local dealer for our museum quality albums, and the double protection box system like the one shown here. Every day you delay puts your collection—and your investment—at risk.

Discounting Has Its Benefits Dealers Prepare For November

October is rapidly coming to a close and dealers are trying to stay liquid as upcoming auctions near. An important collection of rare Gold coins will be sold October 29-30 in New York. Known as the "Dallas Bank" collection, it was put together by Texas oil man H. Jeff Browning and includes some of the most desirable Gold rarities known to numismatists. Since Browning had a discriminating eye, the condition of most of these coins is outstanding. The sale is being conducted as a collaborative effort by Sotheby's and Stack's. The past few weeks have been rather hectic, with a number of rare coin auctions having been completed surrounding the Long Beach Expo. This means that auction bills may be due or are coming due soon. Dealers need to be prepared to meet these financial demands and still be able to conduct business. Consequently, we are seeing a larger than usual number of discounts taking place in the **sight-unseen** market. These discounts are a direct result of auction prices realized and/or coins being offered for sale wholesale at much lower levels.

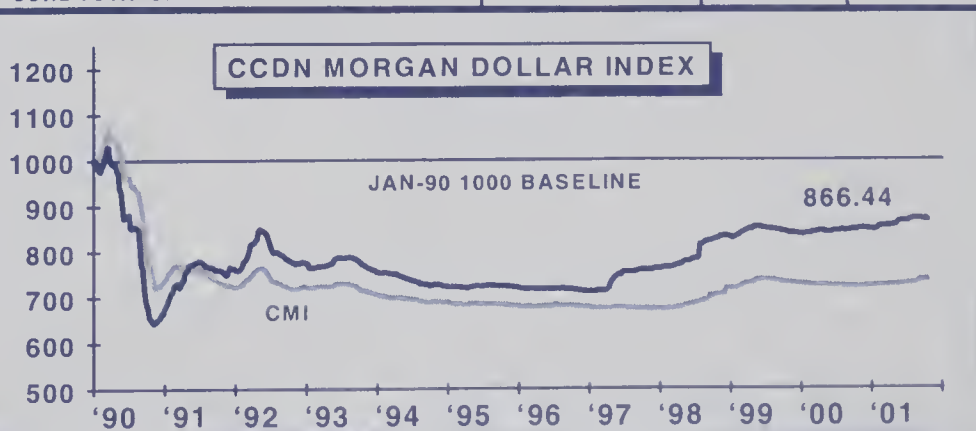

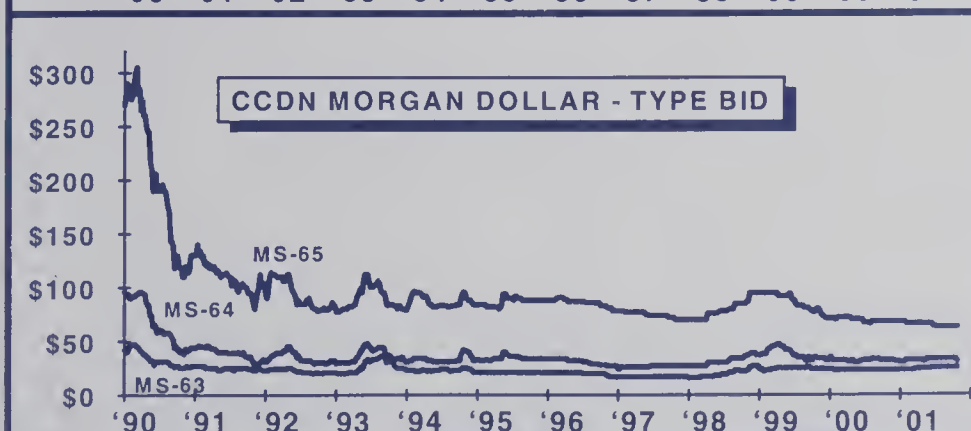

Dealers are being prudent concerning which coins they should sell at a discounted price. Many choose those coins that have remained in their inventory for a prolonged period of time. However, it is also important to eliminate those coins that have become out of favor with current collector/investors. Keeping one's inventory fresh with the hot coins of the moment is very important and just makes good business sense. It also means having the coins that are often requested by their customers. Dealers looking for instant cash will usually dump select rare coins at or near Bid. This usually provides them with a quick sale and necessary ready funds. Areas such as Gold, Buffalo Nickels, and Proof Singles have been receiving strong demand in the sight-unseen market and so

that leaves Mint State and Proof Type among others as prime candidates for discounting. Mostly, Mint State Type grading MS63 and better has been discounted. Proof Type declined in PR64 and better. Copper, Nickel and Silver Type denominations are all targeted. In addition, even Mint State Gold retreated a bit this week. Gold prices have declined because of some profit taking as well as a decrease in Gold spot. Another excellent avenue to explore for ready cash is found among the common dates of each series. These are coins that are nearly always available to dealers. So, selling quantities at Bid or less is a relatively easy pill to swallow. This week we see dealers offering common date, slabbed MS64 Morgan Dollars sight-unseen at \$33. A quantity of more than 300 coins is available at this level. These are mainly the common dates of the series pre-1921. There had been a previously high Bid at \$33 but the quantity available at this level is more than the buyer could absorb. Consequently common date Morgans have declined this week in MS64. Although some scarce date Morgans and Silver Commems were discounted resulting in minus signs, several plus signs can also be found among the Commems.

Meanwhile, Buffalo Nickels continue to post impressive results. However, even this series has seen some discounting take place. Strong Bids are maintaining levels for many of the tough early dates of the series. Plus signs are evident for select examples grading MS64 thru MS66. We do note that some minus signs have begun to creep into this popular series as well. Business strike Mercury Dimes and Walking Liberty Half Dollars have also seen some discounting this week. However, those struck in Proof scored some nice gains as seen in our Proof Singles charts.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks' sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing *last month*; "lt" Trade appearing *last month*; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PRESERVE THE VALUE OF YOUR COINS.

Threats to your valued coin collection are all around you, invading the very air you breathe. Now there's a way to combat those all-pervasive enemies—including two of the most common and potent gases, sulfur and chlorine. Corrosion Intercept* technology provides state-of-the-art protection unlike anything ever offered before. That's not just a promise,

it's a fact—proven in comparison tests.** Available only from Intercept Shield, this revolutionary technology instantly neutralizes corrosive agents and cleans the environment.

A permanent and irreversible chemical reaction renders the gases harmless.

Your Rarities Belong in Our Sale!

Consign Today to Bowers and Merena Galleries' January 8, 2002 Rarities Sale in Orlando.

Some of the greatest rarities in American coinage will be appearing in our first auction of 2002, and you are cordially invited to include your rare coins in that sale! To be held in Orlando, Florida on January 8, just prior to the annual Florida United Numismatists Convention, our *Rarities Sale* promises to be a numismatic event of great importance. Already consigned is

John Pack

the Dr. Roy Sturgeon Collection of large cents, and half cents, including over 50 1793 Liberty Cap cents, and several important NC Sheldon varieties. In addition, a fine selection of other world-class rarities that will insure intense interest in the sale are already consigned; a selection of these highlights is illustrated here.

Our *Rarities Sales* have become synonymous with great coins and equally great

bottom line results. We offer all the standard scenarios, including low commission rates and generous cash advances. Our authoritative and informative cataloguing results in research quality catalogues that reach thousands of potential bidders, the same bidders who make each and every one of our sales a memorable success!

Our *Rarities Sale* is limited to just 500 or so special coins, and the sale is filling quickly! Everyone wants their rarities—valued at \$2,000 or so per coin—in our *Rarities Sale*, and the reason is clear: "When great collections are sold, Bowers and Merena Galleries sells them." Consign now and let our success be your success!

Call John Pack or Rick Bagg today (1-800-458-4646) to reserve a special place for your coins.

3 MORE REASONS WHY NGC IS THE UNDISPUTED LEADER IN THE COIN GRADING INDUSTRY

The Certified Coin Registry

The Registry offers a dynamic system for collectors to enjoy friendly competition while assembling remarkable collections. The Registry's fair, expert and numismatically accurate ranking system is truly unique. It accounts for several important factors including grade, rarity, population and the NGC "star" designation for exceptional eye appeal. Accepting coins from the two relevant grading services NGC and PCGS, the Certified Coin Registry is the most inclusive program of its kind. Visit Collectors-Society.com for more information.

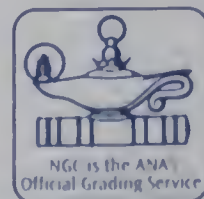

NGC's New Website

Visit NGCcoin.com to experience the most comprehensive numismatic website available. You will find the industry's only **free** access to Census information, spectacular images of coins graded by NGC and all the latest news. The new and improved NGC website is an invaluable tool for dealers and collectors alike.

The Industry's Best Holder Gets Even Better!

From NGC you've come to expect the most consistent grading the industry has to offer. Now we would like to introduce to you the perfect complement, NGC's **next generation holder**. Over two years of thorough research and development has resulted in the ultimate holder for certified coins. The highest quality, hermetically sealed materials create a solid barrier between your coins and the elements that can harm them. Now even more reason to make the #1 grading service your first choice. For more information call NGC Customer Service 1(800)NGC-COIN.

The Month Has Changed But Demand Hasn't

Replacing Inventory Becomes More Difficult

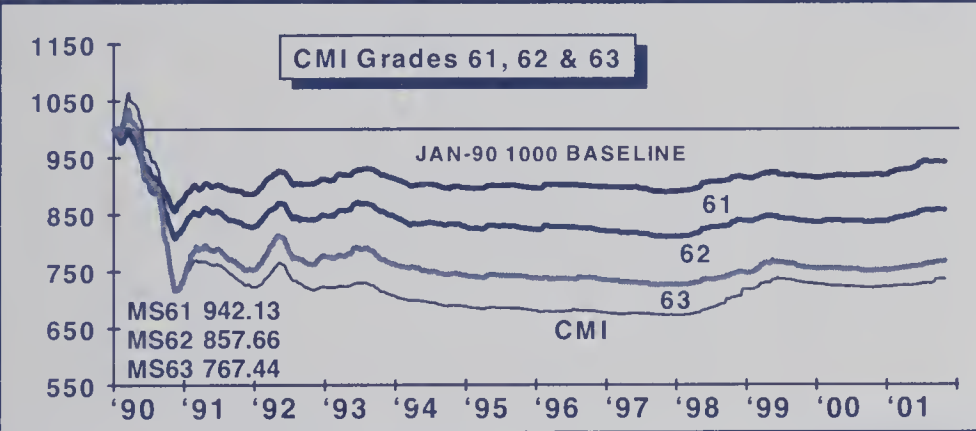

Dealers know that not everyone can be successful when Bidding at public auction. The recently completed Sotheby's and Stack's "Dallas Bank" collection auction found many buyers willing to pay six figures for a single coin. The \$7.77 million dollar sale in New York October 29-30 was even more impressive when you consider that the average lot realized more than \$12,800. Still, this sale is often far removed from the everyday collector/investor that most dealers encounter. Most dealers just go about their daily business trying to buy coins that are salable. They are also looking for interesting rare coins that will fit nicely in their customer's sets. At the same time, they try to buy coins that their customers can readily afford. Of course we know that occasionally a dealer has a customer or two with budgets that can support the high-priced rarities. Realistically, the general meat-and-potatoes buyer is looking for items that fit comfortably into his or her more moderate budget.

Today, dealers are telling us that they see the demand for professionally graded and certified coins increasing. Their customers are buying Mint State Gold and Silver Type and want the security and protection that these grading services offer. With the way things are today, e.g., anthrax scares and other concerns, it is understandable that buyers are looking for any additional security that they can find. Many dealers are trying to comply with the demands of their customers but the big problem is on the supply side of the equation. Dealers are trying to buy the coins that they need but there is not enough selection for them to choose comfortably. This is especially true for those dealers that need quantities of select material. We have been hearing that dealer's inventories have been picked clean in recent weeks. Restocking inventories today is becoming an increasing problem for all concerned. In most instances, dealers are willing to pay Bid for coins but that does not necessarily guarantee them success in today's fast paced marketplace. The pressures are building.

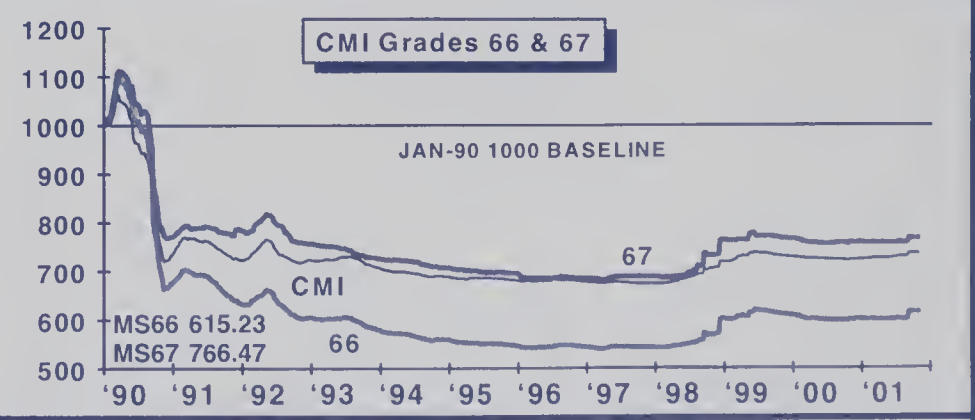

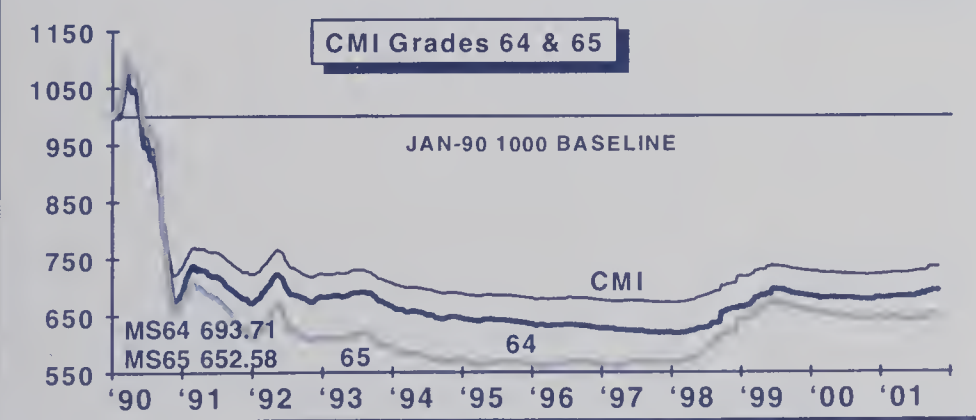

Bidding in the sight-unseen market is tough enough because many dealers are relying on the grade of a coin assigned to it by a professional grading service. Still, the ability to utilize their experience about each grading service allows them to make wise, sight-unseen Bidding decisions. Sometimes there are surprises but that could be good or bad. However, dealers tell us that they are often satisfied with the fruits of their labors. Competition is also an important factor to consider. The highest Bid may not be the highest quantity Bid. Quantities are important in this decision making process. It may be prudent for a dealer to sell a group of coins to a Bidder at a lower level because of his or her willingness to buy quantities at this price.

This first week of November finds dealers in need of coins similar to those needed in October. Buffalo Nickel buyers are displaying their continued frustration with another round of plus signs. Obviously, they have customers waiting for specific dates and trying to fill those orders have not been easy. Hopefully, they will be able to buy some keys and semi-keys without having to give up too much of their profit margin in the process.

Proof Gold has begun to gain interest. Of course, many examples have traded at public auction. Recent sales of \$4 Stellas at auction may be behind some of the increasing demand. We do see one dealer upping the ante for the common, Flowing Hair variety in PR63 for NGC or PCGS. However even at this higher level we probably will not see many offers. Also, slight increases are appearing on our Morgan Dollar chart for Deep Mirror Prooflikes. While the percentage increases are small, clearly the demand is growing. Selective demand is also evident in the Mint State Gold category. Those dates and denominations that are in favor are realizing strong jumps in Bid. Again, quantities become a key issue as few coins are available on the market. However we are sure many will be happy to take what they can get.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

Sight-Unseen Market Moves Higher

Proof Walkers And Mercs Steal The Spotlight

Dealers are pretty surprised about the good health of the current rare coin market. The economy continued to weaken so most expected demand to be flat but that just did not happen. These dealers have been very busy trying to fill existing orders and new orders from customers. That is because collector/investor demand is strong and is gaining strength. This demand is coming from collectors that have been around the hobby for many years. These seasoned collectors are exploring new areas of the market as well as upgrading and adding to those series and areas that they have a strong interest in. However, dealers are quick to point out that the financial health of these buyers remains sound despite the decline in the economy and equity prices. Many of these buyers are professionals with enough funds to allow them to pursue their interests without having to curtail their "hobby" buying. While this buying is good for the overall rare coin market, it's the combination of those buyers along with new collectors to numismatics that has put a charge into demand. The circulating State Quarter Commemorative program, along with the Sacagawea Dollars are doing their part in introducing people to coin collecting.

Dealers tell us that like the veteran collectors, some of these new collectors are now moving into other areas of the rare coin market. They say that they are now seeing a percentage of these new collectors trying to branch out into more traditional areas. It is this kind of demand and expanding collector base that has dealers feeling extremely optimistic about the hobby's future. Some new buyers are already working on Mint State and Proof Type sets while others are content to work on completing different series by date. While this scenario is good for dealers that have large inventories it is not easy for those that need to buy coins for inventory or replace the ones that are sold. The problem of finding enough fresh material to meet the demand is not a new problem but it certainly is a concern of those trying to succeed in a strong market.

We have monitored a situation where demand is targeting certain series and areas of the market. The need to raise Bid nearly every week points to the strong demand coupled with supply problems. Again this week, Proof Singles are realizing heavy demand in the sight-unseen market. The past year has demonstrated that Proof Mercury Dimes and Proof Walking Liberty Half Dollars are

favorites among collector/investors. When you examine the entire date run of business strikes of each of these series, the similarities help point to continued strong demand. Each series features popular designs with collectors. Each series offers scarce dates and challenges to the collector/investor interested in future price appreciation. Each series begins in 1916 and ends in the mid-forties. There are many other similarities but it is also noteworthy that each series has had Proof coins mainly struck from 1936-1942. These are the Proofs that demand has been chasing and pushing higher this year. If a new collector wants a well-struck example of these popular designs, one that shows all the detail of the original design that the artist intended, than a Proof example is the way to go. Consequently, we are not surprised to see dealers rushing to buy quality examples of these Proofs. Our charts show how this powerful demand has translated into

some hefty profits for some during the past year. Also keep in mind that during the last year there hasn't been too many other investment areas that have fared much better. Importantly, our charts also show that the coins that achieved such healthy gains were rather affordable for most collector/investors. They

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, one of the largest transactions in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Over 100 Dealers Have Signed on With NCS.

Here are Just a Few Reasons Why...

"The Authority in Numismatic Conservation"

"NCS offers services that are exactly what the coin industry and my clients have long been needing. I have used NCS numerous times and have yet to be disappointed. My clients are thrilled that they can now have their collections properly conserved as needed and desired, thus maximizing the salability and value. I highly recommend them!"

Rick Tomaska

Before NCS

"A brilliant concept! My clients demand attractive coins. By using NCS, I have converted many less attractive coins in my inventory into highly saleable items. It is especially comforting to know that with NCS's grade protection option, I can eliminate most of the risk that I would have if I were to perform the necessary conservation techniques myself."

John Feigenbaum

After NCS

"A gaping hole in the coin business has been eliminated. I have had one major collection conserved and many other single items from my inventory and the results have been astounding. NCS helps me to keep more of the profits where I most need them, in the pockets of my clients."

Larry Hanks

"I must admit my initial skepticism, but in seeing hundreds of NCS conserved coins I am 100% confident in the quality of their work. My favorite aspect of this is that through NCS's affiliation with NGC, I can now, in one seamless effort, have my coins conserved, graded, and entered into the NGC registry."

Powerful Results For Walking Liberty Short Set Sight-Unseen Bids Remain Strong

Time is growing short. Dealers trying to locate specific want list coins for their customers have to hurry if they hope to be successful by Christmas. It has been somewhat of a struggle to find quality coins for much of this year. Dealers have told us repeatedly how difficult it has been to locate and buy fresh material. It is already mid-November where the days are shorter as is the time to find this badly needed material. Dealers still remain optimistic that things will improve. As this is being written, the November 16-18 Santa Clara Expo has attracted many dealers trying to buy these very coins. However, dealers do tell us that this is an excellent show for retail sales as well. This strong demand for coins has certainly spilled over into the sight-unseen market this year. We continue to see dealers willing to support the current Bid at levels that are higher than we saw even a few months ago.

This week's highlight in the sight-unseen market is the late-date Walking Liberty Half Dollars. The chart at right lists the later dates, from 1941 thru 1947, also known as the short set. These dates have been strong for months now as we have noted in the *Greysheet*, representing the sight-seen market. This series is extremely popular because of the availability and affordability of all the dates that comprise the short set. Also, the design of the Walking Liberty Half has been a favorite of many a collector. Probably the biggest surprise comes from the spectacular gains that this series has had in just one year. Individually, some of the dates achieved better than 100 percent with others also realizing outstanding percentage gains. Our chart indicates the fabulous results of this small portion of the Walking Liberty Half Dollar series. What will happen to prices of the other dates when these collectors attempt to expand their collections? Yet even with tremendous increases seen in the past year, Bid for an MS66 short set is still less than \$10,000. This is true for NGC or PCGS coins. As supplies of quality, late-date Walkers continue to remain insufficient to keep pace with demand, Bids may be forced even higher. Collector/investors that were able to buy a few of these examples earlier in the year are certainly smiling today. Dealers are also happy to see their customer's investments do well at a time when most investments have been strained.

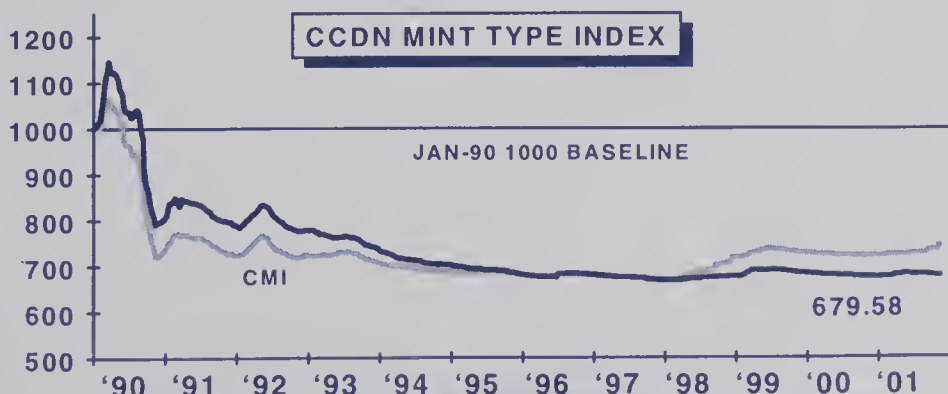

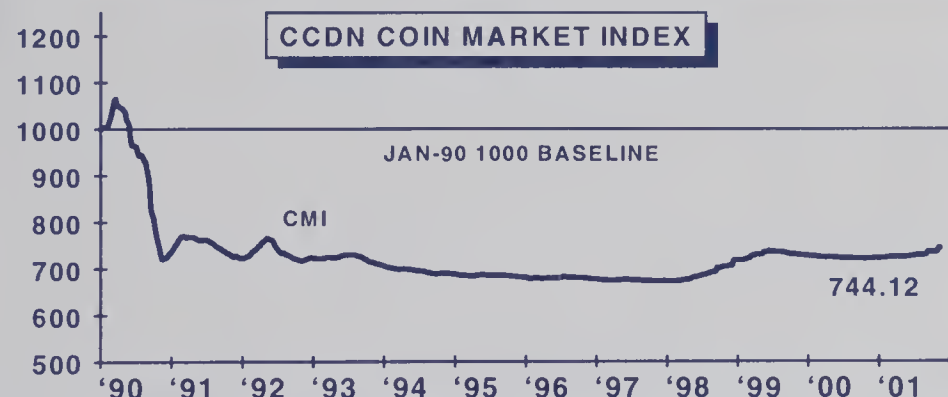

There is life besides Walkers. We know that the sight-unseen market remains solid at current levels for many series with select

areas increasing. Yes, there are some pockets of discounting emerging but the demand still outweighs those few areas of weakness. The classic Silver Commemoratives are a perfect example of the strong supporting, sight-unseen Bids being seen on the electronic dealer trading networks. Gold Commems have achieved even greater success with strong Bids forcing prices higher for many months this year. Currently, dealers still find themselves in a situation where demand has not yet been satisfied. Bids remain intact at current levels with orders still going unfulfilled. Proof Type is displaying plus signs for Nickel coins, with the majority of demand after those grading PR64 and better. Morgan Dollars are also solid at current levels. Like the Silver Commems, they also have their pockets of discounting but generally, the collector/investor base that supports

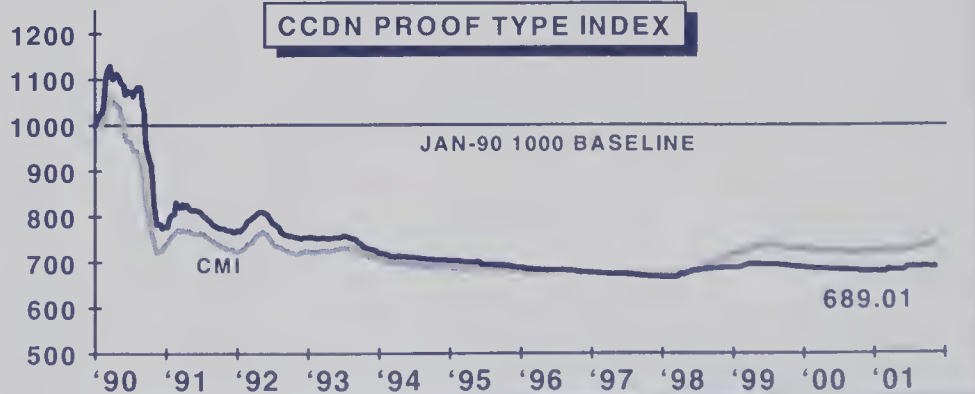

this segment of the market is still very strong. Indeed, a world record price of \$414,000 was paid for a Gem BU 1893-S at Stack's Nov. 12 auction in New York.

Mint Gold Type continues to be weak with lower bullion Spots contributing to the lethargic nature of the Bids. This is in extreme contrast to the powerful Bidding that took place not long ago. Minus signs are evident on our sheet with weakness especially noticeable among the lower Mint State bullion sensitive grades. We do point out that there is some strong sight-unseen Bidding occurring for select MS65 Saints.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

OUR NEW CATALOG IS THE STUFF DREAMS ARE MADE OF.

Only The Rarest. Only The Finest. Our Latest Offerings Are A Buyer's Dream Come True.

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

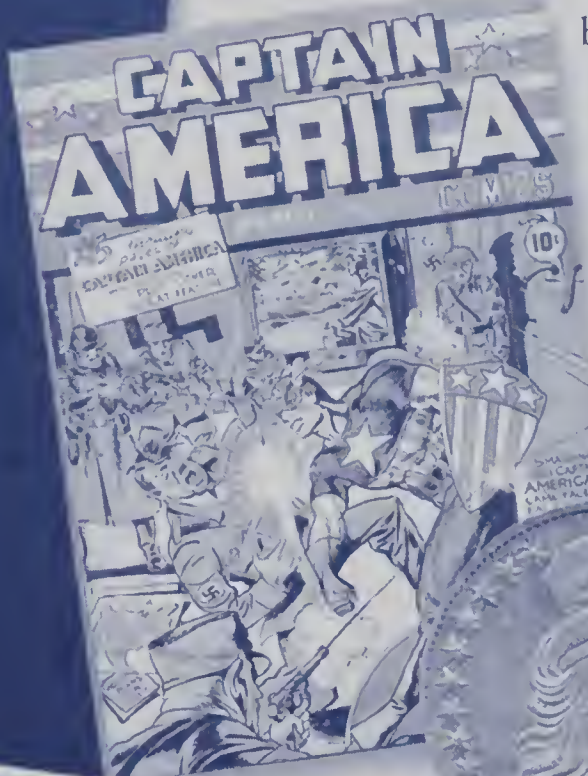

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

We've reserved a copy of our new catalog for you. To receive it, call 1-800-280-4726, or write us at PO Drawer 9326, Kansas City, MO 64133.

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2ND EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."

— Hank Gilman, Business Editor, *NEWSWEEK*

"If making money by buying and selling coins is your game, Scott Travers' *How to Make Money in Coins Right Now* is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."

— Beth Deisher, Editor, *Coin World*

"The most valuable book ever written on how to profit from coins."

— Ed Reiter, Senior Editor, *COINage* magazine

"A revolutionary book."

— Armen R. Vartian, Legal Counsel, *Professional Numismatists Guild*

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."

— Maurice Rosen, *Rosen Numismatic Advisory*

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

HOW COULD BEN FRANKLIN'S IMAGE BECOME TARNISHED?

The sad truth is, not even Ben Franklin can escape the ravages of time without the protection of Intercept Shield—an invention that surely would have delighted his scientific mind.

No wonder so many of the most knowledgeable collectors today depend on Corrosion Intercept* Technology. The most effective method ever devised to preserve the pristine condition of your collectibles. Intercept Shield provides state-of-the-art protection for gold, silver, copper, brass,

Demand Forces Sight-Unseen Bids Higher Off To Baltimore

Many dealers have returned from a successful Santa Clara Expo held November 16-18 in California. However most dealers are still in need of material for various reasons. And, the Suburban Washington/Baltimore Coin Convention scheduled for November 29 thru December 1 is just the venue that dealers need. This year's convention has all the hallmarks of super show. The Bowers and Merena auction to be held November 29-December 1 in conjunction with the show is highlighted by the Adams-Carter-Flannagan Restrike specimen of the Class III 1804 Draped Bust Dollar. The publicity surrounding the sale of this King of American Coins should make for an exciting show with strong public attendance.

A few certified highlights from the Phillip Flannagan Auction by Bowers are included.

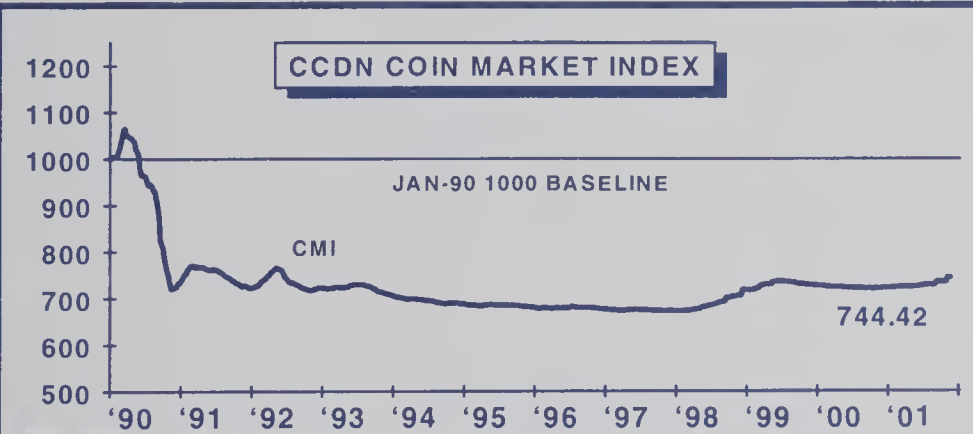

The rare coin market has done rather well in the face of a weakening economy and war-time jitters. We also know that dealers are still in desperate need of material in order to meet today's strong demand. The **sight-unseen** market is continuing to do very well in selected areas. As always, dealers continue to point out that the key dates and semi-better dates of all series and denominations are the most sought-after. This strong demand for coins has made it necessary for some dealers to substantially increase their sight-unseen Bids. One east-coast dealer that we spoke to is very upbeat about the current market. The strong, wholesale demand for Gold coins is the main reason behind his increased Bids. He says that coin dealers are aggressively buying his stock at shows and on the electronic dealer networks. Gold is selling so well it just "flies out the door." The lower Mint State grades seem to move the quickest as they are the most affordable. Also, buying sight-unseen has its benefits. This dealer is often amazed when he receives a few exceptional

quality coins in the mail. Generic Gold in grades from MS61 thru MS63 is very salable in today's market. Often, quantities are needed in these grades but the buyer is happy to take what he can get. Interest is seen for Type I and III of \$1 Gold in MS61 thru MS64 this week, with plus signs as a result. Even the most common dates of this small Gold denomination are scarce. Collector/investors working on U.S. Gold Type sets are always looking to include these small beauties. Still, other denominations increasing this week are the \$2.50, \$5 and \$10 in both Liberty and Indian design. These popular designs are nearly always in demand and especially today with so many newcomers entering the market.

Plenty of other areas besides Gold are making some noise this week in the sight-unseen market. It is no surprise that Buffalo Nickels are among the areas receiving increasing Bids. We have noted the increases in this popular series throughout the year. It is well known that Buffalo Nickels are among the favorites of collector/investors. Consequently, dealers are always looking to buy examples for their inventories as well as their customer's want lists. However, it has been a struggle this year as supplies of these Nickels are not able to keep pace with the exceptional demand. Again, it's the key and semi-key dates that are the most sought-after in this relatively short series. Dealers are looking to obtain those difficult to find early Denver and San Francisco Mint issues. By early we mean those dates from 1913 thru 1927. Demand seems to be heaviest at the MS65 level with MS66 examples also welcomed. At this high grade level, the pickings are rather slim for dealers hoping to buy any of these coins in quantity.

Walking Liberty Half Dollars is another series that has witnessed strong demand this year. This week we see more of the same with dealers trying to buy select dates to meet the needs of their customers. Besides the strong demand for the later dates we see interest for the 1917-D Obverse rarity in MS64 and MS65. Proof Singles have once again become the target of strong dealer, sight-unseen Bids. Our chart reflects this strength by the large number of plus signs in denominations from the Nickel to the Half Dollar. Several of the Bid increases are rather hefty.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Grevsheet) Bids have always represented fully, deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

There are just a few slots left for Superior Galleries' "Elite" Sale to be held in Orlando, Florida on January 9, 2002, the opening day of the Florida United Numismatists Convention. The sale will be held at the Rosen Centre Hotel, 9840 International Dr., Orlando FL 32819 in Salon 1 at 9:30 am. This sale will consist of just 500-600 lots of the most desirable rarities.

Remember, when you consign your coins to a Superior Galleries Sale they will be presented in *our award winning catalogues* prepared by *our published and award winning photographer*. The catalogue will be sent to our vast client base of collectors, investors, entrepreneurs, dealers and others.

Your coins will be catalogued by our in-house experts so as to present them in their **"Best Light"**.

Our partnership with eBay will also allow their **22 million eBuyers** a chance to view and **bid on the internet "LIVE"** with the floor bidders creating even more interest on your coins.

When you have made the decision to market your coins or collection, we have made it very easy for you. We can have you ship them to us and **we pay** for the shipping and insurance or if your collection warrants, we can visit you within a 48 hour notice.

**So Call Now to Consign to Superior's "Elite Sale",
consignment deadline is Nov 30, 2001.**

**Our rates are the most competitive
and our service is the BEST.**

Walkers & Proof Singles Dominate Holiday Calendar Keeps Dealers Busy

This is a very busy time of year for dealers. On the one hand it is a time for holidays and family to receive much attention, while on the other hand the pace of the rare coin market increases. Dealers are trying to juggle their schedules so that they can accommodate all the demands of both family and business. As December begins, many dealers find themselves on the east coast where Winter is just around the corner. The November 29th through December 1st Suburban Washington/Baltimore Coin Convention is in progress with dealers trying to capitalize by being a successful Bidder at the Bowers and Merena auction as well as on the bourse. Even though not everyone can own an 1804 Draped Bust Dollar, auctions can provide those difficult to locate key and semi-key dates that look really good in inventory or that can be instantly sold to a customer. Of course, competition has been stiff this year as everyone seems to be after the same kind of material. Still, some dealers are choosing to stay at home for one reason or another. Dealers that cannot travel from show to show as often or are determined to spend some time home for the holidays can also participate in the market. Transactions are constantly occurring due to the electronic dealer trading networks. The overall sight-seen market has been doing well and the same can be said about the sight-unseen market. The **sight-unseen** rare coin market has been **extremely active** this year with many segments of the market on the move.

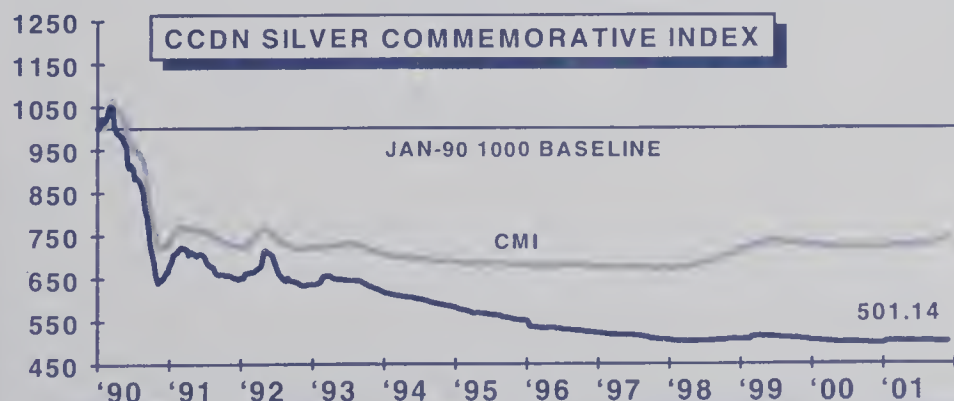

During the previous two months, select segments of the sight-unseen market received quite a bit of attention via dealer Bids. While a cross section of the market finds Bidders for coins here and there, several areas of the market became dominate. Mostly Silver Commemoratives; Buffalo Nickels; Walking Liberty Half Dollars; and, Proof Singles have captured the attention of Bidders on regular basis in September through November. As we begin December, demand for rare coins among these segments

continues unabated. The increases are highly visible by the myriad of plus signs appearing, however, many other Bidders continue to post strong supporting Bids at the current levels while still others offer Bids near those levels. Unfortunately for many Bidders, just the act of posting a strong Bid does not guaranty success. That is why some of these segments continue to be sought-after, week after week. Still, persistence usually pays off as price increases eventually go a long way in persuading holders of these coins to part with them.

This week, Silver Commems are sporting several plus signs. Bidders are looking for Uncirculated coins grading MS63 and better. They say that many collectors are moving into this area and are buying. Morgan Dollars are rather quiet with Peace Dollars capturing some Bidder's attention. In this series, it is very clear to see Bidders targeting the key and semi-key dates. Mint State Gold is mixed as the Spot price of Gold is lackluster at the present. Buffalo Nickels have few plus signs this week, a surprise, but strong supporting Bids are quite evident. And, collectors are waiting to buy examples for their collections. Like last week the Walking Liberty Half Dollars and Proof Singles portion of the market are stealing the excitement and Bids this week. One look at the number of plus signs on both charts and you can get a clear picture of the current demand. The bulk of the current demand is targeting the late dates in MS65 and better grades. One dealer said that late-date Walkers usually come very nicely struck with brilliant luster. Consequently, he has no problem Bidding **sight-unseen** for these coins. Early dates are also desired but much more difficult to locate. Increases for Proof Washington Quarters and Proof Walking Liberty Half Dollars are seen all over our chart. Again like late-date Walkers, quality Proof 64 and better examples are highly sought-after by dealers.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Discounting Combines With Strong Bids In December Proof Singles Are Hot

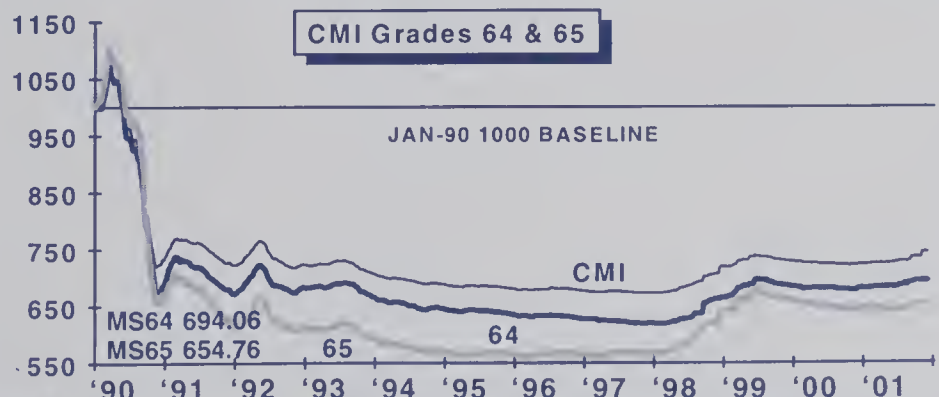

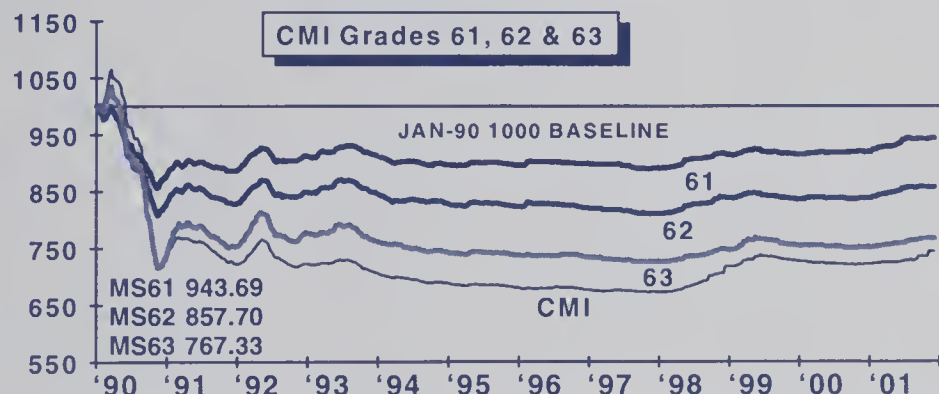

The rare coin market in early December is already off to a good start with much optimism in the air. The optimism was probably supercharged in Baltimore with the auction sale of an 1804 Draped Bust Dollar for \$874,000. The PCGS PR58 Class III specimen was part of \$6.35 million sale by Bowers and Merena of the Phillip Flannagan collection. Yet all the good in this market is not without some troubles. Inventories are seriously depleted as dealers have been forced to sell many coins from their stock to meet the strong demand facing them. Of course they are still constantly trying to buy coins to replenish those voids in their inventory but buying rare coins today has proven to be very difficult. This scenario was magnified during the Suburban Washington/Baltimore Coin Convention. This is usually a very good east coast show for dealers. Most of them attend this show to load-up on coins prior to the Christmas holidays and for the Florida United Numismatists show in Florida scheduled for January. They want to start the new year out right. However the material needed that adorns their customer's want lists are not easily found. Still, the November 29th thru December 1st show proved to be a winner for most of the dealers in attendance even though retail traffic was down a bit. There are many signs pointing towards funds pouring into the rare coin market. Dealers have told us that they have many well-heeled customers waiting on the sidelines ready to put serious money into the coin market. Dealers are usually excellent at anticipating the demand and are continually trying to have their inventory expanding in the right direction. Unfortunately dealers know that the current shortage of the right material is directly responsible for their inventories getting smaller and smaller during the latter half of this year.

The sight-unseen market has been caught right in the middle of this ongoing battle for rare coins. Dealers are trying to sell the coins that are out of favor at the moment. They need additional funds to be able to pay the strong money required for the right material. Auctions are one of the avenues that is taken to sell stock quickly. At a few recently completed auctions, we have seen discounting occurring in several areas of the market. Dealers know that it is very important to stay liquid and have sound cash flow in these times. They have to be ready with cash to take advantage of coins when they become available. They need to be able to supply their customers with the coins they want as soon as

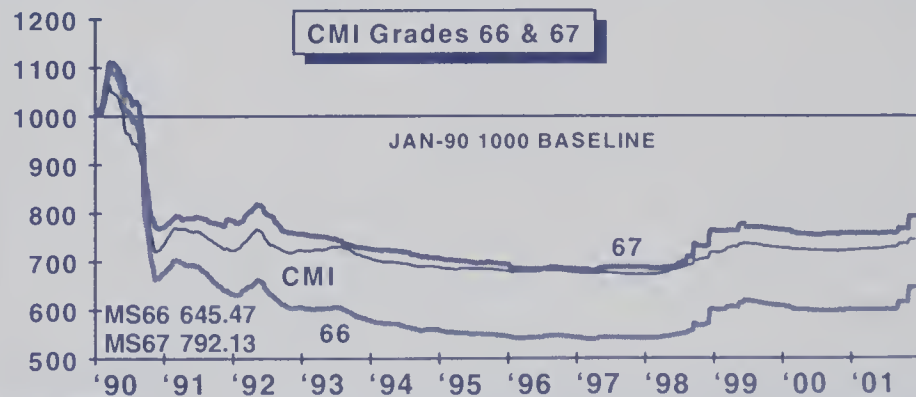

possible. This is a simple formula for success if they are to maintain their customer base and even expand their business. Unfortunately that's often easier said than done. Dealers have continued to utilize the sight-unseen market to buy material. Sure, they know that **not** all the coins will meet their customer's strict requirements. However, they also know that enough quality coins are being bought in the sight-unseen market to make it worth their while. This week, strong sight-unseen Bids have been placed for select dates from several series graded and certified by PCI. Again this is a perfect example of the strong demand for material that we see today. Increases are seen for Buffalo Nickels, Mercury Dimes, Walking Liberty Half Dollars, Morgan Dollars and Peace Dollars all grading PCI MS65.

Strong demand coupled with some discounting has also been seen in the sight-unseen market for NGC and PCGS coins. Discounting is evident as dealers look to unload the coins that have been a little difficult to sell. Buffalo Nickels and Proof Singles share center stage this week. Dealers are still trying to track down some of the tough key and semi-key dates of the Buffalo series. Quality is important as dealers are targeting MS65 and MS66 graded examples. Also, Bid increases continue for Proof Washington Quarters and Walkers in PR65 and better. Collector/investors are eager to buy, but again in what seems like a broken record, the right material is just not as available. It really comes as no surprise as collector/investors have enjoyed tremendous success in these popular series throughout 2001.

THE MOST MONEY THE LEAST HASSLE

If you have coins to sell, it's time to call SPECTRUM!
Dealing with SPECTRUM means more money and
less hassle for you, and here's why:

SEE US AT ALL
Major Shows

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

Dealers Position Themselves For New Year

Proof Singles, Buffalo Nickels Finish The Year Strong

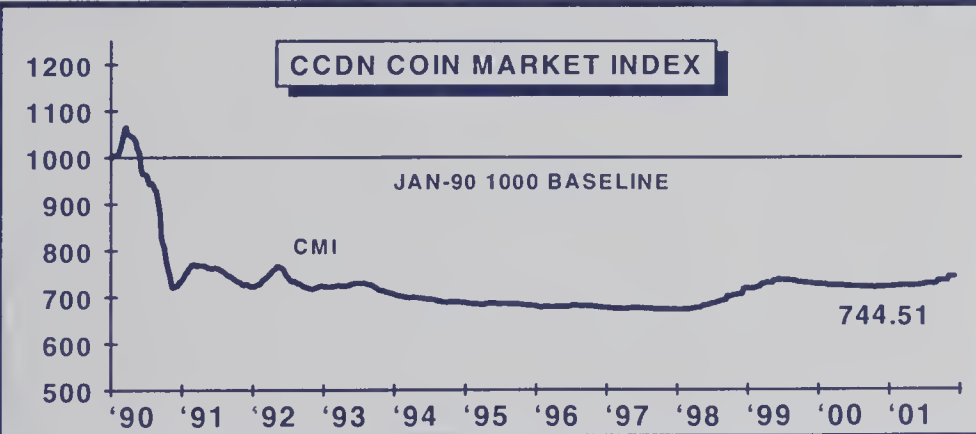

Last week we wrote about areas of the sight-unseen market realizing some discounting and this week that scenario is continuing, but not with the same intensity. With the year winding down it is understandable that dealers are trying to close the books while being in a good cash position. It is always nice to start out the new year with funds available. Consequently we see some more discounting taking place in several areas including the classic Silver Commemorative series. This shouldn't be misconstrued because the Silver Commems are one of the strong areas of the market. Collector interest in the Silver Commem series appears to be growing. Indeed, some dealers consider a number of Commems to be rather undervalued. So, we look for these minus signs to be just a passing lull in an otherwise robust Silver Commem market. Gold Commemoratives have maintained their strength throughout the year, even if there are no plus signs every week. As we reach mid-December, Gold Commems are still receiving solid sight-unseen supporting Bids at strong levels.

What's up with Dollars? Morgan Dollars have been very popular with collector/investors for many years. Still, December has been a quiet month for these favorites but don't let the lack of plus and minus signs fool you. There are many collectors continually working on Dollar sets, willing to spend major bucks at any time to obtain the dates that they need. However, because dealers usually have sufficient quantities of Morgans it makes them an easy target for discounting when money needs to be raised. Although the common dates remain lackluster in most Mint State grades, the Carson City and other tough branch Mint issues still receive supporting Bids for this popular group. Consequently, many key and semi-key dates are sought-after by dealers so they can fill some orders from their customers. In all, the sight-unseen market for Morgan Dollars remains relatively quiet as we close out 2001. Peace Dollars have been trying to climb out of a rut for some time now. We have seen some interest as dealers increase their Bids for select dates. The activity is targeting the semi-key dates in the MS63 and MS64 grades. Unfortunately the increases are on the extremely light side but these

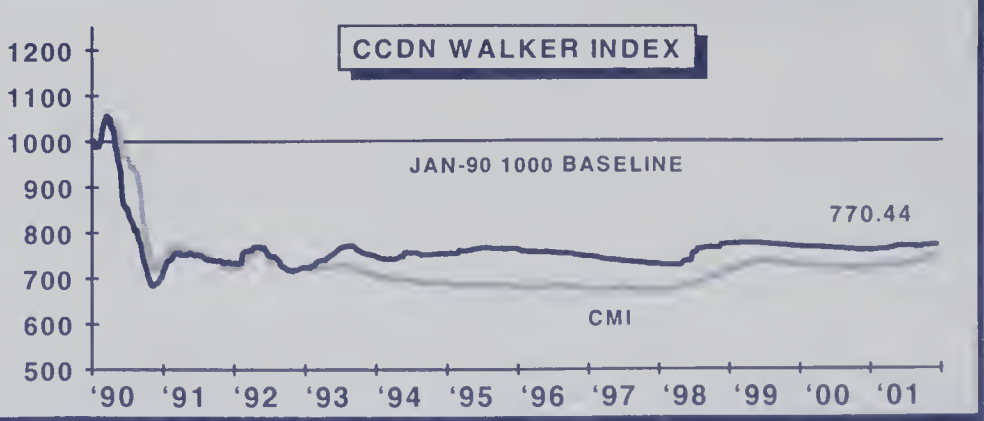

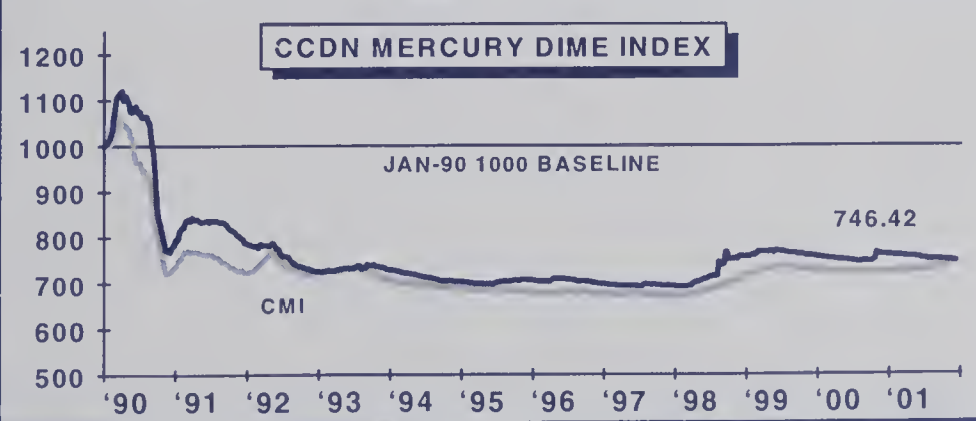

rumblings could blossom into a strong move if supply is unable to keep pace with this specific demand. Dealers have told us that Peace Dollars in MS65 and better condition have been soft with not many willing Bidders eager to jump out and support those higher priced issues. Just examine the percentage increase in price from grades MS64 to MS65; MS65 to MS66; and, MS66 to MS67 for a quick explanation.

I know it may seem repetitious but the Buffalo Nickels and Proof Singles are at it again this week. The collector/investor demand has yet to be satisfied and dealers have little choice but to increase their Bids again this week. The Buffalo series has been among the most popular this year with dealers having a difficult time filling their customer's want lists. Collector/investors like to buy Buffalo Nickels because many of the scarce key and semi-key dates are very salable in good times and bad. As they have done in the latter half of the year, dealers are looking to increase Bid in MS65 and MS66 for various dates in an effort to secure a few of these jewels. Many of these coins are selling in a range from \$1,000 to \$10,000. Dealers still believe that these dates represent an excellent value even though the price has been increasing. The value can be seen when you examine the large increase from one grade to the next. For example, the key 1926-S is now Bid at \$4,420 in MS63, which may seem like a lot until you realize that by MS65 its Bid rockets to nearly \$30,000. Proof Buffalo Nickels are also scoring strong, increased sight-unseen Bids as well. Proof Singles continue to garner the attention of dealers along with their increased Bids. Like the Buffalo series this has been occurring for some time now. This week plus signs can be seen for the early Walking Liberty Half Dollar Proofs from 1936-42. Bottom line, demand remains strong for Proof Singles as we close out 2001.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the deep-mirror Proof Dollars.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

HOW COULD BEN FRANKLIN'S IMAGE BECOME TARNISHED?

The sad truth is, not even Ben Franklin can escape the ravages of time without the protection of Intercept Shield—an invention that surely would have delighted his scientific mind.

No wonder so many of the most knowledgeable collectors today depend on Corrosion Intercept* Technology. The most effective method ever devised to preserve the pristine condition of your collectibles. Intercept Shield provides state-of-the-art protection for gold, silver, copper, brass,

bronze and nickel. No spots, no tarnish, nothing to mar the quality of your coins or the value of your collection.

That's not just a promise. We have proof. Log on to our Web site and see for yourself—conclusive results of comparison tests.**

Then ask your local dealer for our museum quality albums, and the double protection box system like the one shown here. Every day you delay puts your collection—and your investment—at risk.

THE RAREST AND THE FINEST

Jay Parrino's The Mint is unlike any other source of collectibles. We limit our offerings to only the rarest, finest and most desirable examples of classic United States coins, currency and comics. That's what you will find in our brand new 200-plus page catalog. Every item has been hand selected by Jay himself and certified for grade and authenticity by independent third party services.

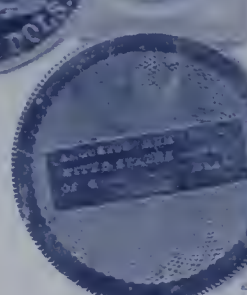

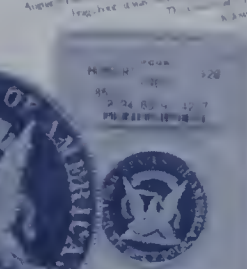

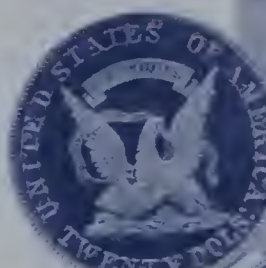

At Jay Parrino's The Mint, we follow a simple rule: You never go wrong owning the best. It only makes sense to acquire collectibles of documented authenticity and exceptional quality from a firm built on unequalled market knowledge and a solid financial base. It's an approach that has served our buyers well for over forty years.

If you're looking for something special, you will find it in our new catalog. With our uncompromising inventory, 90 day interest free financing, and our generous trade-in policy, we can make your collecting dreams come true.

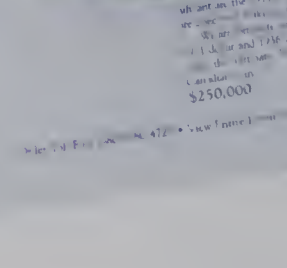

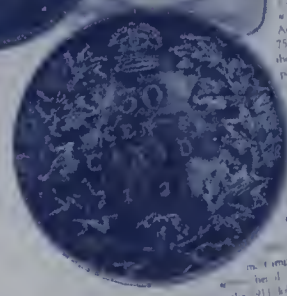

We've reserved a copy of our new catalog for you.

Buffaloes Charge Thru December New Year Holds Much Promise

This is the last issue of the Certified Coin Dealer Newsletter for 2001. The next issue will be dated January 4, 2002. The CDN family of publications would like to wish you and your family a safe and joyous holiday.

As we close out the holiday season, many dealers will be traveling to Florida to attend the 2002 Florida United Numismatists Convention and Show in Orlando January 10-13. This usually active and well-attended show offers dealers some market insight for the new year. Most dealers that have this show on their schedule are optimistic about the show and the new year. At this show and public auctions, they will be looking to buy and sell coins to satisfy their customers' want lists as well as their own inventory and business needs.

Isn't it fitting that the last *Bluesheet* issue of 2001 should end on a positive note for the Buffalo Nickel series? Those that have been following this series throughout the year know how many times strong demand has forced Bids higher. And, this final issue of the year depicts increased Bids once again for this very popular series. As you look at the chart for Buffalo Nickels you will notice a number of plus signs. Yes, the increases this week are small, but hopefully the higher Bids will induce someone to sell a few at these attractive levels before the year ends. Obviously past increases have failed to supply the quantities of examples needed by dealers. So as often happens, a dealer is forced to increase his or her Bid again hoping for success. Dealers are looking to buy these coins because they believe that they are undervalued compared to their rarity and condition. However, they also know that many collector/investors are working on sets of Nickels and consequently, they have a ready sale when an example is located and bought. Many of the Buffalo Nickels realizing increasing Bids are the tough to find Denver and San Francisco Mint semi-key and key dates. We are especially writing about those examples from the teens and the twenties.

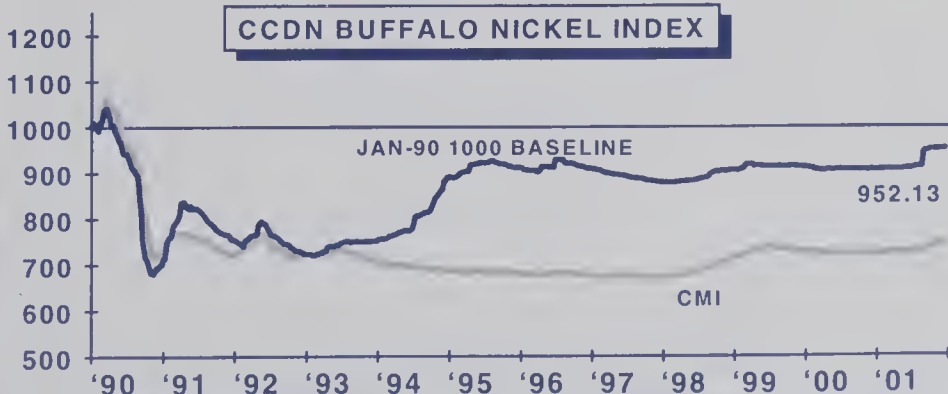

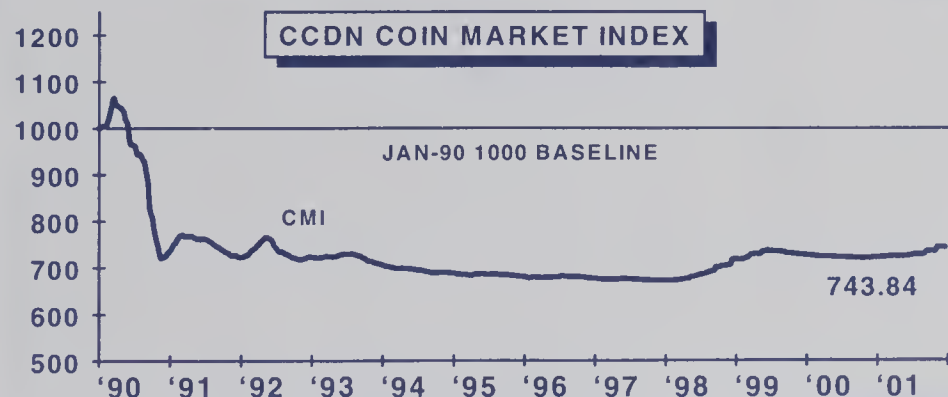

The Mercury Dime series also has a popular design but this series has not had the success that we have seen for the Buffalo Nickels. However, we do notice that more and more supporting Bids are occurring for select Dimes at current levels. Also, this series may appear attractive to some collectors looking to hop on board before it takes off. Still, the lack of plus signs mean that there is not enough buyers at current levels to support higher prices. Of course, we know how quickly that situation can change. Walking Liberty Half Dollars continue to ride high with strong interest throughout the series. We are seeing spirited interest taking place among the more difficult to locate early dates of the series. There are some serious collectors working on high-grade sets and it takes deep pockets to complete one in MS65 or better. We certainly

want to mention the amount of patience it will also require to complete such an ambitious undertaking. Overall this series is receiving strong sight-unseen Bidder attention.

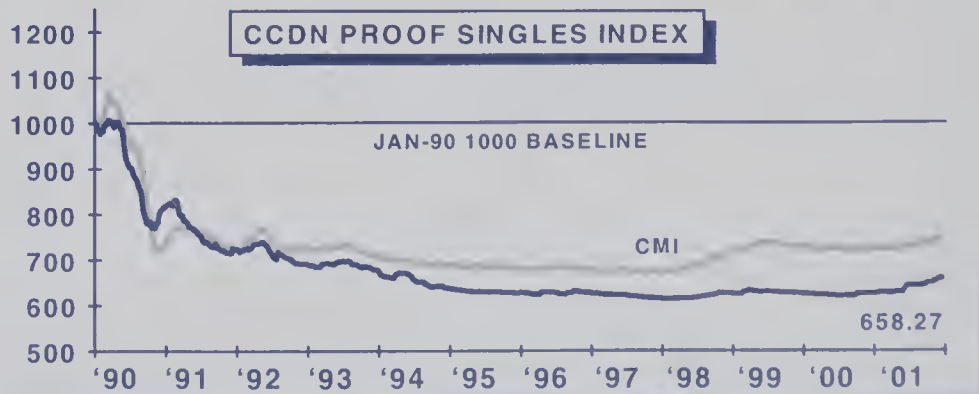

Morgan Dollars have been a bit disappointing over the last few months. Most of this disappointment is seen on the generic end of the market. This week, we see common date MS65 Morgan Dollars Bid at \$60 and \$62 for NGC and PCGS respectively. At some point, you would think that someone is going to see value here and begin to increase Bid. Until that happens, common date Morgans in MS63 thru MS65 can make a nice, affordable gift for anyone new to the hobby, especially at these levels. However, we know that the market for key date and semi-key date Morgans tells a different story. One dealer has posted a \$150,000 sight-unseen Bid for NGC or PCGS 1889-CC Morgan Dollars in MS65. This is one of the keys to the Carson City set as well as being one of the keys to the entire Morgan Dollar set.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The Coin Collector's Survival Manual – Fourth Edition
by Scott A. Travers

**BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN
BUYING AND SELLING FOR AS LITTLE AS \$18.95.**

"This is the book about the coin business you can't afford to be without." - **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED SIX-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the fourth edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

- **How not to get ripped off if you buy coins through the mail or over the Internet**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and safe—as well as the right storage method
- A review of some Internet web sites, with a legal analysis
- Requirements of the FTC telemarketing act
- The real facts behind the toning corrosion controversy

NEW information in the fourth edition:

- **Courageous information about on-line auctions—no other numismatic author has ever been as bold in exposing Internet scams!**
- A comparison of PCGS versus NGC—which service does the market really favor?
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins and much, much more!**
